REPAIRS BETWEEN TRACKS

Board of Works Made Up Its Mind to Bring the Street Railway People to Time.

William Armstrong the Victim—Joe Cream Stolen From a Social—General News.

Hamilton, June 25.—(Special).—An arrangement was reached to-night at the Board of Works meeting in regard to the repairing between the street railway tracks on streets where new pavements are to be put down. At first it was reported to the board that nothing had resulted from the several conferences, and the board passed a resolution that the work must go on at once, or the company would be compelled to do it. Later it was announced that the company was willing to do the repairing for a year, free of cost to the city; after that it would do the work, the city to supply the material. This was acceptable to the board.

Carrying for Cement Walks.

The question of carrying for cement walks came up, and Ald. Tom Erskine's resolution in Council was spoken of, namely, it was decided to send back to Council the report recommending the walk to be laid down, introduced at the last meeting by Ald. Findlay.

The law demands that a bridge must be seven feet higher than the highest cars. The board did not give its consent, but it raised no objection.

The clerk of the Catharine Power Company about the 41 pole tax and other grievances was talked over, and the chairman, Engineer Wingate, and the City Solicitor, Mr. Mayo, were appointed a committee of three to meet the company's representatives and straighten out the matters in dispute.

Watkins' building. Constables Little and Harris swooped down and gathered in Lachance.
