

Oil Polishes Come And Go – but Liquid Veneer Goes On Forever

*Treat Your Mop*

*With*  
**LIQUID VENEER**  
And Stop Greasing Your Floors

**MOST FLOORS ARE ONLY HALF AS CLEAN—  
HALF AS BRIGHT AS THEY SHOULD BE**

LIQUID VENEER, applied to ANY oil or dust mop, will improve floors instantly, will make them look twice as lustrous, and much cleaner than even soap and water can make them. More than that, Liquid Veneer preserves the varnish or finish.

Just sprinkle Liquid Veneer on any oil or dust mop. Don't bother to wash it. Then notice the wonderful transformation when used on your floors. Instead of mop sliding over the dirt and depositing a film of dust catching oil, this Liquid Veneer treated mop will clean off all oil, grease and other stains, leaving a clean, beautiful, dry, lustrous polish besides.

Remember, Liquid Veneer will work wonders on any oil or dust mop. The improvement will be so noticeable, you will be astonished. Instead of greasy, oil-stained and darkened floors, you will have bright, clean, lustrous floors which will glisten like your piano.

It is not necessary to have a Liquid Veneer mop; any mop will do it, providing you treat it with Liquid Veneer. "Seeing is believing." Make this trial for the sake of your floors. Results guaranteed.

25c, 50c, and \$1.00 per bottle. At all grocery, drug, hardware, paint and department stores.
