There is nothing that conduces to suc cess in floriculture as care in watering This work should be done systematically and the early morning is the best time; examine each plant. The majority of plants thrive best if they are watered daily. Aquatic plants like calla lily and others, during the period of blooming should be kept very moist with water in the saucer under them. Dry plants like sedums do not require watering oftener than once a week. Plants of average habits like geraniums, roses and helio tropes thrive best if watered daily, though the soil should not become damp enough to become sour. A teaspoon o guano dissolved in water applied around the roots once a week will help to ferti-lize roses and some other house plants and induce them to bloom. The mix ture should never be allowed to touch the stem or leaves. The temperature of water used on the window garden should be about the same as the temper ature of the room. Apply water around the roots of the plant; do not wet the leaves oftener than once a month, when collected on them. Callas, India-rubber plants and many others should be thoroughly sponged off to remove the dust. Begonia Rex and a few other plants should never be wet except around the roots.

All are welcome.

Charles Buxton, years ago one of the well known brewers of England, after years of experience and study of the great question, deliberately wrote as follows: "Looking at the manifold and fellow I'll Theodore Thespis: "But, me definitely and the great question, deliberately wrote as follows: "Looking at the manifold and fellow I'll Theodore Thespis: "But, me definitely and the great question, deliberately wrote as follows: "Looking at the manifold and the great question and the great question at the manifold and the great question at the great question at the manifold and the great question at the manifold and the great question at the great they should be removed from the win

6. Destroy the plantation after it has produced its second crop, new ones being planted to succeed those that are abandoned.

A young couple just starting life, with only enough for simple and economical living, received at their wedding several hundred handsome, expensive, and may be them ornamental presents; presents from relatives whom they had never seen, from mere acquaintances, and from people for whom they cared nothing. It took them years, as they said, to live down these presents. Many of them they simply put in a safe deposit vault; but they felt under obligation to each giver of gifts, and when, in turn, these friends and acquaintances were married, the young couple feet in duty bound not only to send them a present, but one that as nearly as possible approached in financial value that given them. It behoves us to call a halt in the piving of engagement presents, and to curb a much as possibly promisenous giving in wedding presents. A wedding is a family rite, and an intimate sharing in it belongs to those alone who are nearest the bongs to those alone who are nearest the bride and groom in blood and in sym. longs to those alone who are nearest the bride and groom in blood and in symThe strongest man in the wo

Good Citizen.

The good citizen does not wear side whiskers.

He keeps his children in the country or in the attic.

His conversation on the cars is not punctuated with the words 'deal' ten thousand dollars.

Dock Blood Purifier. Victory after victory is the record of Dock Blood Parifier, which never fails to do good. Read what Mrs Outhouse says about it:

From MRS HENRY OUTHOUSF, TIV

From MRS HENRY OUTHOUSE, TIVERTON. N. S.

About three years ago I was sick with consumption, which was brought on by a heavy c. ld I employed a doctor who advised me to use emulsions. I did so but they did me no good. I was growing weaker fast—my cough was very badwith night sweats; in fact my parents had given me up as I belong to a consumptive family. Two of my sisters and one brother have already died of that dread disease. As my appetite was very poor, a friend advised me to use Dr Norton's Dock Blood Purifier. I got aix bottles, the use of which soon gave me a craving for food. Soon my cough was better and I began to gain in strength. I used twelve bottles of the medicine and by that time had gained forty-four pounds in flesh with good health. Have had no symptome of any lung trouble since and believe that Dr Norton's Dock Blood Purifier saved my life.
