The *Royal Gazette*, received this morning, announcement of four new Councillors, viz—I. A. Wilmot, Attorney General; W. Bonnear, Solicitor General; John R. Partelow, Charles Fisher.

Which with the Hon. R. L. Hazen, Hon. Mr. Chandler, and Mr. Hannington, who will shortly be added, completes the new Council.

On the evening of Wednesday last a person attempted to enter the premises of Mr. S. L. Tilley, of St. Luke's Church. His brother hearing the disturber clinched him, when the villain drew a knife, which caused Mr. Tilley, after receiving a blow which cut through his clothes, to release his hold of him. The fellow escaped.

St. John Water Company.—At the annual meeting of the Stockholders in the Water Company, held on the 9th inst, the following Gentlemen were chosen Directors for the year: Hon. Hugh Johnston, Hon. John Robertson, and John Boyd, M. D., John Ward, James Kirk, John Kerr, Isaac L. Bedel, Robert Jardine, William H. Street, George Young, Robert Keltie, Edward L. Jarvis, and Charles Ward, Esquires.

And at a meeting of the Directors, John Kerr, Esq. was chosen President of the Company, and Duncan Robertson, Esq re-appointed Secretary.

Ayrshire Stock and Farming Utensils.—It affords us much pleasure to announce the safe arrival, last week, by the Brig Magog, Capt Shank, from Ayr, of three splendid young Cows of the Ayrshire breed, and two Heifers, with two additions on the passage, also a quantity of the most approved Farming and Diary Utensils, for Mr. Thomas Davidson, of this City. The stock are all of these choice description, and are much admired by those who have seen them, and appear to have suffered but little, if at all, from the voyage. They have been taken to Mr. Davidson's farm, "Girvan Bank," near Little River.

We understand that the three Cows cost £45 sterling, and were partly bred and selected by Mr. Wilson, of Quinmins, Tarbolton, to whose skill and judgment they do much credit.

We have reason to believe that the Province generally will benefit by this importation, and that others among us, or agriculturists who have the means, will follow the spirited example set them by Mr. Davidson, and at once make arrangements to procure an improved breed of Cattle for the benefit of the country. They have now an opportunity of inspecting Mr. Wilson's breed and selection, and of ascertaining the probable cost of similar animals.—[Courier.

Lord Enniskillen presided at a full meeting of the Grand Orange Lodge of Dublin at Whitefriars hall on Saturday, the 29th April, when a resolution was passed condemnatory of sedition and treason, and of devotion to the Crown and British connexion.

PROVINCIAL APPOINTMENTS.

His Excellency the Lieutenant Governor has been pleased to make the following appointments, provisionally, until Her Majesty's pleasure be known:—

The Honorable Lemuel A. Wilmot to be Attorney General, and a Member of Her Majesty's Executive Council.

John R. Partelow, Esq., Charles Fisher, Esq. and Honorable William B. Kinnear, (Her Majesty's Solicitor General) to be Members of Her Majesty's Executive Council for this Province.

By His Excellency's Command
JOHN S. SAUNDERS.
Secretary's Office, 22d May, 1848.

PROVINCIAL APPOINTMENT.

Daniel Smith, of the Parish of Gagetown, Esq. to be a Justice of the Peace for Queen's County.
Secretary's Office, 10th May, 1848.

[*From the Commercial Times*]

The die is cast; the system of Responsible Departmental Government (which in a Colony is no more or less than independence) is established, and already—even before the first Administration has been formed—is its pernicious influence felt. There is a difficulty in forming the administration, and, says some; Sir Edmund is inclined to the Radical side, says another; those who formerly opposed the introduction of the system, exclaims a third, should have no share in carrying it out; let Mr. Wilmot take the lead, and not compromise himself by admitting any of the Conservatives to the Council Board, cries a fourth; and thus the story goes among our extremely *liberal*, just and enlightened "Great Liberals." Yes, there is a difficulty, no doubt; but what? Could not the Administration of 1847—the Conservatives—supply from their own ranks the places vacant, or about to be vacated, by the late Attorney General, and Messrs. Baillie and Shore? Could they not have called in Mr. Partelow, Mr. Kinnear, and Mr. Weldon—supplying the place of the latter by appointing Mr. Botsford, or some other gentleman, Speaker of the Assembly? Most undoubtedly they could. They could—and can—command a large majority in the House of Assembly; they possess the confidence of the people. There was no necessity, then for an amalgamation, or coalition.

We know not what party first proposed a coalition. If the proposal originated with the Conservatives, we are yet at a loss to discover the true reason; we have never heard a plausible reason assigned, and are left to guess the motive. If, on the contrary, the proposal originated with the Radicals, they have since shown the most consummate impudence in demanding the whole of the political offices! We are inclined to think, however, that the proposal originated with the Conservatives, and for this reason, that neither Mr. Chandler nor Mr. Hazen would consent to take the office of Attorney General, at £600 a year. That office must now be held on a political tenure, and the salary was insufficient to entice any respectable professional man to close his business and reside at Fredericton. It therefore became absolutely necessary that the political offices—or at least two out of the three—should be held by Fredericton gentlemen; and hence the proposition. We cannot even in thus supposing the case, fully acquit the Conservative leaders of error. The offices of Attorney General and Solicitor General might have been held by Messrs. Kinnear and J. A. Street, and still the Government would have been sufficiently strong for all practical purposes. Neither can we excuse them for the ungenerous attempt to displace Mr. Kinnear,—he is too good a man for the country to lose just now, and his acceptance of the menial office of the Clerk of the Executive would—under the Despatch—have compelled him to retire from the Legislature.

As to the Radicals being *fairly entitled* to those offices, and to the Executive Council, to the exclusion of all others, that is mere fudge; it is true that they have struggled to obtain this system, but they have always been defeated in the Assembly; and when the system was forced upon us at last, it was not in consequence of Radical efforts in this Colony, but for the sake of uniformity, the same system having obtained in the adjoining Colonies.

We blame no man for accepting an office that is offered him, but we have a right—the country has a right—to expect from Messrs. Hazen and Chandler that they will not demean themselves by taking office under Mr. Wilmot. The Attorney General—whoever he may be—must henceforth be regarded as the Head of the Cabinet—the leader of the Government in the House of Assembly; and if Mr. Wilmot is to fill that office, any Conservative who may take office under him compromises himself and spoils his connexions. The Conservatives who formed the bone and sinew of the late Government, were carried into power by the suffrages of the people,—by a people who were proud of them, who supported them while in power, and were ready to support them again, whenever called upon, at the polls. The people have now a right to demand that they either continue to carry on a Government essentially Conservative, or that they retire from it altogether. Let Mr. Wilmot form a "Liberal" Government—if he can find the material—and let us see how long it will stand!

Glasgow, 28th April, 1848.—At a meeting of a Board of Examiners this day, Mr. James P. P. Lassek, of St. John, N. B., was admitted a Licentiate of the Faculty of Physicians and Surgeons.

Fire.—We regret to learn that the Steam Saw Mills owned by Messrs. Hawkins and Burt, in the Parish of King's Clear, about nine miles above this City were last night entirely consumed by fire.—We understand the fire was purely accidental. The proprietors had no insurance, and the loss in Mill and Deal is said to be upwards of £1000.—*Head Quarters.*

LATEST FROM MEXICO.

Augusta, Friday, May 19.

Congress Assembled.—An American Murdered.—The special Overland Express for the New York Tribune has been received, with advices from New Orleans to the 14th inst.

The steamship Propeller, Capt. Stanton, had arrived, with Tampico papers to the 7th inst.

Lieut. Jenks Bowman, of the 7th Infantry Regiment, died at Tampico on the 6th inst. of yellow fever, which is said to be quite prevalent.

It was rumoured that a quorum of Congress had got together at Queretaro—but well informed Mexicans consider the report unfounded.

The steamship Telegraph was to leave Brazos Santiago on the 10th.

An American named Towers was murdered near Matamoras recently by Mexican servants, whose object was robbery, and who escaped with their booty.

A Magnificent Sight.—On Monday evening there was a magnificent sight presented in the bend of the river below this city. About sunset, an unusual large fleet of sail craft came up the river, and, owing to the wind, were not able to turn the 'point,' and, consequently, were obliged to anchor in full view of the city. The fleet numbered over sixty vessels, and presented the most grand and imposing forest of masts that we ever beheld. It was with much difficulty that steamboats could pass among them. Fifty of the vessels came through the Wellland Canal in one "gang;" and a gentleman aboard of one of them, told us that, when they came into the Lake, they counted thirty other sail at no great distance, making a swarm of eighty vessels. Some fifty or sixty vessels of this fleet have passed up for Chicago for loading.—*Detroit Advertiser.*

Maple Sugar.—A great quantity of Sugar has been made this year in the district of Quebec. It is said that in the parishes of Saint Joseph and St. Francois, County of Dorchester, many farmers have not made less than 3000 to 5000 pounds each, and that in these two parishes alone 300,000 pounds at least, have been made.—*Quebec Gazette.*

Doings on the Coast of Africa.—Commander Hope of H. B. M. Sloop *Bittern*, at Prince's Island last March, in company with the U. S brig *Bozer*, reported that a short time previous he was at Lagos, in the Bight of Benin, with an American bark at anchor there—name unknown.

As soon as he (Capt. Hope) sailed in the *Bittern*, the bark was sold, her crew sent on shore, and she escaped from the coast with a large cargo of slaves. The crew of the bark were landed on the beach in the evening at Lagos.

That same night a marauding party of native blacks came down from Bidagry, for the purpose of attacking Lagos, but, falling in with the crew of the said bark on the beach, and not knowing them to be white men, they murdered every soul save one, who was providentially knocked down and escaped in the darkness. He got on board a canoe and was taken to Bidagry, and fed and clothed by an English merchant there.

This man stated, that soon after he had landed with his shipmates from the bark, and before they had time to leave the beach, the natives attacked them, and all he recollects afterward was hearing them cry for mercy, when he was himself knocked down senseless, and in the darkness was left by the blacks unnoticed.

Brig "Malaga."—The brig *Malaga*, of Beverly, Mass., which was seized by the U. S brig *Bozer*, nearly two years ago, in Kabenda Bay, (coast of Africa) and sent to the United States on supicion of her aiding and abeting the slave trade, was acquitted at the trial and went out again to the coast of Africa and made two trips between the Brazils and the coast.

On the 11th December last, she was captured under Brazilian colors, by H. B. M. sloop *Ferret*, with eight hundred and thirty slaves on board, and taken into Sierra Leone and condemned.

The subjoined statement relative to the *Malaga*, was made in writing, to one of the officers of U. S. brig *Bozer*, by Lieut. Maunsel, the English prize officer:—

The Brazilian brig, name unknown, but formerly the American brig *Malaga*, was captured by H. M. sloop *Ferret* in 3 deg 10 S. lat., about 8 miles off shore, with eight hundred and thirty slaves. Dec. 11.

She had a crew of thirty three men of which five were Americans, who complained that they were put on shore in the Portugese factory in the Congo River, where they were badly treated, and to save their lives embarked in the said brig.

After capture four died, having been previously very ill from fever, contracted in the Congo. They complain of having been deserted by their commander, who brought the vessel from the Rio Janeiro, and sold her to the slave factor in the Congo River—name of the Captain unknown to the prize officer

(Signed) E. E. Maunsell,
Lieut. H. M. S. "Ferret."

From Liberia.—The schooner I. B. Gager, Captain Slater, arrived at this port last evening from Sierra Leone (Africa,) whence she sailed on the 17th of April. Captain Slater informs us that two Brazilian slave-schooners, one with 400 slaves on board the other only with the crew, but fitted up for slaves, arrived at Sierra Leone the 15th April, prizes to H. B. M brigs Rapid and Alert. Capt. S. states that he saw no American men of war while he was on the coast.—*Tribune.*

Dr. Halsey's Gold and Silver Pills—Are founded upon the principle that nearly all diseases arise from the same cause, or that a morbid condition of the *liver, stomach, and bowels*, predisposes the system to every class of disease. When these important function become obstructed with superabundance of bile and viscid matter. Nature ceases to fulfil her proper office. It is then that the *blood* becomes impure, because the secretive organs of the liver, whose office it is to seperate the worn-out principle of this vital fluid, are no longer fit for their office, and the wasted parts of the blood continues therefore in its circulation and become diffused throughout the whole system. Thus filled with infectious humours the body is made liable to sickness. It, by chance, it is exposed to a sudden change in the weather, a bad cold, or consumption, would be the result—if in the vicinity of contagious disorders, it would imbibe the infection.

Dr. Halsey's Gold and Silver Pills, although pleasant to take and innocent in operation, is the most excellent medicine in use, to remove the bile and viscid matter from the system, and to restore the liver, stomach, and bowels, to the performance of their proper functions thereby rendering the blood pure, and divesting the system from all morbid and infectious humours, which we finally remove every disease, however long standing, and endow the system with health, strength, and vigour.

A circular giving a full explanation of the two-fold action of the *Gold and Silver Pills*, can be had of the agent gratis.

A Valuable Testimony.

The following article we copy with pleasure from the Boston Mercantile Journal, March, 1846, and we hope if any of our numerous readers are suffering from any of the complaints which it is said to cure, they will speedily avail themselves of it.

WISTAR'S BALSAM OF WILD CHERRY.

We seldom resort to patent medicines, having a great respect for the skill of the regular profession but chance threw into our way the above named medicine, immediately after the close of the last session of the legislature, when our lungs were almost dried up by the highly rarified atmosphere of our stove warmed state house. The Balsam immediately relieved us of a most harrassing cough, which threatened our health in a serious degree.—We feel that we are indebted to it for some fifteen pounds of animal weight—which addition once FELT, cannot be forgotten.
