My dear Mr. King  
I am very delighted to receive  
and photographs received. I am very  
much interested in seeing the two stages  
of your mother's relief, but comparing  
them to the photograph of the painting  
they do not convey to me the same  
quality of the subject.

I hardly think it possible to do any  
resembling on the relief for neither  
the technique, nor the conception of  
the subject would permit the work-  
ing of another personality.

I would be very much interested in  
the modeling of a new portrait relief  
of your mother and if she could  
not come to N.Y. a few unre-  
touched photographs if possible in  
the same pose as the painting  
would be all that I would  
require.
