## PACIFIC SENTIMENTS EXCHANGED AT DINNER

Notable Addresses Marked Government's Banquet to N. Y. Bankers.

PREMIER BORDEN HOPES FOR CONTINUED PEACE

J. J. Hill and Other Famous Americans Make Speeches Full of Kind Regard for Canada and Canada's Future.

Ottawa, June 12.—"Let us hope that so long as the waters of the St. Lawrence flow, we shall be at peace with each other."—Premier Borden.

"Whatever may be the fate of the general movement among the nations in favor of peace, those whose mother tongue is English will never again take up arms against one another."—James J. Hill.

Notable for its many pronouncements for universal peace, with particular reference to the coming centenary celebrations between Great Britain and the United States, and with regard to the trade relations between Canada and the United States, was the banquet given tonight by the Dominion government to the delegates in attendance at the annual convention of the New York State Bankers' Association. Men eminent in the banking and political life of the two countries were present and pledged mutual friendship and good-will, and drank toasts to His Majesty the King, the President of the United States, and H. R. H. the Duke of Connaught, the Governor General of Canada.

The toast list included the King, the President of the United States, Duke of Connaught, governor general, replied to by Sir Charles Fitzpatrick, chief justice and administrator; our guests, proposed by Right Hon. R. L. Borden, premier of Canada, and responded to by Cornelius A. Pugsley, president of the New York State Bankers' Association, J. J. Hill and Hon. Andrew Jackson Montague; the parliament of Canada, proposed by Hon. Adolphe C. Eberhardt, governor of Minnesota, and Prof. Francis Greene, and responded to by Hon. W. T. White, Canadian Minister of Finance, and Hon. Rodolphe Lemieux, ex-postmaster general; the Canadian Bankers' Association, proposed by Hon. Lemuel P. Pagett, chairman of the United States naval committee, and responded to by Col. D. R. Wilkie, president of the Canadian Bankers' Association; the City of Ottawa, proposed by J. G. Cannon, president of the Fourth National Bank, New York, and responded to by Mayor Ellis of Ottawa.

**The King's Mission.**

After the toast to the King had been honored, Right Hon. Mr. Borden, the premier, read a reply from the King to the telegram of greetings sent by the association at the opening of the convention in the morning. A delightful tribute was paid H. R. H. the Governor General by Sir Charles Fitzpatrick, who referred feelingly to the reasons His Royal Highness had been forced to leave Canada at the present time.

"The more we know of each other, the better it will be for both nations," Right Hon. Mr. Borden said, in proposing the toast to our guests and in welcoming the bankers to the capital. "We are met here to celebrate the one hundred years of peace, and although we have had our differences, public men in the United States and Canada have been true to the public trust invested in them and we thank God for it."

"We have shown the world a boundary line of four thousand miles unguarded and that surely is something worth showing, the glory of the citizenship of Canada and the United States," declared Hon. Cornelius A. Pugsley, "is that true bravery and devotion to duty are to be found not alone on the battlefield, but everywhere that men and women have tasks to perform.

"War and passion between our countries, I believe, have perished.

"The thought and purpose of our mighty nations has been to develop their magnificent domains, to uplift their citizenship, to upbuild their institutions, to create great empires to inspire our men to reach the heights of endeavor of achievement, and of accomplishment, not only for themselves, but for their country's weal. Canada and the United States have kept step with the mighty forces of progress.

"They have answered the Anglo-Saxon call to march onward and upward to higher attainments. Possessed and inspired by the same thoughts and ideals as to the essentials of the fundamentals in government, they have stood also for the upbuilding, the exaltation of the individual life."

"Some victories of peace" was the keynote of the address of Mr. J. J. Hill, the noted American railroad magnate, in responding to the toast "To our guests."

Mr. Hill said in part:

"One hundred years ago what was probably the last war ever to occur between English-speaking peoples was drawing to a close.

"The hundred years of peace succeeding the contests bravely waged on both sides have wrought for the better understanding, the larger view. Whatever may be the fate of the general movement among the nations in favor of peace these whose mother tongue is English will never again take up arms against one another.

A difference of opinion between Great Britain and United States which arbitration could not settle is inconceivable. Friction between Canada and the United States is no longer possible. Boundary questions of fishing rights are either definitely passed upon or have their assigned tribunals. Before us stretch long years of emulation in the tie of brotherhood.

## REV. FR. NAISH DIES AFTER A SHORT ILLNESS

Distinguished Jesuit Passed Passed Away Last Night At Moncton.

SERVED HIS CHURCH IN MANY COUNTRIES.

Came of Prominent Jesuit Family—Had Just Commenced Successful Retreat—Body Will Go to Montreal

Moncton, June 12.—Father Vincent Naish, a Jesuit aged 65 years who came from Montreal to conduct a retreat at St. Bernard's church, which retreat was completed on Sunday last, was a few days ago seized with a bad cold on account of which he, on Monday morning, entered the city hospital for treatment. The cold developed in to pneumonia and Father Naish passed away at six o'clock this evening. He was conscious to the end.

The late Father Naish was born in Dublin in 1851 and belonged to a distinguished Irish family, his brother having at one time been vice-chancellor for the Kingdom of Ireland. Father Naish, himself, has had a distinguished career in the service of his church and was a man of extraordinary ability. He was an eloquent and fluent speaker and in the short time during which he was here has made a great impression on the people. He has seen service in various countries, having at different times been stationed at points in the United Kingdom and in Belgium, India and Canada. He came to Canada from India about five years ago.

Although he has made Montreal his headquarters, he has been engaged almost exclusively in evangelical work and has spent much of his time in travelling about various parts of the country.

The body was brought from the hospital to St. Bernard's church about 11.30 and it was tonight guarded by a number of parishioners of St. Bernard's church. A high mass of requiem will be sung this morning at nine o'clock by Rev. Father Gognere, of Montreal. The funeral will take place this afternoon at 1.30 o'clock from St. Bernard's church to the I.C.R. depot where the body will be placed on board the Ocean Limited for shipment to Montreal, where interment will take place.

The pall-bearers will be the following prominent members of St. Bernard's church: Hon. Senator Peter McSweeney, W. B. Chandler, Hon. F. J Sweeney, John Sutton, H. F. Hamilton and John O'Neil

## POPULAR COUPLE WED AT LOWER MILLSTREAM

Daughter of Mr. and Mrs. J. E. McAuley Becomes Bride of Howard A. Patterson.

Special to The Standard.

Lower Millstream, June 12.—At the home of the bride's parents Lower Millstream, on June 11, at 8 o'clock p. m., Lucy Jane, second daughter of Mr. and Mrs. J. E. McAuley, was united in marriage to Howard Amasa Patterson, of the same place.

The bride, who was given away by her father, was gowned in white striped voile over silk, and carried a bouquet of white roses and maiden hair ferns.

The ceremony was performed under a floral arch by Rev. T. Beecher Wetmore, of Lower Millstream, in the presence of the near relatives and friends of the bride and groom.

The bride received many valuable as well as useful presents, including furniture, linen, silver and cash.

Immediately after the ceremony a dainty supper was served in the dining room, which had been decorated for the occasion.

The happy couple will reside at Lower Millstream, where both are prominent in the work of the United Baptist church.

## ROAD ACT IS MAKING GOOD IN KINGS CO.

Hon. James A. Murray Speaks of Benefits it Has Brought.

KINGS COUNTY ROADS IN FINE CONDITION

Lumbermen are Happy as Drives are Now Practically all Out—Altogether Kings is Decidedly Prosperous.

The Road Act passed by the Flemming government at the last session is making good in King's County and throughout the province generally said Hon. J. A. Murray to The Standard last evening. Everywhere the people are pleased with the improvement and it will not be long before the roads assume a first-class appearance.

In King's county the early freshet did considerable damage, but, owing to the prompt work of the new road supervisors, the roads were repaired quickly and at present are in excellent condition. The residents of the country, as a whole, are well satisfied with the men appointed as supervisors. The policy of giving good roads everywhere is meeting strong support, said Hon. Mr. Murray.

The lumber drives are now practically out and the sawmills are running to capacity. During the first of the season it was feared that the drives would be held up but the recent rains proved providential, the necessary water bringing the logs out in good shape. A large amount of lumber was cut in the King's county woods last winter and its sawing will provide work for a considerable number of men during the summer months.

Three bridges are now in the course of construction in the province and they call for an expenditure of approximately $800,000. These structures are being built across the St. John river at St. John and Grand Falls and across the Miramichi river near Newcastle. The work on all three is going forward rapidly and when finished will greatly assist the travelling public. Besides this the government is building several smaller structures and repairing those not up to the mark.

## WOMAN SUFFRAGE AS MEANS TO STOP CRIME

Los Angeles Chief of Police Advocates it at Convention of Chief Magistrates — Worked Out Well in His City

Washington, June 12.—Woman suffrage as a means of lessening crime was advocated here today by C. E. Sebastian, chief of police of Los Angeles, in an address before the closing session of the annual convention of the International Association of Police Chiefs. Chief Sebastian declared that "through suffrage, recognition of police women in Los Angeles had been obtained, and crime had been materially reduced."

The chiefs chose Grand Rapids, Mich., as their next meeting place, and elected officers as follows:

President, Major Richard Sylvester, Washington, superintendent of police; first vice-president, Chief Michael Raegan, Buffalo; second vice-president, A. P. Sherwood, Ottawa; secretary-treasurer, Harvey Carr, Grand Rapids; sergeant at arms, Chief Cassidy, Elmira, N. Y.

All were re-elected except the sergeant at arms. Dictographic devices as means of helping in the detection of crime were approved in a resolution adopted during the final session.

Juan Vucetich, chief of the Buenos Ayres, Argentina, bureau of dactyloscopic identification, explained to the convention his system of finger print registration, and a committee was named to study and report on this, as compared with other systems.

## DEATH ROBS M'GILL OF NOTED SCIENTIST

Montreal, June 12.—One of the most distinguished of McGill's professors passed away today in the person of Dr. Nathaniel Henry Alcock, professor of physiology in the medical faculty of the university. Prof. Alcock was appointed two years ago to replace Prof. Wesley Mills, and though only forty-two years of age had already an international reputation as a physiologist.

LIBERALS NAME VICTIM.

Athabasca Landing, Alb., June 12.—Hon. A. G. McKay, of Edmonton, is the unanimous choice of the Liberal Association to contest the Athabasca district in the deferred election to be held.

## METHODISTS AND TRAINING OF THE CHILD

Old Methods of Evangelism Not Successful in Present Day.

CONFERENCE HEARS PRACTICAL ADDRESS

Committee Appointed to Deal With Complaint from Zion Church—Education to be Discussed Today.

Special to The Standard.

Charlottetown, P. E. I., June 12.—At a meeting of the ministerial session of Methodist conference today a pastoral letter was read by Rev. Wilfrid Gaetz, of St. John, and reference was made to the Mount Allison Forward Movement which realized $200,000. This is but the beginning of the Mount Allison plan to keep pace with the opportunities and needs of the day.

Religious training of children was dealt with at considerable length. This is a partial solution of the membership problem. The old methods of evangelism are not generally a success at present. In the past it was thought that children had to drift into evil for a number of years till they were sufficiently hardened in sin to be converted. Then the church remedy was to make a rally into the kingdom of evil and capture as many as possible. The idea is erroneous. Action should be taken on the assumption that children already belong to the Kingdom of God. In the past an unnatural and impossible standard was expected of the child.

Reference was made to the appointment of interdenominational committee in New Brunswick to deal with the matter. Little agreement could be secured upon a definite recommendation to the provincial authorities, and a committee was not called.

In dealing with moral reform satisfaction was expressed with the work of Rev. D. Moore, in charge of the temperance and reform department. The evils of today are subtle and assertive. If the church does not smite them, they will smite the church. People called upon the church to project Christ's ideals into the community. Politics are corrupt, because the church has not taken a purifying hand in governing the country. Christ's principles must dictate the policies and practices with respect to intemperance, public gambling and the white slave traffic. Immigration has effected the work in the main charges, but there are signs that a turn is coming.

"The problem is to make proper distribution of settlers, to guard against congestion, while we man our available farms with productive labor. Denominational conditions make union more prominent. It must come in one form or other if the people are to have adequate religious ministry. Consolidated churches are needed just as consolidated schools.

After the report of the conference on special committee a discussion arose on an attempt to curtail the expenditure of missionary funds by rearrangement of the circuit boundaries and the replacing of married ministers by single men. The conference gave expression to their feeling of deep loss sustained by the death of Dr. Inch. Out of this developed a discussion of the power of the conference special committee to override the constitution on sustentation fund. The chief complaint came from Zion church, St. John, and an investigating committee of five was appointed to deal with it. Rev. Neil McLauchlan was appointed a representative from the conference to the missionary board at Toronto.

This afternoon the death was announced of Miss Marshall, daughter of Rev. Thomas Marshall, Grace church, Charlottetown.

Rev. W. Gladstone Watson, professor of Old Testament Exigesis in Mt. Allison, gave an address on "The Pastor in His Study," dealing mainly with the literature he should read. The Bible should receive the main consideration, next comes the theology of the Bible, systematic theology, comparative religion, church history and polity, Bible history. He also recommended historical geography of the Holy Land. Sociology is a popular subject but it is often improperly placed ahead of religious subjects. The minister should read biography, poetry, essays, certain magazines, also the newspapers, but the last named should not be skimmed over as it tends to weaken memory. The minister should not spend too much time over a sermon which should be the overflow of a heart full of the love of God.

A memorial service is being held tonight for ministers who died during the year. Only a few committees have yet reported. Education is the first order of the day tomorrow and Dr. Campbell of Sackville will be the principal speaker.

SERVIA MAKES PACIFIC OFFER.

Belgrade, June 12.—The Servian government today sent a note to the Bulgarian government proposing that three-fourths of the armies of Bulgaria and Servia should be demobilized in order to relieve the existing tension and to facilitate a settlement of the differences between the two governments.

## GRAFT-TAKER IS FORTUNATE IN TRIAL JURY

Police Sergeant Duffy of New York Force May Get New Trial.

JURY UNABLE TO AGREE ON VERDICT.

Witnesses Swore Accused Collected Toll from Gambling House Keepers—Jury Stood 11 to 1 for Conviction.

New York, June 12.—After deliberating twenty-five hours the Supreme Court jury that tried Peter J. Duffy, a police sergeant, on a charge of bribery, returned word to Justice Goff late today that it could not agree. The jury stood eleven to one for conviction, it was reported. Duffy was paroled until tomorrow, when he will be directed to furnish $5000 bail, pending District Attorney Whitman's decision in the matter of a new trial.

This is the first of half a dozen or more of the so-called police graft trials in which the jury has not brought in a verdict of guilty after being out a comparatively brief time.

Duffy was indicted as an alleged graft-taker from Julius Roth, who ran poker rooms in Harlem. Roth testified he made monthly payments to Duffy last fall and prior to that to Eugene Fox, a policeman who had pleaded guilty to grafting. Fox, during the trial, corroborated Roth and added that he turned over to Duffy a list of graft-paying resorts with Roth's place on the list.

A reason for the jury's disagreement was indicated this morning, when the twelve men asked Justice Goff to read that portion of his charge relating to the testimony of accomplices. The court had held that Roth, since he bribed Duffy, an alleged, was an accomplice, stating "the jury may discard the testimony of an accomplice or give it what credence is deemed proper."

## A THOUSAND MEN LIKELY TO STRIKE TODAY

Millmen Will Probably Quit Work Unless Agreement is Reached by Five O'clock—Owner Won't Grant Increase

Unless some compromise is arranged before five o'clock this evening between the millmen throughout the city and their employers, which at present seems unlikely, nearly a thousand will this evening quit work and immediately, following their action, practically all the saw and lumber mills in the city will close down.

If the concession is not granted to the millmen and every assurance is given on the part of the mill owners that it will not be, business in the mills will be suspended, and the strike will, it is believed, have a very serious effect on business in the city.

The closing down of the mills will mean that practically no sawed wood for building purposes can be obtained in the city.

As the majority of those working in the mills reside in the vicinity of Indiantown, merchants in that end of the city look upon the strike in a very serious manner and claim that if the men are out of work for any time it will tend to injure their business.

The disagreement between the mill owners and the employes arose over the demand of the raftsmen and pondsmen who thought they were entitled to an increase in pay of twenty-five cents a day. The owners, it is understood, cannot see their way clear to meet the demand. If the raftsmen and pondsmen go out the millmen and other employes will also quit work and in all probability a strike will be called this evening.

In conversation with a Standard reporter last evening one of the mill owners said that he could not see anything to avoid the strike this evening. "The men," he said, "seem determined to stick to their demand for the increase and threaten to go on strike if we do not meet the demand while those who are operating the mills have decided not to grant the increase."

If a strike is called at the present time it will create a serious situation.

HARDSHIPS IN THE WEST.

Roathern, Sask., June 12.—Sand flys in hordes are vigorously attacking horses and a Rosthern farmer had three horses killed by the pests. Farmers report narrow escapes for their stock.

## FOUR DEAD; MANY HURT WHEN TRAINS CRASHED

## OTTAWA AND HULL TO BE BEAUTIFIED

Government Considering Plans To Develop the Two Cities.

COMMISSION TO HAVE CHARGE OF SCHEME.

Co-operation of Railway and Traffic Companies is Being Asked by Minister of Finance—Will Take Year.

Special to The Standard.

Ottawa, June 12.—The government has under consideration the need for the adoption of a comprehensive plan looking to the growth and development of the cities of Ottawa and Hull and their environs.

It is expected that an honorary commission will be constituted charged with the duty of taking all necessary steps to cause such a plan to be drawn up for the beautification of the two cities. The cities of Ottawa and Hull, the Ottawa Improvement Commission, together with the transportation and traffic companies, would all be required to sco-operate with a view to the gradual completion of the scheme extending over a long course of years.

The commission will be appointed after allied interests are heard from. The work will be an elaboration of that of the Ottawa Improvement Commission. The Minister of Finance is taking up the matter with the two cities with a view of ascertaining if they will co-operate in the plan proposed.

## SENATE WENT BEYOND RIGHTS ON NAVAL BILL

W. J. Poupore Says Upper House Acted on Purely Partizan Motives—Action Was Unconstitutional.

"The action of the Senate in throwout the the Naval Aid Bill was purely partizan and wholly unconstitutional," said W. J. Poupore, president of the contracting firm of W. J. Poupore and Co. Ltd., of Montreal, and for several years a member of the House of Commons, when in conversation with The Standard last evening. "This step on the part of the Upper House can lead but to one thing," he said, "and that is the complete reconstruction of that body. The Senate should not and must not be partizan, but its action in connection with the Naval Aid Bill was certainly partizan in the highest degree.

"The Senate has not the authority to change or amend a money bill when the House of Commons, in its capacity as the representative of the people decides that the money should be used either for the naval emergency or other purposes. It is the people who rule, and when the House of Commons as their representatives passed the Naval Aid Bill, the Senate should not have thrown it out, especially as the money was needed by the Mother Country.

"When the Laurier Government was in power, the Senate of the day, with a Conservative majority, threw out the bill relating to the railroad terminals at Montreal. This was done because the bill would have caused useless expenditure. The bill was afterwards amended by the House of Commons and passed by the Senate. On this occasion the Senate acted within its rights, a thing it did not do in its action on the Naval Aid Bill."

When speaking of the Right Hon. R. L. Borden, Mr. Pourpore stated that he was a man well fitted to lead the people.

"When I was a member of the House of Commons, when Sir Charles Tupper was Prime Minister," he said, "the Rt. Hon. Mr. Borden occupied the next bench to mine and proved himself a competent man, always striving for the rights of the people."

Mr. Poupore is here to oversee the outfitting of his powerful hydraulic dredge Princelite in preparation for the summer's work. This dredge successfully removed the hump back and horse shoe reefs from the Miramichi river ship channel. It will be employed on similar work this season.

Engineer's Disregard of Signals Caused Wreck at Stamford, Conn.

LOCOMOTIVE PLOUGHED THROUGH CROWDED CAR

Springfield Express Must Be "Hoodoo" Train — Figured in Wreck Last Fall When Eight Lives Were Lost.

Stamford, Conn., June 12.—Four persons are dead and many injured, some seriously, as the result of a rear-end collision on the main line of the New York, New Haven and Hartford Railroad opposite the local passenger depot at 4.45 o'clock this afternoon when the second section of the Springfield express, westbound, crashed into the first section which was just leaving the station.

**Dead.**

Mrs. E. J. Kelly, 34 Dryden Ave., Winthrop, Mass., wife of land agent of Canadian Pacific Railway, instantly killed.

Frank Canfield, Springfield, Mass., instantly killed.

Mrs. Barges, Springfield, Mass., died five minutes after wreck occurred.

E. H. Woodruff, Flushing, L. I., N. Y., instantly killed.

**Seriously Injured.**

F. J. Jennings, New York, lacerations about head, probably fatal.

S. W. Patterson, Red Bank, N. J., cut about head and body, critically injured.

Geo. Walton, New York, connected with Canadian Pacific Railway, arm broken and badly cut about head and arms.

Allan A. Warfield, Washington, D. C., leg broken and injured in groin.

R. S. Benson, New York, injured in back, condition serious

P. J. Garrity, Hackensack, N.J., badly cut about head, back and legs; may die.

J. J. Martin, New York, body and face badly cut and probably fatally injured.

Rebecca Mayerson, New York, badly injured, nose torn off and face badly lacerated.

Seven months old baby of Mrs. Mayerson, face cut and thrown through car window.

**Engineer Blamed.**

The engine of the second section ploughed half way through the Pullman car "Skylark," the last car on the first section. In this car there were 31 passengers, and practically all of these were more or less injured.

According to an official statement given out by the railroad the indications are that the engineer of the second section ran by both the distant and home signals.

The Springfield express was the same train that was in the wreck at Westport, Conn., last October, in which eight persons were killed and scores injured. This wreck was also caused when the engineer ran by signals.

## BUY SITE FOR STEEL WORKS AT MONTREAL

British Company to Put Up Mammoth Plant — Buildings Will Cover Over Seventy Acres.

Montreal, June 12.—It was officially announced tonight that the Armstrong Whitworth & Co., Ltd., have purchased two hundred and fifty acres of land on the south shore of the St. Lawrence River with a water frontage of two thousand feet, opposite this city, for the purpose of establishing a mammoth steel works.

This action followed the recent visit of Sir Percy Girouard, a director in the Armstrong company. The trustees of the Armstrong company are M. J. Butler, formerly vice-president and general manager of the Dominion Steel Corporation, and George G. Foster, K. C. An expenditure of one million dollars will be made at once for the construction of buildings to cover seventy acres of the purchased property.

WASHBURN BILL VETOED.

Boston, June 12.—Governor Foss today vetoed the so-called Washburn Railroad Bill, which would have extended the credit of Massachusetts railroads and increased the size and the powers of the Railroad Commmission. There has been a long fight over the legislation.

DANISH CABINET RESIGNS.

Copenhagen, June 12.—King Christain today accepted the resignation of the Danish premier and of the members of his cabinet. The step was taken by the government as a result of the recent elections when the party in power received an adverse vote.
