QUESTIONS AND ANSWERS Miscellaneous.

ASSOCIATION STATIONARY ENGINEERS.

Please give me the address of the Canadian Association of Stationary Engineers? B. H.

Ans.—W. G. Blackgrove, Box 591, Toronto.

BREEDER'S MEMORANDUM.

Where can I procure a stock-record book to use as a means of keeping records of service, births, etc.?

A. L. W.

Ans.—Readers who have preserved the "Farmer's Advocate" on file as most breeders do, will find a complete table of the above character on page 468, May 15th issue, 1903.

TURNIP-LICE TREATMENT.

Please let me know through your valuable paper what is best to do for lice on turnips, as ours are getting very bad and am afraid they will be totally spoiled.

R. J. I.

Ans.—We have found kerosene emulsion an effective remedy. It is made of hard soap, half a pound; boiling water, one gallon; kerosene, two gallons. Dissolve the soap in hot water, add the kerosene, and churn with a pump by directing the nozzle into the solution for five or ten minutes, until it emulsifies (or becomes of a thick, creamy consistency). This is the stock emulsion, and will remain in this state indefinitely. Dilute with water ten or twelve times for plant lice. Apply with a sprayer.

SETTLING IN NEW ONTARIO.

1. What is the price of horses and general stock in Temiscaming district? 2. Is there any employment to get, either in winter or while crop is growing?

3. What is the distance of unlocated lands (quarter-sections) from railroad? 4. Is it advisable to come up beginning of November, or wait until spring?

Ans.—1. Horses from \$200 (team or pair) up, according to weight and age, and time of year. Generally a little cheaper in spring. About \$300 is reckoned fair average for a team. Cows, cross-breeds, from \$20 to \$30 for a good one. Not enough pure-bred up here to give any idea of their probable value. Beef cattle not yet raised; sheep, ditto. Hogs and pigs often got from Old Ontario, mainly cross-breeds here; young pigs, just weaned, from \$3 to \$5 a pair. Fowls, according to breed, but much the same as in old Ontario.

2. There is plenty of employment all winter in lumber camps. There is also plenty of work on the railway at present all times of the year. Employment while crops are growing depends upon the man. Work is usually plentiful around Liskeard and Halleybury at all times. There are no men hired on farms yet, clearings too small. An energetic man can get work all year round without much trouble.

3. Have been to Crown Lands office, and am informed that nearest to present railroad is forty to sixty miles. There are lands along side railroad survey, but the townships are still under survey, and not yet opened, but as soon as the railroad is built they will be available (probably before Christmas). My own advice would be to obtain employment first, then look round as early as convenient, nearer New Liskeard or other settled part, for located but unoccupied land, and "jump" it. There are plenty of good farms standing idle (speculation), and can easily be "jumped." The process is simple.

4. If inquirer can do, or will do, bush work in winter, November is better (wages \$30 to \$35 monthly with board), and will allow the seeker to look for farm early in spring; though, as far as work in concerned, other than lumbering, there is little to choose between seasons. Temiscaming District. G. W. W.
