ed lower prices in preference to nursing the flour in store. Spring Extra has been sold during the week at \$4.60 and a round lot of Extra chariged hands at \$4.75. The receipts of Superior Extra have been light and this grade has not participated in the decline.

FORS AND SKINS.—Rates for raw furs are likely to be lower as the foreign markets are fully stocked and holders cannot realize without submitting to a loss. We would advise buyers throughout the country to hurry forward all raw skins as fast as collocted, as prices cannot ad-vance this season. We quote : Beaver, \$2.00 to 2.25; Prime Black Bear, \$6 to \$12.00, accord-ing to size; Fisher, \$5.00 to \$7.50; Silver Fox, \$25 to \$160; Cross Fox, \$2.00 to \$5.00; Red Fox, \$1.25 to \$1.50; Lynx, \$1.50 to \$2.25; dark Labrador Martin, \$7 to \$5; pale Martin, \$1.50 to \$2.00; prime fresh dark Mink, \$3.00 to \$4.00; ine dark Otter, \$8 to \$10; Fall Muskrat, 12c. to 14c.; Winter do, 18 to 20c.; Spring do, 25c.; Raccoon, 25c. to 60c.; Skunk, 20c. to 50c. skins as fast as collected, as prices cannot ad-

GRAIN .- There is nothing whatever doing in grain outside of the farmer's market. Meantime, in the absence of transactions we suspend quotations.

GROCENES.—The wholesale trade is light, but probably not far behind the usual amount for the senson. In the matter of Railway traffic, the declared intention of the Grand Trunk to carry goods from Chicago to Boston at rates below the desired wish of U.S. Railways will, it is hoped, be extended to Canadian hocal traffic. No kind of doubt may be enter-tained but that if a low winter turiff were adopted and maintained by all our Ganadian Raifways-main and connecting lines-it would be of great benefit to the general trade of the country as well as of course to the railways.

Sugars .- A definite settlement of the U.S. drawback allowance is now made at \$3.60 the 100 lbs. on what is known as dry refined white sugars, as dry crushed, ground and granulated, and for sugars inferior, but above No. 20 Dutch Standard 3 cts., and below No. 20, 2½ cts. This will tend to keep out all grades except the highest from competition with our refiners. Prices for sugars generally are without noteworthy change, except as arising from above decision ..

Teas, quiet. U.S. duty question is for the present left over. In Fruit there is less demand than usual for the retail trade. Prices are about as before quoted. Coffee.—The turn easier. Rice, Spices, Chemicals, &c., inactive at about previous prices.

HARDWARE .- Trade in the iron districts of England continues unsettled, large numbers of men being out of employment and nearly reduced to want, yet the views of masters and men are far apart, and the dearth of orders tends rather to the blowing out of furnaces than the relighting of more. one of the most abundant on record, but the quality is said to be inferior. In Spain, how-ever, the yield scarcely reaches one-third of the ever, the yield scarcely reaches one-third of the aver, the yield scarcely reaches one-third of the average, but the quality is very good. French 1875's ought to be cheap in the market. Busi-ness is quiet here, and there is no change to note in prices. LUMMEN.-There is nothing doing in the Ottawa lumber trade at present, as far as sales are concerned. A rough estimate, made by some of the manufacturers, gives the amount of sawed lumber being wintered over in Ottawa and vicinity at 100,000,000 ft., or about the same as last year. This will be all ready to go forward in the spring, if the markets open up lively. The prospects of a shortage in the British markets and the Eastern States have prompted some of the lumbermen to increase their operations in the woods this winter more than they intended dowoods this winter more than they intended do-ing a month ago, and, but for the decided stand taken by the banks, there would be another glut in the Quebee market next season. As it is there appears to be very little falling off in the preparations for taking out square timber, the only difference being that the firms are com-mencing work much later in the season. However, men, teams and supplies are so cheap that the lumbermen who are independent of the banks will operate as heavily as usual. There banks will operate as heavily as usual. is a great falling-off in the number of jobbers and speculators in saw logs. The lumber offices are daily besieged by crowds of men looking for work in the shantles. A first-class shanty crew can be engaged at an average of

\$10 to \$11,50 a man per month for the senson, prices at Quebec : Pine deals, 1st quality \$90 per Quebec standard; 2nd do, \$56 do; 3rd do, \$28.
