A certain young lady in this city is reatly worried over the loss of a valuable gold ring. A young man took it off her finger in church last Sunday evening and she has not seen him nor the ring since. The lady in question hardly knows her strange friend, having merely formed a slight acquaintance with him in church. She has been busily engaged since Sunday in an endeavor to find the missing ring. She heard that the man was working at a leading hotel, but when she arrived there she learned that he worked there only one day and has not been heard from since.

The first effects of the strike on the C. P. R. reached this division on Tuesday, when the brakemen on time of departure of the express from Edmundston refused to couple up the cars, claiming according to schedule, it was not their work, although they had been doing to for several days and as there was no one else to do it; between or driving back and forth from Woodstock, and all refusing to do the work until the freight conductor and brakeman (who are supposed to do this work for their own trains) were ordered to do so, and the train was dispatch ed as a freight about 6 p. m., arriving about midnight. Yesterday's up train only went as far as Aroostook Jct., and returned we understand as far as Woodstock. If this is so the mails and passenger traffic will likely be somewhat mixed up today (Wednesday) aiso, and unless some arrangements are made with the men the mixup will possibly continue, although the company claim to be able to hold their own and he able to do the business of the whole line.-Victoria Co. Some ready roofings have so little protective quality of their own that they require painting every year, although there are better grades which can be left as long as three years without this protection.

The cheapest way out of the difficulty is to buy a roofing which needs no painting whatever. Such a roofing is Amatite, which our readers will find frequently advertised in these columns. The mineral surface of this material scorns the protection of paint and faces the weather boldly. Rain, snow and wind have no effect whatever upon it, and it will give good service year after year in the most extreme exposures without any care or atten-
