JAMES DRUMMOND & SON, PETTIT COTT, MONTREAL, P.Q. 2-95-121

J. A. Gosselin's Curd Cutter

This machine is the most perfect in the market. A man can use it with one hand as easily, and make with it more work, than two men could do with any other machine, without any curd undivided. The Crank and the Hopper being so closely at hand one man alone can put the machine in motion. These points render it advantageous to all factories. In some factories where there is ordinarily but one man employed, this machine gives him the power to cut the curd, unaided, and, on the contrary, in others it is quite sufficient for the whole work. Each machine guaranteed to have all the qualities claimed in this advertisement. Ask for prices.

Cheese, Butter, Calves.

Beaver Manufacturing Co., Galt.

Gentlemen,—I have fed Herbageum according to directions and found it to be profitable. I fed my three cows 4 lbs each, costing 50c. per cow. I commenced 3 weeks before they came in, and fed for about three weeks after, and then put them on grass. My neighbors had full better cows, yet on no better pasture, mine at the end of the six months delivery. Nov 1st, returned me from \$4 to \$6 more per cow. One of them had 30 cows. I urged him to test Herbageum. He replied, "It costs too much." Mine returned me over \$6 per cow more than his, and apparently \$15 invested for them in Herbageum would have returned him \$165 extra profit. I find it equally good for calves and horses. E. M. YORK
Belrock, Nov. 27th, 1894.

REPORT CONFIRMED.

We are the cheese manufacturers to whom the milk from the cows above referred to by E. M. York, Esq., was delivered. We have examined our books and find the above reported differences correct.
