

AMERICANS PREPARING TO WITHDRAW.

Chaffee Has Begun Taking the Americans from Peking.

(Copyright 1900, The Associated Press.) Ten Tsin, Sept. 28, via Shanghai, Sept. 28.—Orders from Washington directing the withdrawal of the bulk of the American troops were received this afternoon, and preparations to comply were begun immediately. General Chaffee is directing the movement, which will commence at the earliest possible moment.

It is understood that the plan contemplates leaving a regiment of infantry, a squadron of cavalry and a battery of artillery in Peking to protect American interests and that the remainder of the troops will proceed to Manila.

The allied commanders had decided to dispatch a combined land and naval expedition to Shan Hai Kwan on the Gulf of Liao Tung, leaving Taku October 1, the total land force being 4,200. The American details had not yet been made, nor had a decision been reached on the naval force. Now that the order to withdraw has been received from Washington it is possible that the plans for the expedition will have to be modified, so far as American participation is concerned. Gen. Chaffee, however, is proceeding on the opposite assumption and has ordered the fifth marine battalion to prepare to go.

The United States armored cruiser Brooklyn will probably be the only American warship in the expedition. It will go by water and be landed south of Shan Hai Kwan. They will co-operate with a large Russian contingent already on the way.

The news of the American withdrawal created a sensation among the representatives of the other powers here.

The Procession Has Started—Only Two Thousand to Remain.

(Copyright 1900, The Associated Press.) Peking, Sept. 25, via Taku, Sept. 25, via Shanghai, Sept. 25.—At the conference of general today the Russian commander, Gen. Linévitch, announced the immediate withdrawal from Peking of the bulk of the Russian troops and the legation. He will leave on Thursday, Sept. 27, and the legation will follow on Saturday. There will remain a mixed force of about 2,000 to represent Russia.

Gen. Linévitch asserted that the despatch from St. Petersburg transmitting the order to withdraw contained a statement that all the powers were adopting the same policy. The other generals replied that they had received no orders of that nature.

German and Japanese columns are operating to the southward near the Imperial Deer Park. Sir Alfred Gaselee, the British commander, has gone to Tien Tsin to inspect the British troops there.

Friction between the British and Russians over the railway continues.

The Suggestion of the United States Accepted and Acted Upon.

Washington, Sept. 29.—Important news came from China at the close of the day, which in itself tends to advance material for the efforts for a final settlement. China has accepted the suggestions of the United States contained in the answer to the German proposition and has begun voluntarily the punishment of the Chinese leaders who were responsible for the Peking outrages.

It will be recalled that in the American answer the state department was careful to state that while it did not believe in demanding the surrender of the Chinese ringleaders as a condition precedent to negotiations it was resolved firmly, as Secretary Hay had said in his note of July 3rd, that in the end the guilty parties should be held to the uttermost of the law. The Chinese government has taken this intimation to heart, and perhaps hastened its action by the recent manifestation of dissatisfaction by the United States government at the reported promotion of Prince Tuan, already has begun the punishment of Tuan and other Chinese leaders who are held guilty.

The Sultan and the Shah Meet—Nothing About the Families.

Constantinople, Sept. 30.—The Shah of Persia arrived here today and was received by the Sultan with elaborate and brilliant ceremonies.

Toronto's Wealth and Size.

Toronto, Sept. 29.—(Special.)—Completed assessment returns of the city were given out today. The total taxable assessment is \$128,956,144, an increase of \$3,218,135 over last year. Half of the increase is on new buildings. The population is returned as 199,943, an increase in the year of 61,396.

New Methods in Medical Science

Wonderful Discoveries by a Famous Specialist who is Curing Thousands of Consumption, Lung Grippe, Lung Debility, Bronchitis and all Pulmonary Diseases

Every sufferer from Diseases of the Throat and Lungs need despair; nothing is lost. A FREE course of treatment, consisting of a series of simple exercises, has been met with the surest, certain and permanent.

Each of the Three Pre-arrangements of the Sirovan system of Treatment, taken together, will give the best results. Men, women and children are benefited in every instance. By the use of this new treatment, and need no longer be daily to the Sirovan standard.

You or your sick friends can have a FREE course of treatment. Simply write to THE T. A. SIXTH CENTURY CO., Limited, 177 King St. West, Toronto, giving post office and express address, and the fee in dollars. The Sirovan Cure will be promptly sent.

When writing for this valuable information this point in Canada, address: Sirovan's office in American papers will please send for a copy to the Toronto laboratory.

Act Now. Get rid of that stubborn cough, that dry system forever of the disease which quickly leads to Consumption. Let no prejudice prevent further suffering when the trial treatment can be had for the mere asking.

Only Germany, France and Russia Received Him. Ten Tsin, Sept. 27.—Count Von Wal-

Women Have Taken Over the Galveston Relief Work.

Galveston, Sept. 29.—The system of relief work now in operation in Galveston is described in the following telegram from Clara Barton, president of the American National Red Cross, received today at the rooms of the Red Cross, Texas, relief fund, in this city:

"Upon the repeated solicitation of the local authorities, the Galveston local relief committee, composed entirely of ladies, were merged into one committee yesterday and immediately organized into the Galveston auxiliary of the American Red Cross. The entire work of distribution, clothing, and other relief supplies, was transferred to the new organization. All such work is being immediately and henceforth conducted under auspices and by the direction of the American National Red Cross.

"The slightest interruption of the work will take place. The ten ward distributing stations established and being used by chairman of the cities' committee will be continued in the same manner. The accession of the Red Cross ladies, one of whom has been appointed as vice-chairman for each ward, with three or more of the ladies of the committee, will be a great help in the delivery of goods at the relief stations, with additional accessions of ladies for each ward station, to any number that may be desired. It is to be hoped that systematic investigation in certain streets assigned to them of the worthlessness of all applicants for relief.

"The relief work is most completely organized and reduced to a perfect system. The skill with which it was first organized and has thus far been conducted by Chairman McVieles and his associates is a marvel to us. The leading business men of the city have labored day and night to secure the necessary supplies, and a thorough census of the present city as to names and present abodes of the sufferers, their pressing wants and whether or not each person or any member of a remaining family is able to do labor for wages are being paid for labor in the great task of removing the debris.

"The most imperative subject now before the committee and the one greatest in importance next to the sanitary relief in cleaning the city, is the question of providing suitable homes of a temporary nature for more than 8,000 homeless persons. Immense quantities of lumber, nails, roofing and carpenter's tools and a large fund of money will be necessary to suitably meet this end."

German Press Ridicules the American Suggestion.

Berlin, Sept. 29.—The Chinese situation, particularly Germany's proposal and the United States answer, monopolized public attention this week. The press, both semi-official and independent, continues to severely blame President McKinley for his refusal to agree with the proposition of Germany. The Cologne Gazette, which since the outbreak of the China troubles has been the favorite mouth-piece, daily of the foreign office, this week combated the view that Germany had been trying to embark the other powers on dangerous seas or attempting to obtain the lead in the Chinese negotiations.

The Lokal Anzeiger today argues that the United States knows, through Minister Conger, that the Chinese government has been the real culprit, hence it adds, it is ridiculous to expect this same government to punish itself. The paper also says that the Chinese government does not want peace. The argument, besides, is that Germany's demand that China give up the ringleaders before peace negotiations are possible, must be concluded with by China in order to show she is really acting in good faith.

The papers express the hope that -aid Marshal Count von Waldseeer will issue a decree offering a large ward for Prince Tuan, dead or alive as the only means of impressing upon the Chinese mind the necessity of peace in the East.

The strong evidence that Russia has seized the opportunity to formally annex part of Manchuria and the statement of the Russian minister in Berlin Tagelblatt in Ugra, Mongolian, that Russia already treats Mongolia as her own, is here treated with indifference. This is only in a line with the formal declaration which a foreign office official made to a representative of the Associated Press months ago. Owing to Emperor William's special wishes, the theatre censorship through Russia is now much more stringent. All the new plays submitted for censorship in Germany in any way objected to, have been either forbidden outright or greatly modified. The objections were largely of a political or social nature.
