W. W. Leonard and Dr. W. McIntosh Point Out Opportunities

Give Trade Board Committee Information re Fisheries and Mineral Possibilities.

Great possibilities in both the local fishing and mineral industries were told at a meeting of the Industrial Committee of the Saint John Board of Trade this morning. W. W. Leonard, of Leonard Fisheries, said that there was a wonderful field for the development of the fishing industry in and about Saint John, particularly the export trade. This development, he pointed out, would mean more employment.

### IN MINERALS

Dr. Wm. McIntosh, curator of the Natural History Society, submitted an exhaustive report of the mineral possibilities of the province, showing that development in this regard had been so far only on the top. He said wonderful opportunities in the development of mineral products existed in New Brunswick.

A. F. Blake presided, and others present were W. S. Fisher, W. A. Nicholas and E. J. Terry.

Much valuable information was brought out and a full report is now in the course of preparation for the annual meeting of the Maritime Board of Trade next month in Charlottetown.

### SUGAR BIG HELP IN BOOST OF IMPORTS

Chief Cause of Large Increase in Customs Receipts Over Year Ago.

The great increase in the customs import duty for the month of September for Saint John over that of the same month last year, reported yesterday, was largely due to the heavy increase in the amount of sugar coming to this port. Collector C. B. Lockhart said this morning when asked concerning this gain. General imports also were well over those of September 1924, he said. The gain for the last month was the largest in proportion of any month this year as the receipts were more than double those of the same period last year. The import duty last month was \$439,879 and for September 1924 was \$192,964.

### MEIGHEN TAKES UP H. B. RAILWAY ISSUE

Says Government That Built Line Will Finish It—Attacks King.

Canadian Press. WINNIPEG, Man., Oct. 2.—During his speech last night, at a campaign rally for the four federal constituencies of Winnipeg, Hon. Arthur Meighen, Conservative leader, replied to Premier King on the Hudson's Bay Railway issue.

He repeated Mr. King's promises in regard to the railway were an affront to the people of the West, as he made their fulfillment contingent upon the return of the government supporters in the west.

"The government that built the line," he said, "will finish it. What we start we finish. I will take immediate steps to ascertain the cost of completion so as to give it a fair trial. As soon as the country is in its feet and can spend that money, I will spend it and I will be greatly disappointed if I cannot come back to you at the next election with this work done."
