SEASONABLE RECEIPTS.

Roast Chicken Dressing.

For dressing take one quart of grated bread crumbs, season with salt, pepper and sage, four table-spoonfuls of butter; pour over this one-half cupful of boiling water. Have chicken ready and fill with dressing. Take a clean cloth and dry it well, then place in oven and dry nicely all over. This closes the pores and keeps the meat from becoming dry. Have the liver, heart, gizzard and neck stewed till tender in water enough to make about a cupful of broth when done. Make a sauce as follows: Three table-spoonfuls of butter, three table-spoonfuls of flour, salt and pepper to taste, mix well and pour in gradually two cupfuls of water, the cupful of broth, with the liver, heart and gizzard minced and liver, heart and gizzard minced and liver, heart and gizzard minced.

Chicken Turnovers.

Chop cold roast chicken and season with salt and pepper. Roll rich biscuit crust very thin and cut into pieces; inclose in each piece some of the prepared chicken, fold one edge of the paste over like a turnover; bake in a very hot oven to a very light brown. This is a very good breakfast or luncheon dish.

Delicious Cabbage.

That the food value of the cabbage is low and that it is not readily digested by delicate people is undoubtedly true, but a nicely prepared dish often serves a good purpose by merely stimulating the appetite and affording a change of diet. Boil a small cabbage, and the next day, when the last trace of the odor has fled, chop it in small pieces, add salt and pepper, and add a table-spoonful of melted butter. When this has been stirred in put over the fire with half a cupful of milk or cream. When hot stir in two well beaten eggs and immediately turn into a hot buttered frying pan. Stir with a fork until brown, and then heap like an omelet.

and when the under surface is well browned serve on a hot dish with minced parsley.

THE SPIRIT'S PROMPTINGS.

The Spirit said "Write," and I wrote a letter consoling and kind; But, borne on the wings of the wind, It reached a sad home and it gladdened a soul And helped it to patient control.

The Spirit said "Speak," and I spoke— 'Twas only a comforting word; The face of the listener grew bright, The heart's inner feelings seemed stirred;

All painful anxiety melted away— My word was the sunlight's bright ray.

The Spirit said "Sing," and I sang— My voice seemed so weak as I thought; The words in the song were so sweet, My singing leantured for naught; But the weary one listened, enraptured to hear, And whispered, "The angels seem near."

The Spirit said "Play," and I played— 'Twas only a simple refrain; No classical music so grand— A ballad exceedingly plain; The listener remarked with her face all aglow, "My love played that song long ago."

The Spirit said "Work," My small acts Seemed drops in the ocean of work; So little accomplished had I, Yet 'twas not my duty to shrink; But the small service done lightened labor for some, And helped them in duties to come.

The Spirit said "Give," and I gave— It seemed but the poor widow's mite; I wished in my heart it were more, Regretting my income was slight, But it helped on Life's journey a brother forlorn, And hastened his night into morn.

of the Souvenir completely changes the air therein every few minutes without lessening the heat one iota.

Pure, cold air is drawn into the aerated flue and heated to the exact temperature of the oven before it enters it.

This Aerated Oven can only be had on the **SOUVENIR RANGE**

The ventilating principle of other ranges simply draws in cold air direct to the oven, heats it and allows it to escape. Suppose you have a pan of biscuits or a sponge cake in the oven, and a gust of cold air strikes them—they fall flat at once and the whole baking is spoiled.

Every Souvenir is absolutely guaranteed by the makers. **The GURNEY-TILDEN CO., Limited.** Hamilton, Winnipeg, Montreal and Vancouver.

DOWN ON AMERICANS

Anti-American Demonstration Fails To Arouse Enthusiasm
CUBAN ACADEMY BOYS

Havana, Oct. 2.—The first anti-American demonstration occurred in Havana last evening at 7 o'clock, when 150 academy students, shouting "Viva the Cuban Republic," "Down with American control." This demonstration was not treated seriously. The crowd received few concessions.

Taft Wins Regard.
Governor Taft's action yesterday have gone far to win him a warm place in the hearts of the people, whose desires temporarily have been placed in his hands.

Presiding yesterday morning at the opening exercises of the University of Havana, he declared his mission here was solely for the purpose of uplifting the fallen republic and restoring it to the path of prosperity, an announcement which was received with demonstrations of delight by an audience representative of the highest society in Havana.

Disarmament Commission.
Jose J. Montenegro and Carlos Hernandez, members of the disarmament commission, left here last night to receive arms from the rebels at Santa Clara, Sagua, La Grande Esperanza, Ciego de Avila and other points in the centre of the island. The laying down of arms by the rebels in the vicinity of Havana will begin to-day, when the men will be entrained for their homes.

Didn't Belong to Colorado.
In the early days of Leadville there was a singular character living by the name of Major Martin McGinnis.

The major was the important man of the camp, and when any distinguished parties came to the city they were received by Major Martin McGinnis and presented with the freedom of the camp on a gold plate. The French government sent three and a half engineers over to examine and to report upon the mineral deposits of this locality. They were received by Major Martin McGinnis, who put them in carriages and took them around the camp.

As they were going up California gulch the Frenchmen suddenly jumped out of the carriage and commenced to hammer and chisel upon a large black boulder that lay alongside the road. The major watched them gesticulating to one another, and he finally said to the interpreter: "What do they mean? What are they talking about?" The interpreter said: "They say that rock doesn't belong here."

The major said: "The deuce it don't! You say to those foreigners that I won't stand for them coming over here and running down our country. Tell them that they can find anything anywhere in Colorado."

The Frenchmen were right, however, for this black rock was a meteor and had fallen from the skies.

The First Bathing Machine.
There does not seem to be much doubt that the first bathing machine was seen at Margate and that it was the invention of a worthy Quaker named Beale, who placed his hopeful invention on the Margate beach in 1750.

"The public are obliged to Benjamin Beale, one of the people called Quakers, for the invention," writes the author of "A Short Description of the Isle of Thanet," published in 1796. But it was the old story, the public became grateful after the inventor had been ruined by his enterprise. His successors had reaped the harvest.

Old Benjamin Beale's widow could remember in her last days the first family that ever resorted to Margate for the purpose of bathing being carried into the sea in a covered cart. In 1803 Beale's machines were one of the institutions of Margate. It was alarmingly claimed for them that they were driven to any depth into the sea by careful guides.—T. P.'s London Weekly.

The Busiest Street in the World.
West street in New York presents a network of piers and docks for its whole length. Most of the great steamship and railway transportation companies have their pier terminals there, and other steamship companies have built their terminals on the New Jersey shore opposite, so that all transatlantic and a large share of the continental travelers must cross West street in coming to or leaving the city.

When one considers the great number of short trip travelers, including commuters, who daily make their way in and out of the metropolis across this busy thoroughfare a faint idea of its importance may be gained. Manhattan Island has thirty-two miles of waterfront.—John P. Fritts in Leslie's Weekly.

This Was In 1824.
English opinion of the United States in 1824, from the standpoint of the fashionable London set, is shown in the extract from the correspondent of John Whishaw:

"You must have read some time since in the papers of a few young 'fashionables,' Mr. Stanley (Lord Derby's grandson), Messrs. Wortley and Denison, ministerial members, and La-bouchere, a nephew of Mr. Baring, having sailed for New York with the intention of making a tour of the United States. The scheme was thought very wild and much disapproved of by the west end of the town, and disappointment and disgust were universally predicted."

Those who possess the greatest virtue and purest morals are generally the first to pardon the transgressor.

The above is the official list of prize-winners of the ARMOUR'S EXTRACT OF BEEF Educational Contest, as determined by judges appointed. The Contest closed July 31, but the large number of entries and the necessity of checking them thoroughly made it impossible to announce the winners at an earlier date. Prizes will be distributed immediately. There were several thousand lists submitted in this competition, and apart from its educational value, the contest was a very successful one. ARMOUR'S EXTRACT OF BEEF is now generally and favorably known all over Canada as a superior and more economical than Fluid Beef Extracts.

A Patented Plant.
"One plant at least has been patented," said an inventor.

The inventor is the Abras precatorious, alias paternoster pea, alias weather plant. John Nowack took out the patent. The weather plant is still believed by many persons to foretell the weather. John Nowack was sure it did so, and he put it on the market along with an indicating apparatus, guaranteeing it to foretell for forty-eight hours in advance and for fifty miles around fog, rain, snow, hail, earthquake and depressions likely to cause explosions of fire damp. Alas for poor Nowack! The experts of the bureau of agriculture took up his patent plant. They proved the plant's movements of the leaves to the right foretelling rain, to the left foretelling drought—were not caused by the weather, but by the light. And they proved that the plant's famous downward movement, which was supposed to foretell earthquake, was caused by an insect that punctured the stem, causing the leaf, naturally, to droop. That is the only patented plant I know of, and Nowack lost money on it."

"Yes. Each of us believes that one of us is very poorly mated."—Judge.

Woman's Trials.
The bitter trail in a woman's life is to be childless. Who can tell how hard the struggle may have been for a woman to resign herself to her lonely lot? The absence of this link to bind marital life together, the absence of this one pledge to mutual affection is a common disappointment. Many unfortunate couples become estranged thereby. Even if they do not drift apart, one may read the whole extent of their disappointment in the eyes of such a childless couple when they rest on the children of others. To them the largest family doesn't seem too numerous.

In many cases of barrenness or childlessness the obstacle to child-bearing is easily removed by the cure of weakness, the part of the woman. Dr. Pierce's Favorite Prescription has been the means of restoring health and fruitfulness to many barren women, to the great joy of the household. In other, but rare cases, the obstruction to the bearing of children has been found to be of a surgical character, and easily removable by painless operative treatment at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., over which Dr. Pierce of the "Favorite Prescription" fame presides. In all cases where children are desired and are absent, an effort should be made to find out the real cause, since it is generally so easily removed by proper treatment.

In all the various weaknesses, displacements, prostrations, inflammation and debilitating catarrhs and in all cases of nervousness and debility, Dr. Pierce's Favorite Prescription is the most efficient remedy that can possibly be used. It has to its credit hundreds of thousands of cures—more in fact than any other remedy put up for sale through druggists, especially for women's use.
