## STEEL AND RADIATION FEATURE THE TRADING

Fairly Broad Market at Toronto, But Speculation is Curbed by Lack of Funds.

With a fairly broad market, prices senerally were strong and higher on the Toronto Exchange yesterday. The spectacular movements were restricted to the unlisted section with Ames and Steel and Radiation the active issues. Steel and Radiation had another sharp rise, the concluding price being 69, against an opening sale at 62½. The specialties in the listed depariment were less active. Cement recovered to 43 1-8, from 41½. Steamships common reached 19 3-4 before a reaction, while Steel of Canada was especially dull within a range of 1-8 of a point.

The two big steels, Dominion and Nova Scotia, were stronger. Steel Corporation advanced to 50 1-4, and Nova Scotia to 99 3-4. The buying in these two is largely for investment, and for a long hold rather than a possible quick speculative turn. Smelters was listed yesterday. turn. Smelters was listed vesterday, but was given a very quiet reception, only seven shares changing hands.

Brokers find it difficult to accommodate speculative accounts on margin, and but for this a much more active

Nipissing Shares.

Hollinger was in the lead in point of strength on the mining exchange yesterday, with sales at 26.75, and other offers at some distance higher. Generally speaking, the market was inactive, but the tendency was towards higher valuations for the shares of companies whose stocks are not mere counters for speculation. The steady rise in the price of silver, and the bedief of financiers that the white metal will be much in demand after the war has given a new impetus to the Cobatts. Peterson Lake, among the dividend payers, is attracting an investment following which is the best guarantee of stability for the stock. Yesterday's price was 241-2, a figure it is claimed which does not nearly demand for present known intrinsic valuation. Among the medium priced Porcupines, the best demand exists for McIntyre Extension, and there is a well defined conviction that the large holders are ever present to prevent speculation in the shares which would and Timisk and Crown Reserve at 41% and 75 respectively. MONTREAL GRAIN MARKET.

MONTREAL, Nov. 12.—There was little improvement in the foreign demand for grain today, but some orders for wheat were received for nearby shipment. Prices were in line with exporters' views and a few odd loads were sold. Exportrade in oats was quiet. The demand for wheat locally was good. Locally oats were ½c to 1c per bushel higher. Flour was active and firm. Millfeed is in good demand and supplies are ample to fili all requirements.

STEEL FAMINE EXPECTED IN A

President Cantley of the Nova Scotia Steel and Coal Co., is authority for the statement that during nine months of this year, just ended, four months of this year, just ended, four million shells were sent out by Canadian manufacturers, of which twenty-five per cent. were fixed shells. Col. Cantley states that the N. S. Steel alone made 2.145,000 shell forgings, 20 per cent. of which were for the largest size explosive shells. He anticipates that next year or so will witness a steel famine unprecedented in the a steel famine unprecedented in the history of the Dominion.
