CIRCUS COMING TO TOWN BEST, BIGGEST EVER SEEN

Ringings Aggregation of Per-
formance, Spectacle and Men-
agerie Arrives Sunday.

There are circuses and circuses, but Ringings Brothers have a peculiar place of favor hereabouts. The four special trains of circus to convey the enormous shows from place to place en route into Toronto early Sunday morning. Probably before the early riser has had his morning coffee, if he lives within sight of the College-street show grounds, a strange city of canvas will be sprung up and fluttering flags will bespeak the circus' arrival.

There is something fascinating about the circus, the sleek horse, the cunning equine, the lazily swinging trapeze, the meekly sleeping canals and the thousand and one other signs and things that go to make up a great and wonderful show. The Ringings Brothers' circus, this show is peculiarly attractive to the public in its way of presentation, and during the afternoon of this well-earned day of rest for the circus men the crowds are permitted to roam at will over all the tents, except the menagerie and the circus proper.

Monday's Street Parade. Ringings' Brothers' circus will be in Toronto two days and give two performances a day, Monday and Tuesday afternoon. The street parade, which is the feature of the show, will leave the College-street show grounds Monday morning at 2 o'clock. This parade will present more novel features and tasteful exhibits than ever before seen on the streets of Toronto in a procession of its kind.

The circus includes this season a dramatic spectacle called "Jerusalem and the Crusades," which employs 1200 dancing girls. This production is presented upon a vast stage of magnificence, and occupies about 30 minutes of time before the ring acts proper begin. Over 200 costumes are worn. The circus bill contains about 100 acts interpreted by 275 performers, most of which are new faces to the city. At the head of the long equestrian list are the four Eldreds from England and the four Bedlins from Italy, the latter being a specialty which is entirely new to the circus, and has been seasonally effective. Another important feature of the circus is the seven Glaserettes from Germany; then there is the Kaufman family, who are dancers from Paris, offer a specialty which is entirely new to the circus, and has been seasonally effective. A Thriller is provided in the much heralded "Leaning the Gap." Walter Lowe rides a bicycle down an almost perpendicular incline, 90 feet long, with the momentum gained, jumps three spaces 12 feet and lands upon a padded incline 12 feet above the ground, and wheels into the hippodrome track. This sensational act thrilled all Europe last winter, and is pronounced the most daring feat ever accomplished.

FLOODS IN KANSAS.

Hundreds of People Rendered Home-
less by Cloudburst.

Kansas City, Mo., June 3.—All tributaries of the Kaw River in Kansas are rising rapidly to-day and a serious flood is threatened. Railroad traffic is delayed, and the city is in a state of alarm. The flood is expected to reach the city in a few days, and will cause great damage to the property of the city and the surrounding country.

At Emporia, the Cottonwood River overflowed and the business portion of the town was flooded. Much damage was done to the property of the city and the surrounding country. The flood is expected to reach the city in a few days, and will cause great damage to the property of the city and the surrounding country.

A POPULAR MOVEMENT.

Kingston News: Government own-
ership has been thrown forward by
the stand of Mr. Borden on the railway
problem. It is now a question of
whether the country is to pay nine-tenths
of the cost of construction it ought to
retain possession of the road and
amount to over \$200,000,000.

The objection that the government cannot operate as economically as a private corporation will hardly be accepted by those familiar with the past history of Grand Trunk management. This road, under private management, has not paid a cent of interest on the millions loaned it by Canada; it has not paid dividends to its original bondholders, and till recently all who put money into the concern received no return. Hence, it is not surprising that the government, in order to discount the management by government, is to rest the argument on a very flimsy basis.

It is pointed out by a contemporary as noteworthy that the Laurier government's two main aims in speaking in praise of such a management in order to discount the management by government, is to rest the argument on a very flimsy basis.

TO REVISE QUEBEC STATUTE.—
Montreal, June 3.—(Special.)—It is understood that Col. J. P. Fisher, ex-crown prosecutor for this district, will be appointed in the commission to revise the Quebec statutes. Hon. H. Archambault, attorney-general, will move, likely to be carried, the last revision took place in 1883.

"A Delightful Trip."
This has been the remark made by a large number who have already made their trip to St. Louis, desiring to see the exposition with everything as fresh, and they have been loud in their praise of the excellent train service and equipment provided by the Grand Trunk Railway, which is the popular route to this great Exposition.

For a wedding trip, you could not find a better route than to spend a few days at the Fair, as the low rate of \$15.00, in effect from Toronto, gives you an opportunity of visiting in Chicago, also at Canadian stations and at Detroit.

Before making arrangements for a holiday trip, call at Grand Trunk City Ticket Office, northwest corner King and Yonge-streets, for illustrated literature and full information.

Who Should Visit the World's Fair, St. Louis.
Mechanics who have ambition, teachers who are progressive, students, clerks, cashiers, lovers of art, in fact all who desire to keep up to the times and not desire to miss it. It costs \$12.50 only for round trip from Toronto. Call at Grand Trunk City Office, northwest corner King and Yonge-streets, for illustrated literature and full information.

PROTECT HOME CONTRACTORS.

Yankees Should Be Shut Out When
G.T.P. Is Built.

"Why should United States contractors enjoy privileges in Canada that are denied to Canadian contractors in the United States?" asked a prominent contractor of The World yesterday, referring to the Grand Trunk Pacific project and the investigation now in progress concerning the allegation that American engineers have been employed by the Grand Trunk to the disadvantage of home firms.

"They have a statute in the United States barring aliens from competing with United States contractors, and we are prevented by this statute from tendering on the work of the enlargement of the Erie Canal, for which a vote of \$101,000,000 has been made by the State of New York. A few years ago Connolly Bros. were shut out of the Philadelphia harbor improvements, the reason given being that they were foreigners. Their tender was about \$125,000 below that of the next lowest tender.

"When we fail to produce enough contractors in Canada, and they say we did in the case of the engineers, then there can be no objection to allowing foreigners to come in. If the Canadian people are to pay for the railway they ought to be given the preference when the money is being paid out for the construction of the railway. If the Yankees are allowed to come in, a large slice of government money will be taken over the border to promote American prosperity. It is natural to suppose that the orders for their supplies will be placed with the firms that have been dealing with for years, and thus money that ought to stay in Canada will be sent out of the country."

The gentleman spoken to added that Canadian contractors built the C.P.R. with the exception of Oronderk, who was an American.

DREAM AN IDLE ONE.

Emperor Bill Will Be Unable to Ger-
manize Brazil.

Montreal, June 3.—(Special.)—James Mitchell, manager of the Sao Paulo Electric Railway and Power Company, left for Toronto to-day. He has lived in Brazil for 14 years, and being asked what he thought of the German Emperor's dream to get hold of Brazil, said: "This dream, if it ever existed, is an idle one. The Germans, like all other nationalities, do their best to secure a foothold, and they make excellent citizens of the republic, but there is no more chance of Brazil being Germanized than the United States. The third generation, and perhaps the second, of these German families, is to all intents and purposes Brazilian. Neither Germany, the United States nor any other foreign nation will ever be able to dominate Brazil. They might be able to secure a foothold on the coast, but would never be able to dominate the country as large as the United States proper, and the population is thirty millions. The Italians are the most numerous of any foreign race, and they, too, are gradually, yet surely, being blended with the native Brazilians. The Italians have also become large propertyholders, and their people are doing well generally."

Mr. Mitchell explained that the president, as well as the government, highly appreciated the enterprise of Canadian capitalists, who had invested large sums of money in Brazil, and as they had been most successful, would no doubt place a great deal more in the hands of the republic. The Rothschilds have just made a loan of \$5,000,000 to the Brazilian government, to be used on the Rio Harnas work, but as the government has been doing Brazil business for years past, it does not look as if they had any apprehensions as to the country's ability to pay the interest.

LOAF.

Rev. W. J. McCaughan to Preach in
Massey Hall.

The Rev. W. J. McCaughan, formerly pastor of St. Andrew's Church, Toronto, and now pastor of the Third Presbyterian Church, Chicago, will preach at the 30th anniversary of the formation of the Independent Order of Foresters in Massey Hall on Sunday afternoon, June 13, at 2:30 o'clock. Admission will be by ticket. The speaker and his friends will be able to secure tickets by applying to the reception room, 508 Temple Building, or to W. C. Tidman, 80 Wellington-avenue, secretary of the committee, or to Geo. A. Mitchell, Coleman P. O., Ontario, the chief clerk of the service, which will be conducted by J. C. Arlidge and Ernest Bowles and a choir of 150 voices will take part.

Messrs. Donald McGregor and Augustine Arlidge will sing solos. Those desiring to attend these services, which are members of the order or not, are requested to apply for tickets of admission at as early a moment as possible.

Rivals Out West.

Calgary Alberta: The broad-minded merchants of Regina have shown a bit of their chivalrous spirit in connection with the coming trade convention of the territories, which will be held in Calgary in the middle of next month. The Regina people not only decline to send delegates to the convention, but have decided to send representatives to the other boards of trade in the territories with a view to having them take similar action. Probably in all history a smaller, more jealous action has never been recorded.

Swindled by Wire Tappers.
New York, June 3.—A wealthy Australian who arrived in New York ten days ago from London was swindled out of \$25,000 by a band of wire tappers a week ago in a Broadway hotel. The man, who is a large business connections, and also because of the fact that he was equally glib with the wire tappers, the Australian made no report of the matter to the police, but sailed on the following day for London.

Big Change in Barber Shop in Town.
Bob Cuthbert, the genial proprietor of the Temple Barber Shop, is taking over the Temple Barber Shop on Monday, June 6. Bob is running this as a first-class barber shop, and will be pleased to have his friends call and see him when he gets thoroughly located in his new premises.

Three Dead in Mine.
Prescott, Arizona, June 3.—Fire at the Hackberry mine has destroyed the hoisting plant and resulted in the probable death of three miners. One man in his effort to go down into the shaft fell 200 feet and is supposed to be dead.

Free to Men Until Cured.

For nearly 40 years I have successfully given new life, strength and vigor to weak men. Think of the wonderful merit of a remedy that has stood the test of the centuries. I give it freely to all suffering from the effects of the wrecks of a life of dissipation, who are feeble, suffer from varicose veins, and exhaustion, rheumatism, lame back, etc. My cure number tens of thousands, and many were at home, whom I can refer to by permission.
