## REQUIEM MASS.

Quebec, Sept. 23.—The Basilica was a scene of impressive and imposing ceremony this morning, when a solemn requiem mass was chanted for the repose of the souls of deceased bishops. All the prelates attending the Plenary Council and a large number of priests, walked in procession from the Archbishop's palace to the Basilica, the bishops wearing black robes and white mitres. Monsignor Roy, Coadjutor Bishop of Quebec, led the procession, Monsignor Sharretti, papal delegate, coming last. The thoroughfare through which the procession passed was lined with spectators, and the scene was an imposing one.

No session of the Plenary Council was held this morning, but this afternoon a general congregation of all the members of the council was held in Laval University.

#### **NEW AEROPLANES.**

One Built by Chinese; Another by Swiss Aviator.

San Francisco, Sept. 23.—Fung Joe Guey, a Chinese, working in a hidden retreat on the Piedmont Hills, three miles from Oakland, has constructed an aeroplane in which he has made two successful flights over a distance of several miles. Guey will go to China within the next few weeks and take his invention. While working on the aeroplane, Guey errected a wireless telegraph apparatus on the hill.

Lucerne, Switzerland, Sept. 23.—A new aviator, Dane Hurlburt, made several successful flights. His machine is different from existing aeroplanes, in so much as it travels lengthwise through the air and has two propellers, one in front and another behind. San Francisco, Sept. 23.-Fung Joe

ports to-day of death and destruction from Monday's hurricane in Louisiana and Mississippi show further loss of life and property. The list of dead is now over one hundred. With little hope that a number of others reported missing will escape. The total dead may reach 150. News of fifteen additional deaths along the water ways between Morgan City, La., and the guilf, and on the adjacent counties have been received. Nearly all of these were fishermen caught in small craft in the storm. Stories brough here by persons arriving from the stricken districts reveal many pathetic and unusual occurrences. A four-years-old child was found tied on the branches of a tree on the lower coast of Terrebonne parish, having survived for three days without food or water.

One of the striking incidents of the relief work along the coast was the rescue of a family in a small boat in which a baby had been born an hour before the relief steamer arrived. and Mississippi show further loss of life

## HUBBARD NOT SAYING MUCH,

#### But He Examined the Peary Records This Morning.

Bar Harbor, Me., Sept. 24.-Examination was made to day by Gen. Thomas
H. Hubbard, president of the Peary Arc.

But Duxbury Gathering Is Still completely gutted by fire at an early hour this morning. The fire is supposed Club, of the data and observations of Commander Robert E. Peary's dash to the pole, and of the information which Commander Peary has obtained on the question: "Has Cook been at the pole?" The examination of these records is preliminary to a conference here either on Monday or Tuesday, when Commander Peary will probably submit further records and supply any needful information not contained in the rough

draft of his preliminary reports. Pending consideration to-day of the Peary records, Gen. Hubbard Peary records, Gen. Hubbard had no statement to make. He feels that it is understodo that Com. Peary should proceed with the development of his own scientific data and its submission to the necessary scientific bodies to prove his finding of the pole without regard to any question of whether Dr. Cook has been to the pole or not. This course will in all likelihood be followed by Commander Peary.

An early meeting of the Peary Arctic Club in New York will be called by Gen. Hubbard, who said to-day that he understood that Zenas Cram, vice-president of the club; Secretary H. L. Bridgman and A. D. Raven were now in New York. General Hubbard said the officers of the club would consider every phase of the controversy.

PEARY SAID NOTHING

PEARY SAID NOTHING.

New York, Sept. 24.—The enthusiasm which greeted Dr. Frederick A. Cook at the Arctic Club's dinner last night in the Waldorf-Astoria is admitted even by his opponents in the North Pole controversy to have been a great personal tribute. Some disappointment is shown, however, because the explorer a afterdinner speech added no new evidence to ...e dispute. Little evidence of this kind, cither, is expected from the popular lectures which the explorer is scheduled to deliver here and later in various cities.

Dr. Cook's suite in the hotel is besigned by crowds and he is a marked figure

when he takes his daily ride, usually in an auto in the parks.

The explorer is gradualle mapping out a programme. In addition to fulfilling the demands of his heavy correspondence he is busy in the preparation of his lec-tures. The first will be delivered here Monday night.

# FALSE ALARM,

West Duxbury, Mass., Sept. 24 .-Quieted by the conviction that to-day would bring the end of the world, the 300 and more members of the Latter Reign of the Apostolic Church, or Triune Immersionists, assembled about their place of worship early in the forenoon to await the destruction and purifica-tion of the world by fire, in fulfilment of their own prophers

of their own prophesy.

As the appointed time drew of their own prophesy.

As the appointed time drew near the believers filled the chapel, and devoted their energies to singing of hymns.

Shortly before 10 o'clock the skies darkened, and those who has been watching for a sign appeared convinced that the millennium was at hand. Ten o'clock came, but the sky brightened, rnd the millineum, in the opinion of the believers, had been deferred for a brief serviced.

## BURNED OUT.

#### Fine Temperance Hotel at Hepworth Destroyed by Fire.

Hepworth, Ont., Sept. 24.-The Royal Hotel, an up-to-date temperance house, owned and managed by J. J. Downs, was to have originated in a frame cook-house which adjoins the main building, in the rear. Some of the guests partly dressed in their rooms, while others took no chances, but got out in their nightrobes, and dressed afterwards. Although regretting the loss of some things, and in some cases nearly everything, they feel grateful that they are alive to-day. R. Morrison, traveller for W. B. Sherling & Company, Winnipeg, lost his clothes, samples and two hundred dollars in cash, and got out by dropping from a side window, as all means of escape were then cut off. F. S. Clarke, another traveller, crawled through his bedroom window to a balcony and then dropped. Two daughters of Mr. Downs were not missed until nearly every person was out. have originated in a daughters of Mr. Downs were not missed until nearly every person was out.
Their brother made a dash for their
rooms and found them overcome by the
smoke and dragged them out. The loss
will be about \$2.000, which will render
Mr. Downs penniless, as the insurance is
trifling. The hotel was an ideal temperance one, and was liberally patronized
by travellers.

### HEAVY LOSS BY FIRE.

Montreal, Que., Sept. 24.—The total loss by the fire in the Witness office last evening will reach about \$150,000, which is fully covered by insurance, is the office of Willis Faber & Co. Several tenants of adjoining stores suffered damages which are covered by insurance. Almonte, Out., Sept. 24.—Mr. John Donaldson's sash and door factory was completely destroyed by fire last night. Mr. Donaldson states it was valued at \$5.000, and the building at \$15,000. Insurance about \$2,000.
