In May, 1867, he assumed the duties of sexton in the kirk, Greenock church, and resigned last spring in consequence of failing health.

The field secretary was present and gave advice and hints to teachers and superintendents. His address on "Association Work" was interesting and instructive. Rev. D. B. Bayley gave an address on "Encouragement to Teachers in the Country Work" in which he was ably dealt with by Rev. W. Townsend.

Twenty-nine schools were reported in operation, with some parishes to hear from. The home and normal departments are winning throughout the county, and prospects look bright for a prosperous year in S. S. work.

AT ST. JOSEPH'S. UNIVERSITY OF ST. JOSEPH'S COLLEGE, Sept. 7.—A new scholastic year is begun. After a well spent vacation, students of last year have returned to do battle with the "writers of old Rome and Greece, to analyze the blossom of eloquence cultivated by the Roman Cicero and the Greek Demosthenes. Boys, as yet inexperienced in college life, have come to start a course in the classics, to fit themselves for the accountant's desk.

There is every prospect of a prosperous year. A good class of young men, an addition of twenty-five feet to the wooden ell, which is now enclosed in stone, rooms for the seniors, an enlarged dining hall, study halls with greater seating capacity, and a highly efficient teaching staff, all tend to render the coming year one of the most successful in the annals of St. Joseph's.

She Was Pale and Languid Too Nervous to Sleep, and Daily Grew Weaker and Weaker—Dr. Chase's Nerve Food Restored Health and Vigour.

Mrs. E. McLaughlin, 95 Parliament street, Toronto, states:—"My daughter was pale, weak, languid, and very nervous. Her appetite was poor and changeable. She could scarcely drag herself about the house, and her nerves were completely unstrung. She could not sleep for more than half an hour at a time, without starting up and crying out in excitement.

"As she was growing weaker and weaker I became alarmed, and obtained a box of Dr. Chase's Nerve Food. She used this treatment for several weeks and from the first we noticed a decided improvement. Her appetite became better, she gained in weight, the color returned to her face, and she gradually became strong and well. I cannot say too much in favor of this wonderful treatment, since it has proved on such a blessing to my daughter."

Dr. Chase's Nerve Food is a blood-builder and nerve vitalizer of most unusual merit. In pill form, 50c, a box, at all dealers; or Edmondson, Bates and Co., Toronto.

Working up a Murder Case — The Fabulous Crowell Fortune — The Lumber and Fish Markets.

BOSTON, Sept. 8.—A report emanating from Worcester states that Detective John Ring of St. John and others are investigating a clue which may lead to the arrest of Paul Mueller, a farm hand wanted in Brookfield, Mass., for the murder of three persons there several years ago. According to the report James E. Burden, a Worcester machinist, while in Frederickton recently saw a man whom he believed to be Mueller. The suspect left Frederickton Aug. 23, and is said to have been seen in St. John later. When the man appeared first in Frederickton he went to work for Isaac C. Burden, a merchant tailor. He told Burden he had been in the Seaman's Mission, St. John, after appearing Aug. 23, it is supposed the suspect joined a vessel at St. John. The authorities of this state have little faith in the clue leading to any tangible result. It will be remembered that soon after the Brookfield murders Kent county officers arrested a suspect near Coochique, but the prisoner proved that he was not the much wanted murderer.

Charles H. Watts, a blind inmate of the Cambridge city home, committed suicide yesterday by cutting his throat with a razor. Watts, who was weak mentally, was 40 years old and was a son of Benjamin S. Watts of St. John, later of Cambridge.

The so-called heirs of the fabulous Crowell fortune alleged to exist in England are still working to see what there is in it. They are holding frequent meetings in Somerville, and at the last one \$250 was subscribed towards paying the expenses of an agent in the old country.

Deaths of prominent provincialists in Boston and vicinity are announced as follows: In Chelsea, Sept. 3, Francis Woods, formerly of St. John; in Roslin, Sept. 4, Mrs. Elizabeth Macdonald, widow of Donald Macdonald, formerly of St. John; in Chelsea, Sept. 2, Mrs. Mary A. widow of Frederick McKenzie, aged 64 years, formerly of Halifax; in Dorchester, Johanna Dillon, formerly of Halifax; in Cambridge, Sept. 4, Mrs. Annie McGillicuddy, aged 73 years, widow of Angus McGillicuddy, and mother of Alexander McGillicuddy of 11 Ramsay street, native of Nova Scotia.

A letter from Minneapolis to friends here announces the death Aug. 26 in that city of Mrs. Emeline Stewart, formerly of St. John. Mrs. Stewart was living with her daughter, Mrs. John Brinnell.

There is a pronounced drouth in the New England States, especially in the southern section. Many mills depending on water power have been badly handicapped, and not a few of them are idle. Farmers have felt the absence of rain seriously. Some crops are small in consequence of the drouth, and makers particularly have had cause for complaint. No rain has fallen here for several weeks, and in some parts of Rhode Island and Connecticut there has been little rain all summer.

The spruce lumber market continues firm, with rather a better demand noted. Yard owners are stocking up some, and there are some orders for frames. Building operations are being carried on more extensively, notwithstanding the lateness of the season. It is understood that the car mills have a good many orders on hand and that some of them are delayed owing to a limited supply of logs on hand. Little cutting of prices from those fixed by manufacturers is reported here, and it is said the outlook is at least as satisfactory as at any time this season. Spruce frames, 10 and 12 in. are still quoted at \$17; 8 in. and under, \$15; 10 and 12 in. random lengths, 10 ft. and up, \$15.50; merchantable boards, \$14, and out boards at \$11. Hemlock is well maintained and firm, \$13 to 15 for Canadian. Shingles are very dull, with prices easy. Extra cedar are held at \$2.60 to 2.70; clear, \$2.25 and \$2.35, and second clear at \$2 to 2.10. Laths are quiet at \$2.60 to 2.75 for 1 1/2-in. and \$2.60 to 2.75 for 1 1/2 in.

Mackerel continue plentiful, but hold steady in value. Out of vessel they are quoted at \$10 to 11 for plain and rimmed. Large shore codfish are firmer at \$5 to 5.50. Other kinds are dull and unchanged. New large N. S. barrel herring are in the market. They are worth \$3.50 for split. Old fish are worth \$5 to 6.50 for large and \$5 to 5.50 for medium. Live lobsters continue steady, and sell at 16c., and boiled at 18c.

BRITISH HEIRLOOMS. Not a few noble families in England cherish as heirlooms some object upon which their fate or fortune is supposed to depend. The crystal goblet known as "The Luck of Eden Hall," and enshrined in verse by the German poet Uhland's ballad, has for many generations been jealously guarded as one of the most valued possessions of the Musgrave family, and is preserved at Lord Musgrave's castle, Ravenshaw. This is also a crystal goblet of curious pattern, and is said to have been given to the founder of the family by King Henry VI., who prayed that the family might prosper and never want a male heir while his gift remained unbroken. The gift was never broken and never want a male heir while his gift remained unbroken. The gift was never broken and never want a male heir while his gift remained unbroken.
