Canadian Dairy Products

"The Ontario government," says the London, Ont., Farm and Fireside, "has established a dairy school at Strathroy, so as to better instruct Canadian dairymen in the art of making good cheese and butter. In the export of cheese Canada leads the world, its output being \$20,000,000 worth per year, of which one-half is furnished by Ontario. The export of cheese from the United States has only been about one-half this, and that of Holland only one-fourth that of Canada. The deficiency of Canadian dairymen is in making butter. In this they are far outstripped by dairymen in the United States. Many of the Canadian farmers' wives have not the conveniences and knowledge requisite to making good butter. One of the most important points in making butter to be marketed is to have a uniform product. This the Strathroy school will promote. It will be under the charge of Professor James Mills, the president of the Ontario Agricultural College at Guelph."
