UNITED STATES HE SAYS

In Matters of Civic Gov't Glasgow Magistrate Finds That This Country Leads.

NEW YORK, Aug. 18.-Mr. James Shaw Maxwell, senior magistrate of the city of Glasgow, who is making an extensive tour of the United States and Canada, arrived in New York yesterday. Although Mr. Maxwell's purose in visiting America is for the ransaction of private business, he is taking advantage of the opportunity to study American institutions. He declares he has been greatly impress-ed with those he has already visited in Chicago, Boston, Toronto and Ottawa.

Coming, as he does, from the birthplace of municipal ownership, Mr. Maxwell professes surprise that the citizens of the large municipalities are ot more interested in that problem. "From what I have already observed," he says, "the Canadian cities are far ahead of those in the United States in many respects. They appear to be better regulated and are

kept cleaner."
In referring to yesterday's fire in Glasgow, the visitor expressed the opinion that New York was in more danger from serious conflagrations than his home city. 'We have no frame buildings in the city proper," he said, "and I believe that our fire regula-tions are more strictly observed."

MILLMEN HERE ARE AFFECTED BY TARIFF

WHOLESALE AUT.

More Free Entry of American Lumber Sawn Here and Shipped

One feature of the new United States tariff that will likely have a far reaching effect on the operations of the. American millowners here, has apparently been overlooked in the espatches sent here in which were mbodied the sections that had to do

with the lumber industry. It appears that the lumbermen who now saw American lumber and ship it to the United States free of duty are to have this privilege taken from them and after two years allowed them in which to dispose of stock on hand and adjust themselves to the new onditions, they will have to make heir shipments subject to the same ity as has to be met by the Canadian

The mills here that will be affected by the change are Stetson, Cutler & Co.'s mills at Indiantown and Pleasant Point; A Cushing & Co.'s, Fairville; Miller Bros., Charles Miller's and James R. Warner & Co.'s Under the terms of the Ashburton

treaty these mills, which sawed lumper cut in United States territory were allowed to ship free of duty. Now this privilege has been taken from them, provision being made, owever that the new law will not int I feet for two years. This vill give the operators a chance to hip the stock they have on hand or contracted for, but what they will do after the two years period has expired is hard to conjecture. Some of those affected were asked what action would be taken in view of the changed conditions, but they de-

clined to discuss the matter, saying
