SUN PRINTING COMPANY,

ALFRED MARKHAM,

THE SEMI-WEEKLY SUN

ST. JOHN, N. B., AUGUST 24, 1901. MR. GIBSON AND HIS NEIGH-

BORS.

Dr. McLeod, the opposition candidate in York, is accused of many grave offences. His opponents appear to think it a crime for him to ask the electors on the Nashwaak to vote for him against a member of Mr. Gibson's family. It is suggested that Mr. Gibson has a right to claim the support of all the residents of Marysville and forth that Mr. Gibson built the town

the people, and the rest follows.

The town of Marysville was built by the men who work there with their Gibson. The proprietor directed the gave value for all the money they got. If the men could not have built the town without Mr. Gibson, he could not have got rich without them. When he finds employment for them they find labor for him. If they have dealt fairly with each other these electors are under no more obligation to Mr Gibson than he is to them. The mature of the relation between the is such that he has a right to direct them in their work. But the relation is not such that he has a right to centrol their votes. As citizens every man among them is the equal of Mr. Gibson. Each is responsible to his own conscience and not to Mr. Gibson. A cotton mill or saw mill operato ask Mr. Gibson to vote for Dr. Mc-Leod as Mr. Gibson has to ask the operative to vote for Mr Gibdon's

Not only has the resident of Marysville such rights, but it is his daty to exercise them. If he thinks that Dr. McLeod would be a better representative that Mr. Alexander Gibson, junior, and that he stands for better principles, he ought to vote for Dr. McLeod. He commits an offence against his own conscience if he does not do it, and Mr. Gibson has no right to expect him to commit such an offence. The humblest employe of Mr. Gibson has his public obligation and his public interests. He is a far larger tax payer according to his means than Mr. Gibson. He may have as high a sense of duty. If he voted five years ago in support of conservative principles, as Mr. Gibson did, ne may have done so from convictions that have not been changed even though Mr. Gibson has found reason to change sides. There are men who change their politics for the price of a calf, and others who change for the price of a railway. Neither of these can find fault with the other. But both should respect the convictions of their fellow electors who are not gov- use for free trade, or economy, or erned by these considerations. Whether these last be employers or employed, they cannot be included in any has he any use for a man who has contract made by others for a transfer of political support.

A YOUTHFUL VETERAN.

(Daily Sun, Aug. 21.) The Sun offers congratulations to

Dr. William Bayard, who is eightyseven years old today. If would nerhaps be more correct to borrow an expression and say that he is eightyseven years young. Many old men are disposed to withdraw from active service, to think and talk of the past, and to look with disfavor on new ideas and reformations. Dr. Bayard still goes about his medical practice with a cheerful face, an active step and alert mind. In season and out he is stirring up the people to improve the condition of the city, and to take advantage of all the opportunities that medical and sanitary science has placed within their reach. On the platform, through the press, by appeals to citizens individually and to the authorities, Dr. Bayard continues to make himself. matters relating to the pubthe exodus was a thing of the past. lic health. Young men may be found here and in other places who do these things, but where is there another such active reformer of four score and r sixty-four years Dr. Bayard has been a physician in this city. In that time he has been the leading spirit in many beneficent enterprises.

ation. He was foremost in se alghest positions in the gift of his felounger in mind and heart and purpose, more advanced in his ideas, more strenuous in his efforts, for the improvement of existing conditions than most of his juniors. So it is prop good citizens to wish him ma turns of the anniversary of his birth.

WINTER PORT NEXT YEAR.

In the coming season St. John is ikely to have the largest winter trade in the history of the port. The government press announces that the relations between the Intercolonial and the Canadian Pacific Company are now cordial, and that a satisfactory traffic arrangement has been made. A large amount of trade might have been saved to the port last season if this had been done a year ago.

It is part of the new order of things that the best and largest boats of the Allan line, which last winter went to United States ports, are fixed to come to St. John in the coming season. The announcements published today show that the Bavarian, Ionian and Tunisian will sail from this port in November and December. The Ionian, which is now building, is a ship of 10,000 tens vicinity. The government organ sets while the other two are still larger Other new ships to go on this route of Marysville and finds work there for are the Australian, of 7,700 tons, and the Pretorian, of 9,000 tons.

The Canadian Pacific company is making preparations for a greatly inhands as much as it was built by Mr. creased traffic. It is not yet announced what the intentions of the Intercolon work and paid for it. But the men ial are in respect to winter export business. In case Mr. Blair does not use the Long Wharf and its equipment in connection with the Intercolonial. the accommodations will perhaps be available to relieve pressure, if there is any, at the west side terminus. But it is not to be expected that Mr. Blair would give up his Intercolonial winter export business after only one year of experiment.

THE TOWN CENSUS.

The tale of Canadian towns as told by the census is given in the despatches today. In the list of New Brunswick cities and towns improvement is shown in St. Stephen, Bathurst (which must include the parish) tive at Marysville has the same right Moncton, Fredericton and Marysville, Woodstock, St. Andrews and Miltown Campbellton, are omitted altogether. In Nova Scotia Annapolis, Lawrencetown (concerning which there is evidently some mistake), Sydney, Truro Amherst, Parrsboro, Windsor, New Glasgow, Pictou, Shelburne and Yarmouth have grown, while Antigonish Louisburg, Springhill, Digby, Guysboro, Dartmouth and Lunenburg have not held their own. The figures of Sydney must be intended for North Sydney, as old Sydney was mentioned in the first bulletin. We would have expected to find Kentville, Glace Bay Bridgewater, Westville and Liverpoo in the list. It is surprising to find so many decreases in Ontario towns of importance.

> In a striking open letter addressed by R. L. Richardson, lately M. P. for Lisgar, to Sir Wilfrid Laurier, the premier is shown that Mr. Richardson was read out of the party and deprived of his seat by the machine liberals, all because Mr. Richardson adhered to the liberal platform. This letter is true, but it will not affect the premier. Sir Wilfrid has no further purity, or the independence of parliament or reform of the senate. Nor use for them. Sir Wilfrid is in the hands of the machine.

> Some weeks ago this journal took the liberty of informing Mr. Fisher that in denying the existence of the exodus he was contradicting the returns furnished by his colleage, Mr. Patterson, and the statements sent out by his colleague, Mr. Mulock, in the Labor Gazette, so called. We have now to tell Mr. Fisher that he was also contradicting his own census.

The Montreal Herald says: "The growth of the United States in the last fifty years is writ large upon the face of every Canadian village, town and township. The unavoidable conclusion from the census of 1901 is that the tale is unfinished." It is enerally supposed that Hon, Mr. sher, minister of agriculture, is a targe stockholder in the Montreal Herald. But it was Mr. Fisher who told a dozen recent meetings in England that

conflict of opinion has arisen tween the census commissioner Ottawa and Census Commiss erton of St. John. The number of errors for which the bureau at Ottawa is already responsible creates a pre-The Public Hospital is practically his sumption in favor of Mr. Berton.

WANTS HIS PAY.

To the Editor of the Sun: Sir-When a man spends every day in the week in carrying out his mail contract, he should have his money promptly paid at the usual time. As far as it is known, the cheque for Oak Bay mail service got as far as St. John, and no further. In the meantime the carrier has to live on the wind, or depend on his credit, for sup-

This delay is injurious to the service, and should the carrier throw up the contract because he is not paid the ridiculous sum of fifteen do every three months, no other person would be willing to work every day for twice that figure. It is cerrough on the mail carrier that the amount due for the quarter ending June is not paid. It is just po that Oak Bay will be without mall service unless the government is willing to pay a fair remuneration for the time expended. Yours, FAIR PLAY.

The Canadian Census - French-Acadian Convention-Cool Weather -Personal Matters- The Fish and Lumber Markets.

(From Our Own Correspondent.) BOSTON, Aug. 21.—The Canadian ensus, made public last week, was a onic widely discussed by the newspapers of the United States. Most editors ould not understand why the increase in population was not larger, unless were due to the excess of emigration from the older provinces to this country over European immigration. hurried glance at the returns seempeople had been the greater losers by the census, while in the French-speak districts the gains were fully up to the normal, notwithstanding that the United States is just as popular a race as with the English. Regarding this feature of the statistics, it is pointed out that, unlike the modern citizens of old France, the French-Canadian is given to bringing up large families while on the other hand many of the Protestants of the present day fail to life fully up to the old familiar inof Scripture. "Increase and multiply." At least this is true in New England, where the old Puritan stock is dying out, and possibly conditions in some of the provinces are somewhat the same. The disappointing figures from Prince Edward Island were not pleasant reading to those in these arts who, much as they regret it, have contributed towards the poor showing. That the province of Sir Louis Davies, which even in the days of the conserdelegation to Ottawa, should slump so badly, was a grievous surprise to many of his old supporters here. It appears that even with his patronage and in-

(Halifax Echo, 19th.) The steamer Evangeline arrived at Halifax on Sunday from London, after a smart passage, having accomplished the distance in nine days and twenty-two hours, notwithstanding a heavy gale on the 13th and head winds.

She had one hundred passengers on board, amongst whom was the Hon. Mr. Justice Sedgewick of the supreme court of Cana

All speak highly of the comfort, culinary arrangements, attention, etc., on board, and also of the efforts to make the voyage as pleasant and delightful as possible by providing amusements, such as cricket, quoits, shuffle board, potato and other races. An excellent concert was given in the music saloon on the evening of the leth instant, under the presidency of the Hon. Mr. Justice Sedgewick, when the following ladies and gentlemen took part: Mrs. Bushnell (Chicago), (Portsmouth), Miss Matthews (London), Miss Kormann (Toronto), G. Lowe and Mr. Mansfield (London).

This was followed by a recherche supper in the dining saloon by invitaion and kindness of Hon. Mr. Justice Sedgewick, who, after the usual loyal seggewick, who, after the assum loyal and patriotic toasts had been given, proposed the health of Sir Christopher Furness, M.
