STEEL BAIDS TO SPAN AUSTRALIA

Premier's Plans for \$20,000,000 Railway

SUMMONS BY KING

Col. Pellatt and Queen's Own Rifles Detachment to Balmoral on Monday—Duke of Connaught Compliments Regiment—T. P. O'Connor to Sail on Baltic

Times' Special Cable Melbourne, Sept. 8.—Premier Fisher, in his budget speech yesterday, announced the proposed construction of a transcontinental railway at a cost of \$24,000,000. He extended a cordial welcome to British emigrants.

Hon. MacKenzie King has been appointed one of the vice-presidents of the permanent international committee on social insurance. Among Canadians attending the British Association meeting are Prof. Buller of Winnipeg, L. G. Coleman of Moncton, Alberta, R. A. Fessenden of Hamilton; Professor and Mrs. Alexander Johnston of Montreal; Prof. J. C. Fields and R. F. Stupart of Toronto.

Col. Pellatt to Balmoral

The king has commanded Col. Pellatt and a detachment of the Queen's Own Rifles to visit Balmoral on Monday. The Duke of Connaught, senior personal aide de camp to the king, inspected the Queen's Own by command of his majesty. He closely inspected the men and, addressing the regiment formed in a hollow square he said he was instructed to inform the king to welcome them to England. He thought it a great compliment to be the king's representative on this occasion. He spoke of the pleasure of his participation with the Queen's Own Canadian regiment in the defence of the Dominion frontier in 1870. He hoped the visit would be a pleasure to all and that they would carry back recollections of good comradeship with the regular army, and that they would go back greatly improved regarding the way the regular army trained.

They had, he said, most excellent march in the ranks. He considered the march past excellently executed. In bringing the regiment to England Col. Pellatt had performed a great imperial duty. You have shown us," he said, "the material of which the regular army is made. You have shown that the same patriotism and devotion to the sovereign exist in your ranks as exist in the ranks of the British army here. I am certain one thing you will take back to Canada is the good feeling and lasting friendship of your comrades of the regular army in His Majesty's name. I assure you of the very great pleasure and satisfaction it has been to me to know you have been the first of his troops from overseas to take part with regular troops in peace manoeuvres. I wish you every success here and hope you will have a happy return to Canada and be welcomed with open arms here.

Captains Pellatt and Kirkpatrick have developed typhoid fever, contracted in the hospital in Quebec. At a librarians' conference in Exeter, Dr. Loner, of Toronto, made an interesting speech on empire binding. Canada, he said, was more closely allied to the mother country than ever, and this was due in large degree to the education work. Rev. Douglas Ellison, of Regina, has sent a pressing letter for workers. The difficulty of the archbishops' council in finding men who can immediately.

Professor Fessenden at the British Association meeting today outlined the possibilities of harnessing the wind and sun to produce electrical energy. He said the number of windmills around the coast would give power to run all the railways, factories, and electric light stations in Britain, but he thought, laughingly, that with solar energy Britain would not do so well. Sir W. White doubted the practicability of the scheme.

At the conclusion of the meeting A. P. Coleman, of Toronto, proposed a vote of thanks to the Sheffield people for the generous arrangements for the meetings. The cruiser Rainbow, like the Niobe, possesses no great tub. T. P. O'Connor, M. P., sailed on the S. S. Baltic to four Canada on behalf of the Irish party funds.

RAISES A QUESTION FOR THE DIPLOMATS

St. Petersburg, Sept. 8.—The decision of the Persian National Council to appoint seven Frenchmen as financial advisers to the Persian government was the culmination of a heated dispute and is causing a split between the ministry and parliament. A diplomatic question has been raised by the invitation of the Persian government to Americans to become financial advisers as Russia and Great Britain are understood to favor advisers belonging to neutral states.

MORGAN SAID TO BE THE GENEROUS DONOR

Cambridge, Mass., Sept. 8.—Through the generosity of an anonymous donor, the Harvard University library has come into possession of the magnificent Lettice collection of the works of Alexander Pope, which consists of upwards of 300 volumes of books and pamphlets. The gift is an important one, as the collection is the most extensive brought together by any student, and includes some volumes not in the British Museum library. Harvard already had some 120 volumes in addition to those given so that its Pope collection is now unequalled in America. While the name of the donor is withheld, it is understood that it is J. Pierpont Morgan.

THE WEATHER

Variable winds, a few scattered showers, but mostly fair.

RECORD DAY AT FAIR IS EARLY INDICATED

ALL IS HUSTLE

Everybody Rushing This Morning to Get Ready for Handling the Big Numbers Expected This Afternoon and Evening—More Prizes Awarded Today

As had been expected the meeting of the shareholders of the D'Issraeli Lumber Co., held this morning in the office of Hanington & Hanington, proved to be an interesting session. About fifteen shareholders were present from various parts of the province and from Maine, Sydney Woods, the president of the company, occupied the chair. After the business of the meeting had been finished, an adjournment was made for one month. A resolution was passed outlining arrangements for the reorganization of the company, the appointment of directors who would take steps to raise money to continue operations and settle claims, and stating the amount of capital stock to be fixed at \$400,000.

Two shareholders told of having paid into the company money amounting to more than \$1,500, and having received no share of stock, but Mr. Hanington assured them that these would soon be issued. Mr. Mullin contended that the meeting was illegal, on the grounds that the notice was not properly given, and therefore no business could be transacted. This objection was ruled out, however, and the meeting proceeded. On behalf of Mr. McManis, M. T. Cololan, of the north end, asked some questions of a strikingly pertinent nature, but Mr. O'Breedy contended that he had no right to ask these questions, he being only there by proxy.

LIVELY SESSION OF D'ISRAELI COMPANY THIS MORNING

Some Sharp Exchanges By Lawyers—Decision is Reached to Re-organize and Raise Money to Pay Claims—Mr. Mullin's Statement

Some of the questions and answers were as follows: Mr. Cololan: Why was not the company incorporated under the laws of Quebec? Mr. Hanington: "Ask Isaac." Mr. Cololan: "What became of a check for \$500 that was given to the company on December 28, 1909?" Mr. Hanington: "Mr. O'Breedy got that money, in Sackville. There was a hitch in procuring the charter." Mr. Cololan: "What items of expense did Mr. O'Breedy contend that used up the \$500?" Mr. Hanington: "I have permitted to use these funds when they were to be used for nothing else but the incorporation of the company under the laws of Quebec." (Continued on page 3, fourth column.)

TONIGHT'S PROGRAMME

Orchestra in main building. 7.30 p. m.—Performance in both amusement halls. 8.00 p. m.—Grand open-air concert programme. 8.30 p. m.—Grand programme of amusement features in front of the grandstand, concluding with the magnificent display of fireworks. The \$200 worth of protechnics will include the wonderful allegory, "The Battle of Dreadnoughts," in both amusement halls.

THE SACKVILLE FAIR ON OCT. 5

The Speakers at the Opening—Bowler and Warden Main Weddings

TO CHECK SMUGGLING TO STATES THROUGH CANADA

Washington, Sept. 8.—Home-coming American tourists who return from Europe by Montreal and Quebec are being kept under the vigilance of the customs officers at New York, who find some of the New York inspectors who are familiar with the faces of frequent travellers on the ocean liners waiting to inspect their trunks.

RECONNOITERING FAR ABOVE EARTH

Prussian Holland, Prussia, Sept. 8.—Air reconnoitering will be the most interesting feature of the imperial army manoeuvres beginning tomorrow in the vicinity of Koenigsberg on the Baltic Sea. Each army will have one good dirigible balloon. The air scouts must work at least 3,000 feet above the earth. Each has been fitted with wireless telegraph. Sixty thousand men are taking up their positions today.

STORM COMING FROM SOUTH

Keywest, Fla., Sept. 8.—Heavy squalls from the northeast accompanied by rain and a falling barometer early this morning indicated the approach of the tropical storm, which was reported by the weather bureau of Porto Rico yesterday. It is estimated the storm has travelled 200 miles.
