WALKS IN SLEEP.

Thomas Doyle, of Perth, Aged 82, Foots It to Lanark in Bare Feet.

Kingston, Oct. 9.—Thomas Doyle, aged 82, got up at midnight at Perth and walked to Lanark, 12 miles away, in a

somnambulistic state.

Rain drizzled all the way, and Mr.
Doyle had on only his trousers, night shirt, toque and light cashmere socks. All these he wore in bed. He did not have glasses or cane, which he uses in daytime. The road was stony, and he was footsore on reaching Lanark.

In view of his age, weather and roads, his feat stands out as remarkable for a somnambulist.

COULD CURE HER ECZEMA.

To view of the numerous cures which Zam-Buk has worked when all else has failed, there is little wonder that in the end the doctor attending Mrs. J. P. St. Denis, of 305, Thompson street, Winnipeg, should tell her there was nothing but Zam-Buk could cure her. The result showed the far-seeing wisdom of this practitioner, and having been completely cured by Zam-Buk, Mrs. St. Denis gives her experience for the benefit of

showed the far-seeing wisdom of this practitioner, and having been completely cured by Zam-Buk, Mrs. St. Denis gives her experience for the benefit of other sufferers.

She says: "Exeems started on one side of my face and nose. At first my nose felt sore, similar to what one feels when having a bad cold. I paid no attention to this, thinking it would pass away in a day or so, but to my surprise it got worse. The nose then became swollen and hard, and turned a purplish red, as well as part of the cheek on that side of my face.

"As the disease developed pimples and ulcers broke out, then the skin cracked in places and peeled off in flakes, leaving my face and nose ray and sore. This condition reacted on my general health and I became very ill. I could get no sleep at night because of the irritation and the pain, and my face was in such a shocking condition that for two months I did not go out of the house. I applied remedies which were supposed to be good for skin diseases, but in vain. "My doctor also treated me, but without effect, until one day he said that the only thing which would now be likely to cure me was Zam-Buk.

"Acting on his advice, I procured a supply and found that even the first few applications had a soothing effect on the sores. I left off everything else in favor of this balm and applied it liberally every day to affected parts. In a remarkaby short time, considering the obstinate nature of my disease, we saw traces of improvement, which encouraged us to persevere with the Zam-Buk treatment. Zam-Buk reduced the discoloration, then the hard swelling began to show traces of leaving, the sore seemed less angry and in about three weeks' time most of the sores were healing nicely. To cut a long story short, I continued with the Zam-Buk reatment until my face was cleared completely of all traces of the troublesome and painful eczema."
