# FARM AND DAIRY

## RURAL HOME

PETERBORO, ONT.

OCTOBER 26

1911.

**BIG BARN AND SILOS ARE CHARACTERISTIC OF THE BETTER SECTIONS OF ONTARIO** Good stock, big barns, and silos are three things for which Ontario Co., Ont., is noted. Animals from the herds in this district on many occasions have captured the premier awards at the biggest shows on this continent. Perhaps in not another district are to be found so many fine, big barns. Silos, too, abound and during the past two years farmers there who have used one silo have installed a second one, thereby contributing in a practical way their testimony to the merits of corn ensilage for stock feeding. The prosperity that is in evidence in Ontario County comes from good soil and good stock intelligently handled. The barn here shown is on the farm of Mr. L. O. Clifford.
