

## ST. STEPHEN MAN IN THRILLING RACE WITH DEATH IN WOODS

Excellent Emergency Surgery and Devotion of Camp Mates Enable Frank McGlinchey who Shot Himself Seriously to Reach Hospital in St. Stephen.

From the wilderness of northeastern Washington county, Me., which adjoins Charlotte county, comes a thrilling story of a race with death for the life of a man, with devotion, wonderful vitality and endurance winning a victory over the grim reaper.

Frank McGlinchey of St. Stephen has been lumbering in the wilderness between the St. Croix river and the Maine border, about thirty-five miles north of St. Stephen and about eight miles south of the Vancorbo division of the Maine and Central railroad. Two or three days ago a heavy rain put a stop to the work in the woods.

McGlinchey and his partner, Carson, of Weymouth took their rifles and axes and went into the woods to get wood for axe handles. Deer are plentiful in that section.

### Shout of Agony.

A short distance from camp the two men separated, Carson following a deer track in the rapidly disappearing snow and McGlinchey keeping on his way to a growth of hardwood which promised axe-handle material. As the story is told by the men in the camp, it was but a short time after they separated that McGlinchey heard Carson fire and immediately shout as if in great agony. Hastening in the direction of the shout he found Carson lying in the water-soaked snow with blood pouring from a bullet wound in his thigh.

The men were about two miles from the camp and McGlinchey made all haste possible to get to the camp and return with men to carry Carson in. Meantime a messenger had been dispatched to the nearest settlement for a physician. The messenger had eight miles to go over a road which was half road and half brook but he forced the big woods horse he rode to his utmost and finally reached Lambert Lake station on the Maine Central telegraphed to Vancorbo for Dr. Stillman Johnston.

### Got C. P. R. Freight.

Fortunately the doctor was at home and with equal good fortune he was able to connect immediately with a Canadian Pacific freight west-bound out of Vancorbo, which landed

## FIVE BOYS SMOTHERED

Baltimore, Nov. 27.—Five boys are dead as the result of the caving in of a sand bank at West Baltimore. The boys were playing when the bank collapsed. Only one of a party of six was taken out alive.

## N. B. MAN IS ACQUITTED OF MURDER

Rumford, Me., Nov. 27.—George Gallant, a woodman, of Westmorland county, N. B., who has been held in jail here since Nov. 17 on a charge of murdering Joseph Leonard in a lumber camp at Ten Degree Sliding, above Houghton, has been acquitted by the municipal court. It was found at Bowdoin College Medical School, Brunswick, where Leonard's heart and stomach were examined, that he came to his death from natural causes.

The two men had a slight altercation in the camp during a drinking bout and Leonard was put into his bunk in an unconscious condition. He was found dead in the morning. Death was caused by a weak heart and not from a slight blow he received. Gallant is a French Canadian thirty years of age.

## GOVERNMENT'S NICKEL POLICY COMMENDED

Liberal Party Slowly Recognizing Soundness of Administration's Stand—Lindsay Holds on.

### Special to The Standard.

Ottawa, Nov. 28.—The Liberal party is slowly recognizing the soundness of the government's nickel policy, and following the declaration of confidence in the government's measures to conserve our nickel for the Allies by the Toronto Star, another leading Liberal journal, the Ottawa Free Press, admits that "Hon. Mr. Meighen has shown that the Canadian government has adopted every safeguard recommended by the British Admiralty for the preventing of Canadian nickel reaching the enemy."

### Goes to Allies.

The same journal further states on this question: "But there is a still more satisfying answer. The bulk of the nickel output of the company is admittedly going to the Allies. If the enemy is getting any at all, it is, also admittedly and obviously, a very small quantity. Now, if the International Nickel Co. was German controlled or a pro-German organization, could it desire anything better than for Canada to divert down on the export of its nickel to the company. The money loss would be nothing because Germany would pay twice the \$40,000,000 capitalization of the company to stop its output of refined metal. Canadian nickel ore cannot possibly be refined anywhere else for at least a year. Stoppage in the supply of nickel from the International Nickel Co. would be one of the hardest blows that could be administered to the allied cause. It would, for instance, practically stop the manufacture of munitions in the United States and Canada."

The Free Press agrees with the Toronto Star that the continuance of the discussion of the nickel problem as it relates to the possibility of Germany getting some of Canada's supply will only tend to an unwarranted upsetting of the public mind.

### How About Lindsay?

No steps have yet been taken by the Toronto Liberals to remove G. G. S. Lindsay from the presidency of the Toronto Liberal Association, although his scheme of commissions make J. Wesley Allison look like an amateur war profiteer.

## TWO RAIDING ZEPPELINS ARE DESTROYED ON ENGLISH COAST

One, Discharged Cargo of Explosives on Yorkshire and Durham and Another Over the North Midland Counties—London Attacked by Airplanes.

### Official Report.

The following official account of the raid was issued: "A number of hostile airships approached the northeast coast of England between ten and eleven last night. Bombs were dropped at various places in Yorkshire and Durham. The damage is believed to be slight."

One airship attacked by airplanes of the Royal Flying Corps, was brought down in flames into the sea off the coast of Durham.

"Another airship crossed into the North Midland counties and dropped bombs at various places. On her return journey she was repeatedly attacked by airplanes of the Royal Flying Corps and guns. She appears to have been damaged, for the last part of the journey was made at very slow speed. Near the Norfolk coast she apparently succeeded in affecting repairs and was proceeding east at high speed and at an altitude of more than 8,000 feet, when she was attacked nine miles off at sea by four machines of the Royal Navy air service and an armed trawler and was brought down in flames at 6.45 a.m."

### Lights Turned Off.

Official reports do not say how many airships crossed the aircraft guns, as

### Attack on London.

Flying at a great height a German airplane this morning passed over London and dropped six bombs on the capital. The British announcement says:

"This morning six bombs were dropped on London by a hostile aeroplane flying at a great height above the haze. Four persons were injured of whom one, a woman, was seriously hurt. The material damage was slight."

## UNCERTAINTY AS TO NEXT ENGLISH LOAN

### Special to The Standard.

London, Nov. 28.—The next loan to be floated here will probably depend as to date, term and rate of interest upon the degree of success attending the loan without collateral to be issued in the United States and upon bills of exchange arranged in New York which will suffice to support existing rates solidly and so permit the reduction of money rates here preparatory to the big public issue. Meanwhile dullness prevails except for provincial buying of Industrials, a feature of which is Liverpool's demand for Cunard shares.
