Docten.

The Lost Bird.

BY WILLIAM CULLEN BRYANT.

Look in your lawn, I pray, Ye maidens kind and fair, And see if my beloved bird be there.

His eyes are full of light; The eagle of the rock has such an eye; And plumes, exceeding bright, On his smooth temples lie;
And sweet his voice, and tender as a sigh.

Look where the grass is gay With summer blossoms; haply there he cowe And search, from spray to spray, The leafy laurel bowers; For well be loves the laurels and the flowers.

Find him, but do not dwell, With eyes too fond, on the fair form you see, Nor love his song too well; Send him at once to me, Or leave him to the air and liberty.

For only from my hand He takes the seed into his golden beak, And all unwiped shall stand The tears that wet my cheek, Till I have found the wanderer I seek

My sight is darkened o'er Whene'er I miss his eyes, that are my day, And, when I hear no more The music of his lay, My soul, in utter sorrow faints away. -N. Y. Ledger.

crop is a living worm, too small to be plainly seen with the naked eye. A single blade or leaf of the oat sometimes contains and Vercelli, in the Sardinian dominions. blade or leaf of the oat sometimes contains hundreds of them. They lie encased in the tissues of the leaf or blade, where they have been germinated, beneath the epidermis or thin pellicle over the exterior portion of the blade, and, as they progress in development, the skin of the leaf is raised into curious puffy blisters. The growth of the scene of the great battle between the French and Austrians in June, 1800.

The Sardinian dominions. The characteristics we will stop; we have not room to dwell upon the food, upon the fruits and vegetables; we would only add that the liquids to promote the digestion of the above articles, enumerated or suggested, are counted at 49 hogs-heads of wine, 1, 368; gallons of beer, 584 gallons of spirits, and Austrians in June, 1800. curious puffy blisters. The growth of the worm subsequently ruptures these, and it escapes to feed on the plant. When first released from their covering, they are of a beautiful, clear, red color, simost transbeautiful, clear, red color, simost transparent, but soon begin to change color and form, getting more opaque and dark in appearance until, in the course of transformant and Austrian Lombardy, and containmation, they become a black bug, with legs and wings, when they attack the head or grain of the oats. Under the microscope, the dust which remains on the leaf closely resembles that on the wings of butter-flied. How this innumerable army of inficites many of infic How this innumerable army of infinitesimal superseded by a Provisional Government, worms or ginated is yet a mystery. It is a which is in communication with Sardinia. singular fact, however, that wherever the 2 The Grand Duchy of Tuescany (capisingular fact, however, that wherever the greatest quantity of rain has fallen, there tal Florence) with a population of nearly a million and a half. The population having the oat crop has fared the worst.—Home.

The Gardener's (London) Chronicle named Military Distator.

says:

"The system of stripping the bark off tion of nearly half a million. the trunks of trees, for the purpose of destroying the insects which infest, them, has tion a 150,000. now been generally applied to a large 5. The Papal States, with a population number in the Champs Elysues, and else- of nearly three millions, bordering on sevof a curious but important fact. It appears from Austrian Lombardy to the Kingdom that trees may be deprised of the whole of Naples. their bark, not only without experiencing any injury, but even with considerable adany injury, but even with considerable advantage, the operation tending to increase their power of vegetation. Ems, for example, which, before the operation, did not increase more than one or two millimetres in diameter in each year, have been found to increase four or five when stripped of their bark. Trees having a very thin bark, such as the birch and others, need not be stripped to obtain a similar result; it is aufficient for the purpose to make longitudinal incisions in the bark by means of a kind of three bladed scarificator. It is now intended to subject all the young elms in a languishing state to this treatment through out. Parts, it having answered perfectly with those planted on the fortifications. It has long been the practice where rees have been denuded of their birk by cattle, to good them over with some kind of comvaniage, the operation tending to increase coat them over with some kind of combeen highly sausfactory."- [As we have subject : seen this paragraph copied in outher papers we would state that we understand it to usual practice has been for the opposing mean, not the removal of the entire bank to armies to arrange themselves in battle array the wood of the trunk, but the outside at distances varying from 600 to 1 500 yards rough bark, leaving the under cuticle un-broken. As the sep of trees flaws between were about 1 200 yards apart. At such the outer bark and the wood of the trunk, distances muskerry fire was out of the ques fatal to their life - Eps.

Profitable Breed of Sheep.

A Canada West farmer, writing on this operation to the Greater Advance, and the most other. This they could do in any formssold in packets of 3 large lablets for 3s light, or in single profitable sheep are of no breed. Buy ston that suited them, and the assailants cakes at 1s. 5d each.

BROWN, BROTHERS & CO they will pay from 50 to 100 per cent, per nuies at the utmost from the time of the wool of from 50 to 100 per cent., besides a cumstances. great improvement in the quality of both." -Country Gentleman.

Management of the Barn.

Purchasers may rely upon instruments from our man ufactory being made in the most complete and thorough manner. Having removed to the spacious buildings 5il Washington Street, where we have seer judility for manufacturing puoposes, and employ none but the most experienced workmen. In short, we will promise our customers an instrument equal if not superior to any manufacturer, and guisrantee entire and perfect esti-faction.

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit out. Music Teachers, Lenders of Unoirs, and University in musical matters, are respectfully invited to visit our sale rooms at any time, and examine or test the instruments on eshibition for eale at their pleasure.

Parlour use.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing to obtain it at the expense of the manufacturers, to the extent, at least of a year's resit.

§ Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms. PRICE LIST.

DEMAND. THE reason why, is that b Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluds, and tous makes it grow one bald heads, removes all dandung, itehing, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may thus may be relied upon to cure all diseases of the sealp and hair; it will stop and keep it from falling off; make it soft; glossy, heatth/sil and beauti/ul, and it used by the young two or three times a week, it will never fall or become grey; then reader, read the following and judge for yourselves:

New York, Jan 8, 1°58.

MESSES. C. J. WOOD & CO. Continue to the property of the position of the property of the prope The result has been so very satisfactory that I am very glad I did so, and in justice to you, as wil as for the encouragement of those who may be as grey as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration. I write you this letter which you may show to any such, and also direct them to me for further proof, who am in and out of the N Y. Wire shailing Betablishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthier looking.

I. m, Yours Respectfully,

HENRY JENKINS.

Gor Columbia and Carroll Ste. Brooklyn.

Cor Columbia and Carroll Str., Brooklyn.

Living von, Ala. Feb 14, 1888.

Paor. Wood—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair been slightly diminishing for several years, caused I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks, and I find that I have a fine head of hair now growing, after having used all other remedies known to no effect I think i the most valuable remery now extant and advise all who are afflicted that way to use your remedy You can publish this if you think proper.

Yours, &c.

Philadstreia Sept 9, 1888.

You can publish this If you talk property of the Yours, &c.

PRILABEPHIA. Sept 9, 1888.

Prof. Wood—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact ball I have used but 2 halt pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receively its benefit. I have tried other preparations without allso-benefit whatever. I think from my own personal recommendation, I can induce many others to try it.

Yours, respectfully

D. R. THOMAS, M. D.

No 464 Vine Street.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small; the small holds a pint, and retails for one dollar per bottle, the medium holds at least 20 per cent more in proportion than the small, retails for 22 per bottle; the large holds a quart, 40 per cent more in proportion, and retails for \$3.

O. J. WO!D & CO., Proprietors, 444 Breadway, New York, 114 Market St., St. Louis, Mo.
And sold by all good Druggists and Fancy Goods Dealers.

Sm. June 23.

PALMER'S Celebrated Artificial Leg.

THIS world-renowned Limb has been in use in Europe and America for upwards of 12 years, and every succeeding year serves only to increase is oppularity. The "Great Prize Medat" was awarded to Dr Palmer in London, over thirty-five competitors from all parts of Europe and in this country wherever exhibited it has invariably received the highest award. Upwards of Four Thousand of the Paumer Artificial Legs are now in use, and are represented he all degrees and professions.—Farmers, Mechanics, inghe to execute the most rapid music without bitering the tones. The swell is arranged to give great expression.

The Pedal Bass Harmoniums

are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals or banks of keys, the owest est running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by the use of the coupler, two banks may be played at the same time by the use of the front set only. This connection with the Pedal Bass will produce the effect of a large organ, and sufficiently heavy to fill a house that seats from 1,000 to 1,500 persons.

The Organ Melodeon

Is designed for parlour and private use. The construction is similar to the Church instrument, being stranged with two banks of keys, and when used together, by means of the coupler, is capable of as great power as the church anstrument, when used without the Fedals.

Also, every variety of Melodeons for Parlour use.

Also, every variety of Melodeons for Parlour use.
