

## TEXAS CATTLE DEALERS FEAR CANADA'S STOCK

Want to Place High Duty Against Entrance Into United States.

### LITTLE MARGERINE USED IN CANADA

Twenty Times as Much Butter as Oleo Consumed in the Land Now.

Ottawa, March 10.—Hon. S. F. Tolmie, addressed the committee of agriculture this morning on the matter of standardization of machinery parts. He thought the committee should proceed gradually in this matter, rather than attempting too much to begin with. He outlined the legislative programme of the agriculture department. This included an act to amend the oleomargarine act permanently allowing importation and manufacture in Canada and an act to regulate dairy products, particularly in regard to shipment to Great Britain.

#### Cattle Taxes.

Dr. Tolmie referred to his visit to the live stock convention in Texas. American cattle men there had favored a heavy tariff against Canadian and Mexican cattle. Dr. Tolmie had learned that Canada would not introduce any half-baked or ill-considered tariff measures against American cattle.

There was yet room for improvement of Canadian cattle and horses. Hogs and poultry were increasing in number and quality, and the department of agriculture was carrying out investigations to help farmers in regard to horse and tractor work in Canada.

#### Use Little Oleo.

Referring to the opposition which has been leveled at the oleomargarine manufacturers, the minister pointed to the small consumption of this product, when compared with the amount of butter used. The figures which he read to the committee showed only \$2,000,000 pounds of margarine consumed since permits had been granted for its manufacture and sale. During this time, he said, more than 600,000 pounds of butter had been sold.

#### CURFEW FOR CROWN FORCES.

Dublin, March 10.—Notices establishing the curfew for Crown forces were posted in a number of places throughout Dublin on Tuesday night. These notices, which were signed by "Irish republican army," gave warning that any soldiers or policemen seen on the streets after 10 o'clock in the evening were liable to be shot.

#### SOCIAL SERVICE MEETING.

Halifax, N. S., March 10.—The annual convention of the Social Service Council of Nova Scotia was opened here this morning by Rev. R. W. Ross, D. D., president. Doctors F. V. Woodbury and Bryson addressed the convention on "Care of the Probable Minded," and J. D. O'Connor, chief censor, spoke on "Moving Pictures."

**Dr. Chase's Kidney-Liver Pills**

## Science Proves the Danger of Bleeding Gums

Medical science proves that unhealthy gums cause serious ailments. People suffering from Pyorrhoea (a disease of the gums) often suffer from other ills, such as rheumatism, anaemia, nervous disorders, or weakened vital organs. These ills have been traced in many cases to the Pyorrhoea germs which breed in pockets about the teeth.

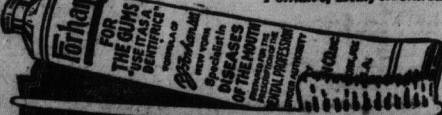

Four out of five people over forty have Pyorrhoea. It begins with tender and bleeding gums. Then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of the infecting Pyorrhoea germs.

Guard your health and your teeth. Keep Pyorrhoea away. Visit your dentist often for tooth and gum inspection, and make daily use of Forhan's For the Gums.

Forhan's For the Gums will prevent Pyorrhoea—or check its progress—if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's will keep the gums firm and healthy, the teeth white and clean.

35c and 60c tubes in Canada and U.S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

Forwards of R. J. Forhan, D. D. S., Forhan's, Ltd., Montreal

## Street Paving In The City of St. John

Road Engineer G. N. Hatfield Delivered Interesting Address to Institute Members.

G. N. Hatfield, A.M.E.I.C., Road Engineer for the City, delivered an exhaustive and interesting address on "Street Paving in the City of St. John" at the regular monthly meeting of the St. John branch of the Engineers Institute of Canada held in the resident engineer's office, Marine Department, Customs House last night.

Granite and Asphalt.

Mr. Hatfield stated that granite block and asphalt had been found by him to be the two classes of roadway surface most adaptable to St. John. The city was very fortunate, he said, in having within easy reach an abundance of good trap rock, sand, and granite.

He explained in detail the practice followed in laying the two kinds of pavement, and the different experiments carried out to determine the most satisfactory type of pavement for the city.

#### City of Hills.

The fact that St. John was a city of hills, having grades which ranged from 14 per cent to 18 per cent, and the majority from 5 to 1, limited the choice of pavements, more especially as the foothold for horses was one of the determining factors to be considered in selecting a wearing surface. The crown or cross-section of the city streets afforded one of the most difficult and at the same time amusing problems in connection with street improvements because the abutment insisted that the level datum be maintained in grading.

This was a bad practice as grades should be changed at street intersections, and not midway, as it enabled more satisfactory catch basins to be installed, and also ensured a more adaptable crown for a specific pavement.

#### Heavy Traffic.

The speaker was of the opinion that the street being used for excessive and heavy traffic and serving as a means of transportation for the articles of the manufacturer should be given the preference in paving. All citizens, he said, were vitally interested in costs as consumers, and the transportation of goods at the lowest cost was an important factor to be considered in this respect. He referred in particular to Charlotte street extension to Britain street, Brunswick street, Point Water Street, Britain street, City Water and Union street.

A hearty vote of thanks was moved by Henry Morrissey, seconded by Mr. Tapley, and extended to the speaker by G. G. Murdoch, the president, at the close of Mr. Hatfield's very able address.

#### PEACE FEELER AGAIN

London, March 11.—Ireland there is another important movement under way to initiate a truce in Ireland between the Sinn Féin leaders and the British government. This latest attempt to bring peace in Ireland was brought to the attention of the British cabinet tonight.

#### WOMAN 116 YEARS OLD.

Richmond Hill, Ont., March 10.—Sarah Maxwell, Canadian oldest citizen, celebrated her 116th birthday today. She has outlived her children and is alone. Though frail, she is still able to move about. She eats heartily, sleeps soundly, and still seems to get enjoyment out of life.

#### WAGES ARE REDUCED.

New York, March 10.—The New York Central announced today that beginning April 16, wages of approximately 45,000 employees in practically all departments would be revised.

## CANADA CABLES BRITAIN ABOUT CATTLE EMBARGO

Premier Declares Stigma of Disease Should be Removed Any Way.

### POSSIBLY MEASURE BENEFITS DOMINION

House Adopts Amendment Declaring Its Sympathy With Repeated Protests.

(Continued from Page 1.)

At the opening of the House of Commons this afternoon, the Premier Meighen moved for the appointment of a special committee to consider questions relating to the pensions, insurance and re-establishment of returned soldiers.

Committee Chosen.

The Prime Minister said that for two sessions a committee had been appointed for this purpose and the administrative policy in regard to the treatment of returned men had been largely developed by this committee. Returned men had requested that the committee be appointed again this session. He believed that it was the disposition of every member of the House, as well as of the government, to see that nothing was left undone to take care of the just demands of those who did so much for Canada.

In view of this, said the Prime Minister, he wished to move for the appointment of this committee which would ascertain what had been done and recommend improvements which suggested themselves as a result of its deliberations.

Names Announced.

He moved that the members of the committee be as follows: Messrs. James Arthur, Parry Sound; H. S. Beland, Beauce; J. W. Brien, Essex South; T. W. Carr, Victoria-Carleton; A. W. Chisholm, Inverness; R. C. Cooper, Vancouver South; A. B. Copp, Westmorland; Hume Cronyn, London; J. M. Douglas, Stratford; J. W. Edwards, Frontenac; R. F. Green, Kootenay West; Thomas MacNutt, Saltcoats; A. McGregor, Pictou; H. B. Morphy, North Perth; E. W. Nesbitt, Oxford North; C. W. Peck, Skeena; C. G. Power, Quebec South; D. C. Ross, Middlesex West; E. Savard, Chatham; E. K. Spence, Yarmouth; O. Turgeon, Gloucester; W. H. White, Victoria; J. J. Wilson, Saskatoon. Replying to Mr. Beland, the Prime Minister said he was not certain at the moment just what requests had been received by the government for re-appointment of the committee. But when touring the country, it was the exception not to be met by delegations from various veterans' organizations asking for the committee's reappointment. Many suggestions had been received, among these being improvements in the pensions machinery, new schemes of assistance, such as loans and so forth.

Bonus Policy Firm.

It had always been made clear that on the questions of bonus by way of cash assistance, the policy of the government was unchanged. Dr. Reid, minister of railways, corrected an error he had made in answering a question yesterday. He then said that since 1917, 227 locomotives had been ordered from the Montreal Locomotive Company at a cost of \$1,329,300. A clerical error had resulted in the dropping of a cipher. The figures should be \$13,293,000.

Mail Insurance.

Amendments to the post office act, which have received first reading in the Senate provide for the establishment of a system providing for insurance fees, to be prepaid. This clause removes the present limit of \$25 insurance on mail matter. Another clause provides that letters under paid shall go forward charged with double postage. At present under paid letters are not forwarded.

Resuming the adjourned debate on the motion of F. H. Keefe, Port Arthur, for the construction of a deep water-way from the Great Lakes to the St. Lawrence, D. D. McKenzie, Cape Breton, north, said he thought that the completion of some such waterway would be of great assistance in reducing the price of food and other necessities of life, both in the east and west. If such a waterway was completed, it would also give Ontario the benefit of Nova Scotia coal.

The Canadian and United States governments should proceed to get together and then bring down legislation for the approval of the respective parliaments.

O. Turgeon, Gloucester, emphasized the importance of developing traffic on the Canadian railways, rather than embarking on any new transportation scheme. The country was confronted with a tremendous railway deficit, due partly to the fact that sixty per cent of our traffic from the west was being carried over United States lines.

Favors Other Scheme.

He thought the project under discussion would, if completed, be very valuable to the United States than to Canada. He favored the Georgian Bay canal scheme.

In a vigorous attack on the expenditure which would be entailed by the waterways development, J. E. Armstrong, East Lambton, recalled that some \$400,000,000 had already been spent in buying, deepening and lighting harbors and waterways with a view to reducing freight rates. "The only result has been that our rates have been doubled, even quadrupled,"

F. F. Pardon, West Lambton, defended the commercial aspect of the project by declaring that the best minds of both Canada and the United States were in accord on its high merits.

J. A. Maharg, Maple Creek, thought if there were any money to spare it should be spent on improving railway facilities in the west.

Hon. Charles Murphy, Russell, argued that it was unreasonable to propose another investigation while

proposals were being made. At all

proposals were being made. At all

## Baby's food - is all important. For 63 years better babies have been raised on -

**DIED.**

CORNER.—In this city on the 9th inst. after a short illness, Mary E. Corner, beloved daughter of Robert A. and Frances Corner, aged thirty-nine years, leaving her parents, three brothers and one sister to mourn.

Funeral Friday from her parents residence, 17 St. Andrews street. Service at 2:30.

YOUNG.—At Bridgeport, Conn., on March 6th, 1921, Gertrude H. Templeton, eldest daughter of Edward J. and the late Isabelle Young, leaving her father to mourn.

Funeral will be held Friday, March 11th, at 2:30 o'clock, from her father's residence, Silver Falls.

**IN MEMORIAM.**

HASTINGS.—In loving memory of Mrs. Margaret A. Hastings, who departed this life March 10, 1919. "Lead Kindly Light."

—Husband, Sons and Daughters.

**HIGGINS RE-APPOINTED**

Toronto, Mar. 10.—James Higgins, the C. N. R. machinist who was penalized for taking part in the North East Toronto by-elections as a candidate of the Labor Party by losing his job and who was re-instated yesterday by the management of the railway stated that he would not go back to his old employment at the Leaside works until May 15th, and that this had been agreed to by General Superintendent W. E. Denehall of the C. N. R.

**MONTH FOR THEFT**

Montreal, March 10.—Edna Robinson, arrested five weeks ago on a charge of stealing a diamond pin valued at \$700, and \$100 in money from Notary J. A. Legault of this city, was today found guilty and was sentenced to a month in jail.

**HALIFAX MASONS COMING.**

Members of St. Andrew's Lodge, No. 1, F. & A. M. of Halifax and the oldest Masonic lodge in Nova Scotia will arrive here today and tonight will visit St. John's Lodge No. 2, F. & A. M. in the Masonic Temple, Germain Street.

The international joint waterways commission was looking into the question.

**A Costly Venture**

Evidence given before the international waterways commission showed that the development of only one of the several points in the St. Lawrence affected in the scheme would cost \$500,000. Surely the government in its sober senses would not launch the country into the incredible expenditure involved. Mr. Keefe then withdrew his motion.

**Cattle Embargo**

The House then resumed debate on the cattle embargo on cattle. Dr. M. Steele, Perth, took occasion to criticize Hon. Manning Bohnert, minister of agriculture for Ontario, for going to England to protest against the embargo on Canadian cattle. Dr. Steele said the minister would go down as "indefatigable man."

Dr. Steele moved an amendment to the amendment, which was before the House yesterday and consideration of which, incidentally was adjourned, to the effect that the House approve the policy of the present and past governments.

Speaker Rhodes said he would take time to see how to amend the amendment compared with the original motion.

## There is Strength in Every Tablet

One dose often helps to enrich your blood and vitalize your worn-out exhausted nerves. Nuxated Iron is organic iron, like the iron in your blood and like the iron in spinach. It is so prepared that it will not injure the teeth nor disturb the stomach. It is ready for almost immediate absorption and assimilation, by the blood while some physicians claim metallic iron which is not absorbed at all.

ple usually take if you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron—three times per day, after meals for two weeks. Then test your strength again and see how much you have gained. Your money will be refunded by the manufacturers if you do not obtain perfectly satisfactory results. At all

## Duke of Devonshire Coming On March 24

Will Accompany Lady Rachel Who Sails for Eng.—Will Meet Marquis of Hartington

A telegram was received by the Mayor at City Hall yesterday from Arthur Staden, private secretary to the Duke of Devonshire in which it was stated that "the Governor General will arrive on the C. P. R. at 5:15 and leaves at 6:15 instead of three and five as mentioned previously." An Mayor Schofield was in Halifax, the other commissioners were not previously aware that the city was to have a visit from the Governor General, it was thought that perhaps His Excellency might arrive in the city today as the telegram from the private secretary did not mention the date.

It was learned by the Standard last night, however, that the Governor General and party were present at a hockey match in Ottawa last night and that he would arrive in St. John on March 24th accompanying Lady Rachel who sails for England on that date and he will also meet the Marquis of Hartington who arrives here about the same time.

**KILLED BY BANDITS.**

Chicago, March 10.—Five bandits yesterday shot to death Arthur White, after attempting to hold him up near his home on the south side. White to it was the third man to be shot down in the streets in two days.

## PILES

Is not so much what you pay for an article, as what you get in return.

## "SALADA"

Is worth every cent of its cost, as you get Quality Value incomparable.

## "Make 'Em Pay" British Desire

(Copyright 1921, By Public Ledger.)

London, March 11.—"Make 'em pay," were the last words Premier Lloyd George heard before he went into conference with the Germans at Compiègne House.

The admonition, or it might be said the demand, came from men and women who had gathered to see the tables enter what the public believed would be the most important session

of the conference. The Premier hastened to the shouts with his usual smile as he hurried in.

**MORE IRISH MURDERS**

Belfast, Mar. 10.—A party of armed and disguised men today at Thurles shot and killed Lawrence Hickoy, a Republican, and Wm. Longmans, a Sinn Féin. It is presumed the men were shot in reprisal for the killing of James Brainer and Patrick O'Mara, former soldiers, near Thurles Tuesday. Several houses in Thurles were raided, but their occupants escaped.

A H DAYLIGHT FRIENDS THEIR Delegates at Freder is a Hindrance That It Enabled

Frederick, March 10.—representing the C. P. E. department, was the first of the New Brunswick Dairyman's convention. Referring to the co-operation of farm products he said a great necessity for co-acting of all farm products reference to wool grading before the grading had been set it was hard to do wool satisfactorily, but being bought upon the

Pool The Buin

There had been some the worst about the grad for marketing, but for the people of the upper province grading all market. These were pooled and are settled with later on what he was getting by present system a man with head of cattle got the for that grade.

In the old days there position to the co-operation but now this had been with and the markets had been. In these days what he was getting by present system a man with head of cattle got the for that grade.

Handling Stock

He pointed out that handle stock quickly if piled in quantities, and the suggestion that there shipping days, was being it often saved fifty per cent. This could probably by a special live stock Friday over the main line P. E.

Stock men of the three were getting together way in order to bring facilities for loading at points.

J. D. McKenna of St. John of the Agricultural Society gave a short talk on fer a price list of the various on stock. He also offered out and seeds, bran, shorts, cornmeal, seed, etc., which the mer supplied.

Resolutions.

The resolutions submitted their report of submitted to them. The with the appointment of a committee to take the resolutions with the authorities, the committee the Association at the meeting.

A resolution to the effect underw poultry be offered on all the maritime and passed with the recommendation a committee be appointed matter up with the minister.

Endorses Co-operation The association endorsed the co-operation of eggs and asked that fort be made to carry of the motion of A. J. Dore by Rev. Father Landry resolution was passed. "Resolved that this co the Farmer's and Dairyman submit to the Federal of Agriculture that the of a second experiment the North Shore, either in morland, Northumberland or Restigouche, would be to the agricultural interest respective counties."

In support of the resolution pointed out that in Nov spite of the fact that the tral experimental farm, had been established. The passed unanimously.

A resolution requesting amusement tax on agricultural exhibitions was passed.
