The Hardie Magic Sprayer

IS SUITABLE FOR ANY FIELD CROP.

It sprays two rows at a time and one man can spray ten acres of potatoes a day. It is automatic in action—all the operator has to do is to pick up the handle and push the outfit like a wheelbarrow—"The machine does the rest."

Can be changed to an orchard sprayer at a moment's notice.

Send for our new catalogue telling the whole story.

The Gould, Shapley & Muir Co. are ever to the fore with their windmills and other indispensable machines. A windmill is something which will pay for its own cost probably quicker than most other engines or farm appliances. Those who have them don't know how they ever did without them; and the value of good, pure water goes without saying. They pay.

Special attention is directed to the advertisement of Messrs A. E. Ames & Co., one of the most reputable firms of bankers and stockbrokers in the Dominion. Our readers are perfectly safe in their hands; and those who are on the outlook for some sound investment for their savings cannot do better than consult Messrs. Ames. These gentlemen do not deal in vain hopes of enormous dividends—and risks immeasurably greater—they only touch such stocks and investments as are handled by the highest-class concerns. They invite correspondence from our readers with regard to banking and to investment.

This is the miserable time for all male members of families—this is spring cleaning time. Most men pretend that they can see no difference after the cleaning is done. If the walls are colored with Alabastine, there won't be any doubt about the difference. Alabastine is cheap, it is beautiful, healthy, and very simple of application. Kindly note the ad on another page.

That well-known stock food, Herbageum, has a cloud of high-class witnesses in its favor. Most of them are known to our readers—most of them are our readers. Naturally, we are very adverse to recommending stock foods; there are so many in the market, and so few of real value to the farmer. However, when the recommendations come from the very best farmers and stockmen in the Dominion, surely no higher testimony is available.

The New Field Root

The new root—Rennie's Giant Sugar Mangel—has become immensely popular and is rapidly taking the place of sugar beets and mangels for a general crop for feeding purposes. This new feeding root contains higher feeding value than either mangels or sugar beets and yields enormous crops, as heavy as the mammoth mangel. The roots keep longer than either mangels, sugar beets or turnips, and make the very best feed for hogs, as well as cattle, horses and poultry. The seed is sold by nearly all the leading dealers.
