## CUNNABELL'S NOVA (9) SCOTIA ALMANAC.

teachers towards the scholars. Among the witnesses examined was a bright little fellow about ten years of age, who was asked whether he thought his teacher was " partial?"

" Nor, thir, he aint," he answered, promptly enough.

" Do you know what ' partial' means?"

"Of coath I duth," said the young rogue, quite indignant at this imputation upon his intelligence.

edible, is early planting, selecting of early varieties, thorough cultivation, and early digging, or cutting off or pulling up the tops before the plants evince strong symptoms of disease.

SEASONS FOR FELLING RESINOUS TIMBER.—In cutting timber of all kinds advantage should be taken of the season which will favour their duration and strength. Thus oak and most other kinds of non-resiniferous trees, as far as the knowledge of practice extends, are stronger and more durable when felled in early winter, at the time the pores contain but little sap. On the contrary, the timber of pine,
