LIVE STOCK.

Quotations are steady. Last week's levels. Good butchers' cattle have been in especially strong demand, and those that were sold finished were taken up briskly at prices ranging around \$2 as high as \$6.35 and \$6.40 have been paid for especially good lots but butchers' heifers are not so plentiful. The figure for Brisk demand is limited to quality cattle. A large proportion of the offerings have been sold and were taken up slowly. Business was quiet for the week. Medium to good butchers' cattle run from \$5 to \$6; choice cows, \$4.75 to \$5.50 and down to \$3 for cheaper grades. A few choice expert cattle sold at \$6 to \$6.25 for local consumption. Feeders and stock-ones are high, \$3.50 to \$5.75 for the former and \$3.50 to \$5.50 for the latter.

Milk cows are quoted as follows: Choice, \$40 to \$75; cow to med., \$30 to \$45; springers, \$40 to \$70; calves, \$3.75 to \$9.

Lambs are firm at last week's level, \$5.50 to \$6.25. Are quoted at \$4 to \$4.40 for light and \$3 to \$3.50 for heavy; bucks and kids, \$1.50 to \$3.50.

Hogs are meeting with stronger demand and a considerable advance will be expected. Packers are paying \$7.50 to \$8 f.o.b. country points.

MONTREAL HOG MARKET

Montreal, Saturday, October 12.—The market opened quiet, and declined. Owing to the smaller offerings and prices as compared with a week ago there was an advance of 1c to 2c. Light, selected lots selling at \$8.75 to 9c, well weighed lots, \$8.50 to 8 1/2c. Toward the middle of the week, there was a weaker feeling developed, and there was a reaction to 8c. Toward the end of the week, a more liberal supplies coming forward, and the market closed with selected lots quoted at \$8.50 to 8 1/2c, well weighed lots, \$8.25 to 8 1/4c.

EXPORT BUTTER AND CHEESE

Montreal, Saturday, October 12.—The decline in cheese was arrested this week by an increase in demand for export stock. For the last of the September cheese; and, coupled with the anxiety of those who were short, the effect of carrying prices up again, and as high as 13 3/4c was paid at some of the country markets for colored cheese. This is a reaction from the 12c to 12 1/2c, which the price current last week. It is doubtful if this price will be maintained much longer. It is evidently due to the demand for September cheese, and there is a general opinion current here that prices must still lower if the balance of this season's make is to be moved at all freely. Stocks are steadily increasing on both sides of the Atlantic, and it is quite evident that the cheese are not going into consumption. If this is continued, sooner or later, there will be a very serious break in prices. The make is keeping up, and the weather, on the favorable weather conditions, and the quality of the receipts is very fine, although from some sections the quality is showing more of a decline. There is a tendency to openness which makes should get their best to overcome.

The market for butter is very strong and prices are steadily advancing. Fine Eastern Townships creamery being quoted at 26c on this market to-day, with every prospect of still further advance. The demand is largely for speculative purposes, the bulk of the receipts of finest quality going to cold storage to supply the winter trade.
