One thing McDougall wanted to impress upon the reporter was that he now hat always been able to do this work notwithstanding his domestic troubles. He did not know what the outcome of this trouble would be, but he was satisfied to await what was coming to him.

Mr. Jarvis was the successful skipper twice for the R.C.Y.O. in the Canada's Cup contests, winning with Canada at Foledo and Invader at Chicago. His only reverse was over the Toronto course on the Beaver against the Rochester craft Genessee.

It is hardly likely that the request of the Rochester Y.C. to have the Canada cup contest take place in July, instead of the dates selected, viz.. Aug. 9, 10 and 11.

Speculation was rife as to where the bodies of the two unfortunates were. Some said under the ponderous boilers of the wrecked engine, while others thought something of them might be found where the first cars had crushed over the two big imoguls, which had ditched each other. At a late hour last night nothing had been discovered to indicate that the two men were dead, but, nevertheless, there is a wardead, but, nevertheless, there is a war-rant issued for an inquest by Coroner Aldrich, and it is said that he handed it to the constable at 2 o'clock in the morning. Dr. Julius Remmson, on this subject, says: Nervous persons, people run down in health and of low vitality, should; eat meat, and plenty of it. If the digestion is too feeble at first, it may be easily corrected by the regular use of Stuart's Dyspepsia Tablets, after each meal. Two of these excellent tablets, taken after dinner, will digest several thousand grains of meat, eggs or other animal food, in three shours, and no matter how weak the stomach may be, no trouble will be experienced if a regular practice is made of using Stuart's Dyspepsia Tablets, because they supply the pepsin and disastase necessary to perfect digestion, and every form of indigestion will be overcome by their use.
