allowed on time deposits being only 3 per cert, while discount rates range from 5.12 to 7 per cert, the profits must necessarily be large . Of the tail am-ount of money on deposit in Canadian banks, which is unusually large, from 25 to 30 per cent, of it does not beer Any interest whatever. The profits on such deposits are therefore 3 per cent, in ex-cess of the profits on time or exving-account deposits. The large bank re-serves must also be reckoned with. Many of the old banks have 'rest' fund-and a profit of, say, 10 per cent, on this combined amount is equivalent to a qual to the amount of paid-up capital, in some cuses th "rest" is even more this dombined amount is equivalent to a qual to the amount of paid-up capital, in which ease a profit of 10 per cent, on the capital resources of such a bank means that paid-up capital of the bank. There is the note circulation, which practically cocks the bank nothing, not to say anything of the collections, ex-charter are so valuable. COBALT MINING STOCKS 10K0/410 EACHARGE. uual Bible study banquet.

of the Hamilton Scientific Association was fair last night. Mr. H. B. Witton, sen., acted as chairman, and Mr. J. Miller, of Jordan, was received as a memservice.

The feature of the evening was a lec-ture about Australia. After outlining the geographical position, Mr. Lee toin of the dimensions, physical features, etc. One disadvantage is the lack of inicis,

the geographical position, Mr. Lee to a of the dimensions, physical leadures, etc. One madvantage is the lack of minus, which he characterized as arteries of communication. The population, tog-ther with that of Tasmana, exclusive of the aborgines, is 3,712,000. The country is a large plateau, the east coast being rocky and the interior largely composed of arid land. He outlined the various positions of the rivers and said they were subject to great irregularities of volume, many of them disappearing in the sandy wastes. The elimate is hot and dry, out is heading, while the inter-ior is subject to drought, but snow storms in June, July and August are frequent. In dealing with the products Mr. Lee said Australia had produced 81,350,000,000 of gold, and, although the quantity of this product is decreasing, the great trade in wool is increasing. The trees and bushes have but scanty foliage, and famous among them is the euclyptus. All of the twenty four species of palm, with the aximal life, he said bries, cattle and sheep had been in-troduced from Great Britain. There are many replies, the largest being the ali-many are venomous. The natives are of the Australian

many are venomous. The natives are of the Australian negro stock, and are conceded to be about the lowest grade of people in the world, and number about 31,000, excluput on entirely by the boys. One of the most pleasing numbers on the pro-gramme was the dumb bell drill, con-ducted by Mr. Ed Stirling, the newsboys' physical director. The two basketball games were well contested. The first re-sulted in a victory for the Shamrocks over the Quicksteps. The second game was won by the Actives over the Cres-cents. Mr. J. Dearness acted as referee. The silver cups presented to the boys for competition will be presented at the an-unal Bible study banquet. sive of those in the unexplored regions but are rapidly dying out. The women are regarded as slaves and are fright fully treated. Mr. Lee then gave a de-scriptive outline of Australia from the action of its discovery to the present day, England gaining possession in 1660, when Cook took charge. Australia is thriving, as there are at present 35,000 miles of railway and 35,000 miles of telegraph. Large quantities of wool are shipped to Great Britain every year. Australia was for a time considered good for noth-ing except as a convict colony, about 70,000 having been shipped there and about the same number to the adjacent island of Tasmania. The debt of the country is large, being \$500,000,000. This he contrasted with Canada's debt of \$200,000,000. Mr. Lee also said the con-ditions were very favorable to the work-ingman, as everything, with the except time of its discovery to the pre to the present day, ession in 1660, when ngman, as everything, with the exception of clothing, is cheap.

(Continued from Page. 9.)

thing points to a succession induct. With the accession of two yourg sopra-no singers, Miss Ethel Lawrey and Miss Ethel Jerome, who will alternate in the solo work, together with Miss Bertha Carey, of whose excellent work there needs be little said, and Mr. Charles Williams, occupying the baritone posi-tion, some commendable singing may be exnected. There was a large crowd pres former. There was a large crowd pres-ent, and the excitement ran high all through the race. Weir went to the front on the first turn, and gradually Open. High. Low. Close. ...103.6 104.1 23.5 103.6 71.7 drew away from his opponent, winning by half a lap. The time announced was 2.50, which is remarkably fast, consider 167.5 tion, some commendable singing may be expected. Mr. Summers, who is the tenor solo-ist and choirmaster, is enthusiastic. Pictures of the quintette appear else-where in this issue. A. C. McMillan, the ing Weir's condition. The officials were Judges, for Weir, D. Hamburg; Duffy, Willie McMichael; timer, Condon: clerk of the course, L. McMaster.

 Toronto, March 6.—A good crowd wit
 We are rural folk out in Missouri. Of the State's population—outside the three great cities pushed to the State's very boundary lines—less than 8 per cent. are dwellers in towns of 4,000 inhabi-tants. We are inclined to speak an archaic language. Missourians say school "takes up" — some once said school "takes up" — to couldn't get to go" and "that's all the far the lesson goes" I have heard in Missouri. The good Missouri housewife whose hot biscuits—hot biscuits are de-lightfully Missourian—were praised re-

WILL MELT IM AFAIL. Warden Gage announced this morning that a special meeting of the County Council would not be called before the middle of April, when the appropria-tions for the different roads of the township will different roads of the

townships will come up for discussion. There is some likelihood that the grand jury's presentment concerning the ques-tion of the House of Refuge will occupy the attention of the councillors.

Assize COURT. At the Assizes yesterday afternoon Justice Latchford gave judgment in the action of Reid vs. Robertson Manufac-turing Company. William Reid sued the defendant for wages and for wrong-ful dismissal. After hearing the evi-dence his lordship decided that the plaintiff was entitled to a reasonable sum for his services as secretary of the company, at the rate of \$100 a month. His Lordship would not consider the damages for wrongful dismissal. The court stands adjourned until Mon-day morning.

Take the series of the series of the series of the series of "carry," as "let me pack that for you." "Carry" is used in Tennessee for "escort" or "conduct," while "tote" is wholly Virginian. But even "pack" and "carry" are of clas-sic parentage. I have heard in Missouri and in other States an expression that may be dialect or slang, but which to me at least. al-ways suggests a smile. Speaking of vis-iting delegates, a good woman said: "I can eat 'em but I can't sleep 'em." Missourians worthy of the name pro-mounce the name of their State without the hissing sound of the "S." They re-member that the name Missouri comes by way of the Latins from the language of the Indians and not by way of the school teacher's dictionary notwithstand-ing. And the English language is no-where spoken with more purity than in this good State of Missouri. As or the Missouri dialect-there is none. But, you say, there is one expression that is peculiarly Missourian, colloquial, provincial, of you please. You Missour-ians say "you all." Yee, true. All we Missourians say "you all." But so do all who get their English from the sconteenth century direct and un-corrupted-not Missourians alone. In an apositic benediction which you any hear each Sabbath, if you will, or read in the King James version of the Eng-lish Bible, it is said: "The grace of our Lord Jeeus Christ be with you all." Water Williams in the Kansas City Star. **MEADUWS WILL FIGHT.** Biffield, March 7.—The verdet of guilty maines Hergel G. Mesdows in criminal term pretorday by no means marks the end of this famious case. A new trial will be ask-ed for next Therday. If this nade other mo-tions are denied, as they probably will be, an appear will be taken and the case found to a finish in the higher courts. So confid-on is been will be taken and the case found to a speak will be taken and the case found to a single will be taken and the case found to a single will be taken and the case found to a single will be taken and the the regarded is as anothing more than one of the disegree-able incidents through which he must pass before be can be finally freed from the charge of stealing William E. ... Radium and Plant Life. It has been discovered that radium rays act as a sciently to the growth of plants. Up to a certain point, exposure to the ray results in considerably in-ereased growth or germinating seeds, but if the strength or duration of the treatment is increased beyond this point there ensues a falling off, ending in complete stoppage of growth. Possibly. "Uncle Brune, why is it that your peo-le increase so much faster that the ple increase so much faster that the white people do?" "Deed I durno, boss, onless it's 'caus
