With the Diamond Dyes success is alnot complied with the terms under which the lands were obtained." ways sure and certain. "How about the present system of texation?" was asked. A TRIBUTE TO THE QUEEN.

"I must decline to go into that mat-ter at present," was the reply. "The equalization of taxation is one of the most important features of legislation-all classes should be made to share the

burden without the slightest discrimination." In further conversation Mr. Higgins was induced to say that he favored a redistribution of electoral districts, and hopes to see the government bring down a bill for that purpose at the next session. He believed that Kootenay should be given a number of extra representatives.

Sir James Grant predicts that the gold | mearest adviser of the sovereign of so output of Canada, especially of British Columbia, will astonish the world at no distant date.

MOST PERFECT MADE. pure Grape Cream of Tartar Powder. Free Ammonia, Alum or any other adulterant 40 YEARS THE STANDARD.

Seattle Times: The strong characteristics of Queen Victoria have been those of great common sense and sound judgment. Her voice has always been for

peace, although her government has always been prepared for war. It is probably true that the Prince

Consort was one of the most devoted husbands and a nun mentally and morally calculated to inspire confidence in the Queen, and well prepared both

8

gists.

by temperament and education to be the great an empire. The reign of Queen Victoria has been marked by no personal incidents which so frequently occur in the lives of monarchs, affecting them mentally, morally or physicallybut rather by a reign of great stability

and equilibrium which could come only from a strong character, a well balanced nind, a splendid heart and a determination to accomplish for her people all that lay within the possibilities of the magnificent opportunities which have pre-

sented themselves to the British sovereign during the last sixty years. We believe that there will be no na tion but will rejoice most sincerely with Queen Victoria and the British government on this great jubilee occasion which begins to-day, with its centre in London, but its circumference includ-

ing every civilized nation in the world. Not many business houses in the United States can boast of fifty years' standing. The business of Dr. J. C. Ayer & Co., Lowell, Mass., whose in

comparable Sarsaparilla is known and used everywhere, has passed its halfcentennial and was never so vigorous as at present.

view to ascertaining what can be done points and Central America was" the in the way of selling the salmon. These contrast of the seasons; when our fruit private enterprises, Mr. Sheppard said, was ripe theirs was not, and when their gave more encouragement to the governfruit was lipe ours was not. A profitment than a whole lot of talk. The

able business could be built up on the countries of South America being Cathexchange of seasonable products. Look olic countries, Mr. Sheppard continued, at the trade in apples with Australasia; they used a large quantity of fish, but has grown from about 200 boxes at as the people were for the most part first to a large business. The Dominion poor they wanted a cheap article. Cangovernment were anxious to make a disada, he said, was selling large quantities tributing point on the Pacific coast, and of fish on the Atlantic coast. Mr. Sheppard said that he felt sure that soon we should have Canadian ports as important as New York and San Francisco. Concluding he said: "Everypard said, that for the most part Spanthing is being done to get the trade for ish was the language used.
