REGINA FEDERAL LIBERAL CONVENTION ON JULY 19

Posters advertising a great Liberal meeting at which it is desired

to unite all progressive forces in preparation for the tariff fight is called under the auspices of the Saskatchewan Liberal association for the Regina federal constituency at 8 o'clock in the city hall July 19. All men and women who believe in tariff reform and other progressive measures are invited to attend this convention for the purpose of reorganizing the Liberal party in the federal constituency of Regina and also appointing delegates to the National Liberal convention.

The convention is wide open to anyone who believes in low tariff and progressive government. Premier Martin and Hon. George Langley will give addresses.

RELATES HER EXPERIENCE

Mrs. Berge Holte of Alwater, Sask., writes as follows: "By my own experience I have found Fari's Alpenkrout to be a good remedy for poor digestion and for building up a broken down system." Her's is the experience of many others, because this well-known herb remedy never fails to do good; it regulates the stomach and invigorates the whole system. It is not a drug store medicine; special agents supply it. Address, Dr. Peter Fahrney & Sons Co., 2501 Washington Blvd., Chicago, Ill. Delivered free of duty in Canada.

NINE NURSES GRADUATED FROM GREY NUNS HOSPITAL

On Thursday last, nine nurses of the Grey Nuns Training School graduated with honors. The graduation took place at the St. Mary's Hall, which was tastefully decorated for the occasion. Dr. A. S. Gerrill as a most capable chairman, congratulated the graduation class. His Grace Archbishop Martin in a brief congratulatory address presented the diplomas to the nine full-placed nurses. The nightingale oath was administered by Premier Martin, who also spoke highly of the nursing profession.

BRUTAL HUSBAND GIVEN YEAR'S TERM

Olaf I. Smith, who was convicted by a justice of the peace at Sharnston last week of having beaten his wife during the past two years, will spend next year in Regina jail. Mr. Smith up to Friday last has lived on a farm near Admiral and

at times took out butcher knives, pick-axes and other instruments and started to warm things around the humble home. Mrs. Smith was always the object of his attentions and the time came when she could withstand no longer, so informed Constable Anderson of the provincial police force.

BORN A DAUGHTER

We are informed, that on Sunday evening, June 22nd, Mrs. P. L. Craigen (nee Erna Niederstalt) of Vanguard, Sask., formerly residing at 1905 Halifax Street, Regina, at the Grey Nuns Hospital has given birth to a bouncing baby girl, weighing about 10 pounds.

PEACE CELEBRATION AT REGINA

"Under such a man as now sits on the throne of Great Britain and Ireland, we have no reason for pessimism, but reason to believe that the fiery ordeal through which we have passed was a blessing rather than a curse." With these words Sir Richard Lake on Sunday closed his address at the musical thanksgiving meeting in Wascana park, which was attended by over three thousand people.

PEACE CELEBRATION AT REGINA

Promptly at 4 o'clock Sir Richard and Lady Lake and party arrived and were escorted to the stand, decorated with flags and banners by His Worship Mayor Black. On the platform were Rev. Canon Davidson, Rev. A. S. Lewis, Rev. John Lewis, Rev. Robert Milliken, Colonel J. Cross and Hon. C. A. Dunning, acting premier of Saskatchewan.

Mayor Black opened the meeting by calling attention to the fact that the thanksgiving ceremonies had been arranged in honor of the signing of the peace treaty on Saturday, which to every citizen of the British Empire was the official termination of the war.

Sir Richard Lake reminded the citizens that on the very spot on which he stood, they, during the last years of the war, held meetings at which they had reaffirmed their determination to keep fighting on until in order to bring the war to a satisfactory conclusion. This had now been accomplished and the citizens had gathered to render thanks to Almighty God for the success of British arms and those of their allies, and the complete victory of the foe.

the greater part of the province, and the only districts reporting heavy rains are Yorkton, Indian Head and Melville.

Between Saskatoon and Regina, Davidson seems to be the turning point. North of there, crops are light; south, they are better, and Regina District seems to offer a good crop, explained by the heavier land.

Reports received by the Canadian Pacific yesterday said prospects were good for the Greenfield and Moose districts. No damage had been suffered yet but rain is needed. At Indian Head the crop is fair. At Appelle is good but very dry. At Pense, a heavy rain fell Thursday night. Prospects are good. At Corinne, on the North Branch line, the crop is beginning to head out on account of drought. At Minto, rain is badly needed. The crop in the Neptune district is poor. It is reported as burning up at Bromhead. In the neighborhood of Colonsay, the prospects are good, if rain comes, for the Holdfast to Forslund district but in the Troas there has only been two hours rain during the last week and the crop is suffering from drought, grasshoppers and gophers. From Yorkton to Redlyn there was rain Thursday but the crop is heading out.

The Cooperative Elevator company received word yesterday that local showers were general all over the province on Thursday night, and that 70 inches of rain fell at Saskatoon. Their reports indicate a poor crop especially north and west of Saskatoon as far as Kindersley. In the Valparaiso district east of Prince Albert, the prospects are poor.

Saskatoon and district was deluged by another heavy shower early last night. The extent of the rainfall has not yet been ascertained, though the downpour was heavy for half an hour and was accompanied by a short but snappy thunderstorm.

Although some small streaks of rain accompanied the general shower that fell Thursday night, no damage was done to crops.

Lightning struck at several places in the district. The barn and machinery shed belong to Henry Wiebe, about nine miles south of Blaine, was struck by lightning at midnight and burned, together with six horses and a complete set of harness. Only small insurance was carried. There was no hay or feed in the barn at the time. About half an inch of rain fell in Blaine district, which it is stated, will be sufficient to save the wheat.

Hwyton: Light rain; Macklin: Had no damage; Senlac: Fine rain, a little hail, no damage; Perdue: Nice shower, good for ten days; Kinley: Two hours heavy rain; Wilkie: Heavy rain; Kerrober: Good burst; tracks washed out; Riverview: Heavy rain; Biggar: Heavy rain; Lockwood: Rain at 2 a.m.; Theodore: Showers; Duff: Two hours rain; Govan: Light rain; Wascana: Heavy rain at midnight; Springside: Heavy rain; Blucher: Good rain; Colonsay: Two hours rain; Yorkton: Very

light; Earl Grey: Very light.

The following bulletins were received from agents of the Great Northwestern Telegraph Company throughout the districts:

Radisson: Very hard rain. Water is standing on the surface; Richlea: Very heavy rain for half an hour; Dinsmore: No rain; Star City: Heavy rain; Beatty: Good rain; Prince Albert: Not very much rain; Crooked River: No rain; Melfort: Heavy rain; Vonda: Good rain during the night, but dry up fast today with strong hot wind; Delisle: Heavy shower at 10:30 p.m.; Marengo: Not much rain, but enough to do some good; Kindersley: Short, but very heavy shower; Rosetown: Very light shower; Netherhill: Very light rain; Alask: Scarcely enough rain to lay the dust.

There is still a chance for the crop in the Saskatoon district. The Melville district expects a bumper crop; at Yorkton crop conditions are excellent, also at Earl Grey.

"Where Valley and Height Fills Your Soul With Delight"

Such is the general opinion of patrons of the Canadian National Railways travelling to the Pacific Coast through beautiful Jasper National Park and in full view of Majestic Mount Robson, Mt. Edith Cavell, Mt. Warren and other wonderful sights. The Railway traverses an entirely new section of the Rockies and is replete with magnificent scenery the whole 600 miles through the Mountains. Advantages of this route are absence of grades, the highest point reached being only 3600 feet, the lowest altitude crossing the Rockies anywhere on the Continent and of immense benefit to people who are affected by high climbing; then again there is little curvature and a splendid roadbed, which with electric lighted Standard and Tourist Sleepers, Dining Car and Observation Car makes for a most comfortable journey. Summer Tourist fares are now effective to all points on the Pacific Coast from Vancouver, B. C., to San Diego, Cal. and North to Alaska.

Any C.N.R. Agent or District Passenger Agent, C.N.R., Saskatoon, will consider it a pleasure to give information on the trip and describe to you how "Nature glows in grandest glory" along the National's Territory.
