# 119 PLACES WHERE YOU CAN BUY

# The Standard

That there is no place for yesterday's news in to-day's paper, is the policy of St. John's newest daily. It is the policy that has already placed THE STANDARD in the first ranks, and it is destined for a circulation second to none in the Mari-time Provinces. THE STANDARD intends to cooperate with its advertisers in building up their business. The following list will give some idea of our city circulation:

After a fashionable woman has got into her morning gown, her day gown, her reception gown, her tea gown and her dinner gown all in one day, we should think it would be about time for her night gown.

The Change.

"This change will remove one more of the picturesque and popular episodes of the earlier days of sea-fighting. The captain will no longer fight his ships from the flying-bridge and in the open. The conning-tower was built for him, and a due regard for the issues of the battle demands that he remain within it. It was the death of Admiral Vithort of the Czarevitch that threw the Russian line into distorder in the great sortie from Portal Arthur at the very time when the declare contains the least to stand upon the reelling deck. So there's something in the English auter all.

Though half of Europe hates them and would joy in their decline, Yet there's something in the English acter all.
