

HEREDITARY THE CAUSE OF CONSUMPTION

I have followed with interest all thoughts given in ink on consumption, its affect, treatment and cure. All the doctors and chemists unitedly search for the destroyer of life, and with a hope that they may discover a remedy and wall of defence. As yet this disease continues to strike terror to the hearts of the brave, as it drags to earth the dwellers in snow-lands and those living among the scenes of summer and heat. We witness with sadness the lamp of life darken, and in time go out, when it should be burning bright gilded with happiness and hope. Unconquered and unchained the reptile has already wound its coils of death.

But turning to those having the disease, caused by hardships, exposure, poor and unsufficient nourishing food, we can easily see in such cases the cure when the patient is put in comfortable quarters and given good food and rest. But we can look and see many persons with consumption, who always had all that was required in comfort, good food and good air. Can we turn and say to them "All you require is rest, food and air and your recovery is sure?" May we not be allowed to think that those taking part to try and cure the disease are putting too much stress on air and food as a sure cure for tuberculosis.

It would almost appear to one as if good air was a very scarce substance, and is weighed out to each person with a balance like tea and coffee, or measured off to us from the yard stick. Man with his cramped and envious nature is apt to judge things though it be air in a limited way, overlooking the fact that nature does not give her gifts in that way, but spreads them about us without end, and forces very atom of space full and plenty. We rarely discuss the subtle forces interwoven in the great space around us that are doing so much for the life of man as well as for the herbs of the field. Admiring that good food and air with favorable surroundings will help, and in some cases seem to cure, hereditary tuberculosis, but will not the person so cured, if put under another curable disease, take consumption again? Nay; with much more serious results than before. Can we expect good air and food to cure tuberculosis? when it did not do so in childhood and youth, at a time when it played day after day and month after month on the grassy and moss-cushioned hills when every pulsation was life, and every move of the body meant health. Will the same conditions cure the same persons after the disease has started and made headway, and the patient reduced and weak, I do not mean that these persons always had the disease, but I do say that the cause, they always had. The germs do not cause the disease but the disease starts the germs and if it was not for them the patient would live but a few months instead of years. No germs can bind health and its power; no sparrows can stop the morning shower. As I gradually went along the untrodden paths of thought, I have often got lost on the sea of mystery. But I now claim that I know the cause of consumption and the cure. Blindly we turn towards nature's magics and mysteries in life. We do not see the swift flying snakes of the universe because they are hidden from our sight, but we can see the finished goods with the shades of beauty, spread through the distance around us, perfect in workmanship and life.—E.K.

The bird's admirer grows. Constant is their increase. The first official act of Nebraska's new labor commissioner was a formal appreciation of this pillar of society. According to Mr. Maupin this fowl brought \$3,000,000 worth of eggs to market in Nebraska last year. The commissioner is unprepared to estimate the value of her offspring in the way of fried chicken. She laid 1,200,000,000 eggs in 1908. Placed end to end these eggs would reach around the earth and overlap 12,000 miles.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made, a perfected, dependable prescription. With this last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, I can form a cure for all cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

RHEUMATISM RECEIPE

Directions To Prepare Simple. Yet Remarkable Home Mixture.

A well-known authority on Rheumatism gives the following valuable, though simple and harmless, prescription, which any one can easily prepare at home:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

Mix by shaking well in a bottle, and take a spoonful after each meal and at bedtime.

He states that the ingredients can be obtained from any good prescription pharmacy at small cost, and that the use of vegetable extraction, are harmless to take.

This pleasant mixture, if taken regularly for a few days, is said to overcome almost any case of Rheumatism. The pain and swelling, if any, diminishes with each dose, until permanent results are obtained, and without injuring the stomach. While there are many so-called Rheumatism remedies, patent medicines, etc., some of which do give relief, few really give permanent results, and the above will, no doubt, be greatly appreciated by many sufferers here at this time.

Inquiry at the drug stores of this neighborhood elicits the information that these drugs are harmless and can be bought separately, or the druggists here will mix the prescription for our readers if asked to.

MARCH HOME JOURNAL

The HOME JOURNAL for March contains a most startling article on the "White Slave Traffic," by Hon. E.T. Sims of Chicago, in which the inner working of this nefarious trade in young girls is laid bare. "Western Women and the Dope" is the subject of a most interesting discussion by Lillian K. Beynon of Winnipeg, and this with a quaint description of the life of a Prairie Settler by an Englishman, gives an insight into conditions in the Great West. The March number is of course Irish in tone and contains in addition to two of Thomas Moore's Irish Melodies, an historical reference to St. Patrick, Ireland's patron saint. There is the usual amount of story matter with interesting departments on Fashions, Fancy Work, Sick Room, Women's Institutes, Household, etc. For the boys some interesting coin tricks are explained. An increase in size and an advance in subscription price is announced for June 1st, but in the meantime subscriptions are being taken at the old rate of fifty cents. The HOME JOURNAL has developed wonderfully and is a credit to Canadian journalism.

Nothing in the way of a cough is quite so annoying as a tickling, teasing, wheezing, bronchial cough. The quickest relief comes perhaps from a prescription known to Druggists everywhere as Dr. Shoop's Cough Remedy. And besides, it is so thoroughly harmless that mothers give it with perfect safety even to the youngest babies. The tender leaves of a simple mountain shrub, give to Dr. Shoop's Cough Remedy its remarkable curative effect. A few days' test will tell. Sold by all dealers.

The Connecticut farmer who with eggs at 43 cents a dozen, killed 100 hens to recover a \$150 diamond is likely to drive out of the books the fellow who killed the goose that laid the golden eggs.

A failing tiny nerve—no larger than the finest silver thread—takes from the heart its impulse, its power, its regularity. The stomach also has its hidden or inside nerve. It was Dr. Shoop who first told us it was wrong to drug a weak or a failing stomach, heart or kidneys. His prescription—Dr. Shoop's Restorative—is directed straight for the cause of these ailments—these weak and faltering inside nerves. This, no doubt, clearly explains why the Restorative has of late grown so rapidly in popularity. Druggists say that those who test the Restorative even for a few days soon become fully convinced of its wonderful merit. Anyway, don't drug the organ. Treating the cause of sickness is the only sensible and successful way. Sold by all dealers.

WHERE OLD AGE IS REWARDED

That longevity is deserving of reward in China is proved by the following curious imperial edict from Peking: "The sons of those people who are over seventy years of age are to be exempted from the service of the government; the brevet button of the ninth rank is to be given to those who are over eighty years of age; the brevet button of the eighth rank is to be given to those who are over ninety years of age; the brevet button of the seventh rank is to be given to those who are over one hundred years of age; the brevet button of the sixth rank is to be given to those who are over one hundred and twenty years of age, and monuments are also to be erected for those who are one hundred years of age and over."

STOMACH DISTRESS.

And all Misery from Indigestion Vanishes Five Minutes Later.

Every family here ought to keep some Diapiesin in the house, as any one of you may have an attack of Indigestion or Stomach trouble at any time, day or night.

This harmless preparation will digest anything you eat and overcome a sour stomach five minutes afterwards. If your meals don't tempt you, or what little you do eat seems to fill you, or lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Ask your Pharmacist for a 50-cent case of Pape's Diapiesin and take one triangle after supper tonight. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or Intestinal griping. This will all go, and besides there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapiesin is a certain cure for all stomach misery, because it will take hold of your food and digest it just the same as if your stomach wasn't there.

Actual, prompt relief for all your stomach misery is at your Pharmacist, waiting for you.

These large 50-cent cases contain more than sufficient to cure a case of Dyspepsia or Indigestion.

In San Francisco and Pittsburg they are still sending municipal granter to jail. Like other habits, once acquired, it is hard to break.

Have you a pain—of any kind, anywhere? Stop just a minute and think! It matters not whether it be wondrously pains, head pains, or any kind of a pain, one of Dr. Shoop's little Pink Pain Tablets will surely stop it in 20 minutes. Formula plainly printed on the 25c box. Sold by all dealers.

It is said that the ocean cables are used by less than one per cent of the world's population.

Group positively stopped in 20 minutes, with Dr. Shoop's Group Remedy. One test alone will surely prove this truth. No vomiting, no distress. A safe and pleasing syrup—50c. Sold by all dealers.

Minard's Liniment Cures Burns, etc.

WOULD ANNEX BRANCH LINES

Emmerson Makes Strong Plea For Their Absorption by the Intercolonial.

Ottawa, March 9.—The Intercolonial railway was yesterday discussed by the House of Commons on the basis of expansion, under government ownership.

The discussion arose on a motion by Hon. H. R. Emmerson favoring the government acquiring the branch railways of the maritime provinces which are tributary to the Intercolonial. The debate was a long one.

Hon. Mr. Emmerson asked the house to concur in the following resolution:

"That in the opinion of this house it is desirable in furtherance of the transportation interests of this dominion that the sphere of influence of the Intercolonial Railway, as a government-operated railway, should be widened and extended by securing by lease or otherwise such of the branch lines of railway now connecting with the Intercolonial as will serve as direct and profitable feeders to the traffic of said railway."

Hon. Mr. Emmerson made a comprehensive speech, in which the whole proposition was elaborately reviewed and facts and figures given in support of his contention. He was attentively listened to by a large number of members on both sides of the chamber, and he was frequently applauded.

Mr. Emmerson was followed by a number of speakers, all members from New Brunswick or Nova Scotia. Not a dissenting voice was raised against the resolution, and not a member spoke from the Conservative side of the chamber.

Mr. Emmerson called upon the government for an announcement of policy in regard to the Intercolonial branch lines. However, Mr. Graham, who adjourned the debate, stated that he would reserve his statement until he moved the house into supply on the Intercolonial estimates. It is understood that he will then have something interesting to say. As Mr. Graham is the minister who speaks officially for the government on all railroad matters, there was no speech from any member of the cabinet on the resolution.

FREDERICTON'S RACE PROGRAMME

Racing Season will Have Grand Opening on June 30.

The Fredericton horse races, this year, will open on Wednesday, June 30 and close on July 2nd, giving horsemen chance to attend the fourth of July races in Maine.

The complete programme follows:

Free-for-All Stake—Trot and pace—Purse \$100.
2.17 Class—Trot and pace—Purse \$200.
2.25 Stake—Trot—Purse \$100.

NELSON.

A large quantity of wood has been loaded at cars at Sutton Road Crossing this season. The greater portion of this was firewood for the Chatham market.

The pulpwood was shipped to N. B. Pulp & Paper Co. at Millerton. A siding is needed at Ivory's crossing. The people living in the upper part of the Nowlan Settlement, when they wish to ship wood by rail, have to haul to Sutton Crossing. In many cases this adds a mile or more to the hauling. There is assurance that this will be remedied before the next season.

Mr. and Mrs. M. Donagher and family have removed to Chatham.

A number of people have been prostrated with a gripe during the past month. It is pleasant to be enabled to state that they are now recovering.

Mr. M. Woods, who has been logging on Barnaby river this winter, has returned home.

Mr. B. Reynolds and son Frank have secured the privilege of cutting ice on the mill pond and are now busily engaged at that work.

REDEBANK.

Not seeing any notes I thought I would send you a few.

Miss Frankie Sutherland and Miss Minnie were visiting Mrs. Melvin Sutherland last week.

Mr. George Hubbard got hurt very bad while breaking a road with a merry widow snow plough from Otto Jozer's landing to Payne's corner.

Mr. Dannie Easty has returned from the woods, looking fine.

Miss Abbey Matchett was visiting in Hallowell last week.

Mr. S. Russell passed through here on March 3rd taking orders for the Wig Co. in Lytleton.

Mr. Dave Blackmore is doing good work portashing for the Americans.

It is being demonstrated that the actual cost of making and distributing gas in New York city is above 45 cents a thousand feet so that there is no danger of the Consolidated Gas Company going into bankruptcy in being compelled to sell it at 50 cents.

The Bishop who said that people who would not fast willingly during Lent sooner or later will be compelled to fast whether they will or no, was not only uttering any theological threat but only reminding the people that their stomachs needed a rest.

HOW'S THIS:

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.
We the undersigned have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

WALDO, KENNAN & MARLEY,
Wholesale Druggists Toledo, O.
Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

On the day of Lucky Baldwin's funeral the races of Los Angeles were suspended. The bookmakers from whom he won his twenty-five millions wanted to show the genuineness of their mourning.

Fortify now against the Grip—for it comes every season sure! Preventives—the little Candy Cold Cure Tablets—offer in this respect a most certain and dependable safeguard. Preventives, at the "snore" stage will, as well, also surely head off all common colds. But promptness is all-important. Keep Preventives in the pocket or purse, for instant use. Box of 48 for 25c. Sold by all dealers.

Beaver Flour

Both an Ontario wheat flour and a Manitoba wheat flour

Both a "Bread" flour and a "Pastry" flour

As good for one as for the other.
Best for both.

At Your Grocer's

Hewson Tweeds

PURE WOOL

To procure permanency of color for Hewson pure wool Tweeds we have found it necessary to buy the most expensive dyes. Not only that, but the materials must be dyed by a special process, which is more costly, but which produces rich colors that are absolutely fast.

Hewson Tweeds will not fade—not even under the searching rays of the strong summer sun.

Yes, sir! it pays to buy Tweeds trade-marked with the Hewson oval.

HEWSON WOOLEN MILLS.
AMHERST, N.S.

Also makers of Hewson Unshrinkable Underwear.

"Father Morrissey's No. 10"

Cures Coughs, Colds and Lung Troubles.

Father Morrissey's remedies have been known for years throughout the Maritime Provinces, and thousands testify to the remarkable cures they have wrought.

The very same remedies, with all their healing virtues, are now being prepared from the late priest's prescriptions.

The "Lung Tonic," commonly known as "Father Morrissey's No. 10," is one of the best remedies ever put up for Coughs, Colds, Bronchitis and lung troubles of all kinds. It removes the mucus, quickly drives away the inflammation and congestion and heals the membranes, leaving them stronger than before and better able to resist disease.

"No. 10" is absolutely free from Opium, Morphine or any harmful drug, and is perfectly safe even for babies.

Trial size 25c. per bottle. Regular size 50c.

At your dealer's.
