# Make Your Farm Pay

The success of every farmer depends upon the extent of his knowledge of the principles of correct and scientific farming.

For the first time in the history of Western Canada these principles are being taught by mail and the farmer can now get his training without leaving home.

We are not trying to sell you books. What we offer is a course of individual personal instruction by mail.

As a basis we send you a course of some 25 or more lessons prepared by the most practical agricultural authority in Western Canada and endorsed by the leading agriculturists of the West. Every lesson is practical and every lesson bulges with valuable and practical information which you can turn into money with your next crop. The student gets personal attention from our staff of examiners and instructors. All his difficulties are explained by return mail.

The study of the course can be completed between harvest and seed time. An application next year of the practical knowledge this course gives you will earn you many times its cost in increased yield of grain.

The dread epidemic, infantile paralysis, which is spreading over Ontario, is growing in Hamilton, where the outbreak was first discovered at an alarming rate. It is estimated that there are over a hundred cases here now. Thursday the disease claimed another adult and Friday two more adults. In Mount Hope and vicinity three adults have died within the past few days. The authorities say they are powerless to check the epidemic.

A Ludington, Mich., dispatch of Sept. 9 said:—Twenty-nine lives were lost to-day when Pere Marquette car ferry No. 18, bound from Ludington to Milwaukee, went to the bottom of Lake Michigan half way across the lake. The financial loss exceeds half a million.
