

THE HAMILTON TIMES

FRIDAY, DEC. 31, 1909.

HAPPY NEW YEAR!

The next number of the Times will bear the date of a new year, and 1909 will have been relegated to the unreturning Past. With its joys and sorrows, its successes and failures, the dying year is behind us and 1910 beckons us onward to new endeavors, let us hope, wiser by another year's experience and observation, more appreciative of our opportunities and blessings, and more determined to thankfully utilize them for good for time and for eternity. For measured by hours, days or years or centuries, Time is but that part of eternity to which to apply our human measurements. The Past and the Future are alike beyond us; the Now is the all-important moment to each of us. And it speeds by, its passage being apparently accelerated by the years. "Hours are," as the poet says, "long on the clock of fate," but what of their length, if useless to us?

The year, just closed has been a very full one. It has brought its complement of weal and woe to the nations, the peoples and the families of the world. A bountiful Providence has been kind to this fair land. We have been blessed with plenty; peace and progress have been our lot. As a nation we have basked in the sun of prosperity. War, pestilence and great disasters have passed us by. We have enjoyed what is truly a goodly heritage.

And how does our consciences acquit us as we measure up our opportunities and efforts of the year? Achievements we have to our credit, of course; but have we on all occasions striven to make the most of our privileges? And that is the real test of faithful discharge of duty—Effort, not Accomplishment. True Success is to be desired; but what concerns each of us individually is: Have we done our best to win it? If we have, we need not feel crushed by failure; we can leave that to Him whose judgment does not err, confident of the issue.

"Did you tackle the trouble that came your way
With a resolute heart and cheerful,
Or hide your face from the light of day,
With a craven soul and fearful?"

You are beaten to earth? Well, well, what's that?
Come up with a smiling face.
It's nothing against you to fall down flat,
But to lie there—that's disgrace."

As we stand thus at the threshold of the new year let us each search our hearts to discover wherein we have fallen short of our debt to duty in the year that is past, and, profiting by experience, strive to make greater successes of our lives in 1910. This is not to be done by the magic of any swearing off process, or any vows to devote ourselves to great causes. Duty lies ever within our reach. Opportunity ever invites. At work or at play the Do-Better spirit may show its words and actions. Let us strive upward; let us grow purer, larger-hearted; let us dwell on a higher plane, in a better atmosphere. Thus shall each year be an improvement on the last. As Holmes says in his "Chambered Nautilus":

"Build thee more stately mansions, O my soul,
As the swift seasons roll!
Leave thy low-vaulted past!
Let each new temple, nobler than the last,
Shut thee from heaven with a dome most vast,
Till thou at length art free,
Leaving thine outgrown shell by life's unresting sea!"

If we enter upon the new year with that spirit and put it into our daily life throughout the next twelve months, we shall not have any reason to doubt that the influence we exercise will be for good. Each will then carry a little torch good. Each will then carry a little torch each will add his fellows to make 1910 a truly

HAPPY NEW YEAR.

MONDAY'S DUTY.

If you are a qualified voter, go to the polls on Monday and exercise your franchise.

You owe this duty to your fellow citizens and to your own interests. A beneficial change took place in the city last year, when the vice of party politics was, to a large extent, eliminated from municipal affairs. The majority of the Council of last year sought to conduct civic affairs on business principles, and the result is found in a wonderfully improved condition of municipal finances at the end of the year. The era of great deficits, reckless squandering of money, and utter disregard of obtaining good value therefor ended with the close of Mayor Stewart's regime. Mayor McLaren's colleagues can afford to challenge investigation and comparison in any branch of the city's service.

The men who stood by the Mayor in bringing about this reform deserve well of the ratepayers of the city. The squanderers, political wire-pullers, place-seekers and grafters—in short, all who seek to prey upon the public—were sure to be found making war upon Mayor McLaren and his Council, and trying to bring about a reversion to former methods. Let the ratepayers not be deceived by their appeals, but let them stand firmly by those members of the Council who looked carefully after their interests. Let them send more such men to the Council.

Let every ratepayer note that he is entitled to vote only once for control; and he may vote for four candidates or any smaller number. He must not, however, vote for more than four candidates, or he will spoil his ballot.

He may vote for aldermen in each ward in which he can qualify. He is en-

titled to vote for three aldermen, but may vote for two or one, as he chooses.

Only property holders are entitled to vote on the money by-laws.

When you go to the polls, go with your mind made up as to whom you will support. See that your ballot has no mark upon it when you get it, and be careful that you put none on, save the crosses opposite the names of the men for whom you wish to vote.

You will exercise on Monday the right of the elector to choose managers for the city business. See that you select such men as you would be willing to place in charge of your own private business. If you do so, there will be no danger of the city falling back into the wretched financial slough of the Stewart times or being bound in the meshes of the net in which he and the Hydro-Electric conspirators are seeking to entrap her.

Begin the year right by voting right.

WORTH CONSIDERING.

One of the by-laws upon which the ratepayers will be asked to pronounce on Monday is that which reduces the number of aldermen to two instead of three in each ward in the city. As it stands at present, this would give us a Council of 14 aldermen, 4 controllers and the Mayor, 19 in all. It is proposed, however, to divide Ward 7 into two, which would give us a Council of 21, as we have at present.

But the change in point of fact is very important. The reduction in the number of aldermen concentrates power in the Board of Control to a very great extent. With a large class of subjects a recommendation by the Board cannot be rejected by the Council unless by a two-thirds vote. With a Council of 21 every decision of the Board of Control would become of effect, unless 14 members of the Council could be got to oppose it. It is plain, then, that if the Mayor and controllers could count on three aldermen to support them, they might snap their fingers at the Council. Seven or eight men might rule and overrule the other 13 or 14. With three aldermen from each of eight wards, the controllers would have to get the support of five aldermen in order to overrule the Council.

Ratepayers will have to consider well this question, and decide whether they wish to place such power in the hands of the controllers. The fewer the number of aldermen, the more absolute the powers of the Board of Control. It is a question which requires the consideration of the people before they vote on Monday.

CONSUMMATE AUDACITY.

The Hamilton Herald, which during the year did so much to libel and defame this city and to forward the conspiracy of a group of faddists and self-seekers, who worked to its injury, has the cheek to editorially attack the Council of 1909 on the ground that Hamilton during its regime got few new industries. This "dirty bird" says:

"We say it subject to correction, but we believe it to be true, that less has been done this year in the way of industrial expansion than has been done in any previous year for a decade. Indeed, there could not have been much less done than was done this year."

How like the cry of the crafty criminal who shouts "Stop Thief!" in order to divert attention from his guilty self! How like the detestable incendiary, who laments the destruction of the property which his torch has given to the flames! The honest people of the city will appreciate the situation, when they reflect that throughout the year the Stewart-Herald clique has devoted itself to misrepresenting the city and spreading far and wide the falsehood that it was under a tyrannous power, monopoly. It has done its worst to make the world believe that our industries were being strangled by the "electric octopus," and it has shrieked for "cheap power," although all the time it knew that it was living and acting as a lie, and that the power it cried for was not "cheap," but dearer than that already at hand. And now the shameless organ seeks to blame the Council of 1909 because its wicked anti-Hamilton campaign had its effect, and we did not get many industries! Talk about "Gall!"

EDITORIAL NOTES.

Have our Liberal friends noticed how the Herald tries to knock all the Liberal candidates in the field?

The people will vote to secure good government for the city, not to forward Stewart's schemes and put money in the Herald's pocket.

Mark no ballot for any candidate on the Herald's slate of conspirators unless the candidate has personally repudiated the gang that uses his name.

Some of the mountain people who remember how the Hydro aldermen tried to prevent them from getting water works service last summer will get even as they mark their ballots.

"Ratepayer."—You are right. The Herald's statement that the Hydro scheme saved the city \$30,000 a year or 30 cents a year—is an unqualified falsehood. In fact it has cost, and will cost, the people of this city a great loss.

The Australian anti-strike law is being put into effect. Fourteen members of the Miners' Federation have been sentenced to fines of \$500 each, or two months' imprisonment, for inciting coal miners to strike. The law applies equally to employers and employees.

It will be wise to vote for the good roads by-law, if the ratepayers elect a Council that will use the money as

wisely as it was used last year. But don't entrust it to any of the grafters who hang on to the skirts of the Hydro-Electric clique!

The Public school inspectors to be retained under the recent Ontario Act are asking for pensions or retiring allowances from the Government. About fifty of a deputation waited on Hon. Dr. Pyne yesterday in connection with the matter.

The unspeakable organ of the Hydro-Electric faddists, place-seekers and grafters prattles away about "competition" and providing against "monopoly," and all the time it is using every endeavor to assist the enemies of Hamilton to bind the city for thirty years in an irremediable electric monopoly, in which we shall have nothing to say but what whatever is demanded!

About forty of the Hydro crowd held a "mass meeting" (?) in Woods' Hall, Barton street east, last night, and listened to the candidates on the Herald slate. The meeting was as inspiring as a douche of ice water. It was an indication of the "seething hostility" of the people to last year's councillors, and an omen of what the ratepayers will do to the candidates of the faddists and grafters men on Monday next.

Rev. Mr. Van Wyck has decided to accept the call from St. Andrew's Church, Chatham, and the managers of Westminster Church, while regretting his departure and expressing their sense of the loss they will sustain, will not stand in his way. Rev. Mr. Van Wyck enters a large and promising field. St. Andrew's Church, Chatham, has had no change of pastors in a generation. Rev. Dr. Battisby having ministered to a congregation, the majority of which were born during his pastorate. The Times joins with a multitude of Hamilton friends who will wish Mr. Van Wyck success in his new field.

According to the judgment rendered yesterday, dissolving the injunction obtained by Mrs. Felker against the Hydro-Electric contractors, the Ontario Government and the Commission acting under it can take away the property and rights of any person without his permission and without compensation, and he has no recourse, Whitney having closed the courts against appeals for justice in such cases. Mr. Justice Riddell's view that the Hydro-Electric Power Act exempted the Ontario Government from the biblical command: "Thou shalt not steal," is thus supported by the court.

What is to be said of a scheme which requires such Russian legislation for its carrying out?

The city has made a contract with the commission for 1,000 horse-power for civic purposes at a price not to be higher than \$17.92 a horse-power, so that it is saving in its power bill at least \$16,080 a horse-power per annum.—Hamilton Herald.

That is a lie so arrant as to make the late lamented Ananias turn in his grave. The \$17.92 a horse-power is merely an estimate or guess at the price that the power will be; and the Commission refuses to guarantee any price. We must pay whatever it finds the power may cost, if it be \$25 or \$30. And the local company contract fixed no higher price than \$16, and guaranteed it to be 10 per cent. lower than the Commission's power, no matter how low it was. The Herald falsifier knows right well that instead of "saving" anything by the Hydro contract we shall lose thousands of dollars yearly.

PLURALITY OF WIVES.

(Rochester Herald.)
Polygamy is openly practised in Utah, as is known of every resident of that State. An apostle of the church represents it in the United States Senate. The practice of polygamy is a violation of the ordinance under which Utah was admitted to the Union. We have no doubt but that her Statehood would long since have been revoked but for the large and increasing political influence of the polygamists.

HIS THANKS.

(Chicago Tribune.)
"We wish to return our thanks," wrote Editor Clugston of the Spiketon Blizard, "to the unknown donor who left a six pound turkey on our doorstep Christmas eve. The fact that the poor old fowl was as tough as an Egyptian mummy, and turned the edge of a carving knife after nine hours' cooking, does not weaken our gratitude a denier bit. The person who gave it to us meant well, and it was a kind act, anyway, to kill the ancient bird and put it out of its misery. Thank you, brother, whoever you are. Well send you the gazette if you'll give us your address."

MONEY TO BURN.

(Philadelphia Record.)
Public benefactions of the larger sort during the year now closing are believed to have reached \$141,000,000, which beats the record by \$40,000,000, most of this excess being due to the death of John S. Kennedy, whose bequests figure in the benefactions of the year to the extent of \$20,550,000. Nearly \$13,000,000 is credited to John D. Rockefeller, and over \$8,000,000 to Andrew Carnegie, while Mrs. Christopher L. Magee is put down for \$5,000,000. Two millions left to the University of Wisconsin by Colonel Vilas, who was in the first Cleveland Cabinet, is included. Mrs. Sage gave away nearly two millions, and the bequest of George Crocker for cancer research was between a million and a half and two millions. More than a third of the year's total was given for education.

THE SAME, BUT DIFFERENT.

(Vancouver Saturday Sunset.)
Christmas at the Pacific coast is different in many respects from that of any other part of Canada. These differences are physical, however. The spirit of Christmas obtains here as in all other parts of Canada. We experience on this Pacific shore the same warmth of good will and cheer, the same softening influences of the season of charity, the same joyful enthusiasm of robust childhood, the same glow of pleasure in the family reunion and the same good wishes for the happiness and prosperity of our neighbors, as do Canadians in all other parts of the Dominion. Yet our environment is different. There is a distinction between the atmosphere of Christmas on the Pacific and that of all other parts of Canada. Brought down to the last analysis, it is found in the one word—climate.

RE BARTON ELECTION.

To the Editor of the Times
Sir—May I be favored with a short space in your columns to explain my position as to the Reveship for 1910?

It is reported Warden Gage took the field to keep me out of the Reeve's chair and that I am opposed to him on party lines, and wish to bring about his defeat. This is not the case.

At the recent nomination there were six candidates for the Reveship, four of this year's Council and two ex-Reeves. Warden Gage and three others were willing to retire and give me the chair by acclamation, on account of past services to the township, but one candidate could not see it that way, so a contest was inevitable. In consequence of a number of important questions, brought about by order of the Board of Referees, the election was postponed, and the contest is still unsettled, but I believe it will be to the best interest of the township to have a man thoroughly posted in the details yet to be worked out in final settlement with the city of Hamilton. No man is better posted than Reeve Gage. He is a large ratepayer in the township and has done splendid work for Barton during his tenure of office, and I believe if re-elected will continue the good work. It is not a case of party politics, or I would be opposed to Reeve Gage. The question is, which can serve Barton best, the ex-Warden, who has been almost out of town with municipal life for four years, or the present Warden, who is up to date and has details of questions still in dispute at his fingers' ends and can show such an excellent record?

The question of building a House of Refuge and the equalization of the county rates are to be dealt with by the County Council in 1910, and I firmly believe no man is better able to deal with these in the interest of the ratepayers than Reeve Gage.

Besides this, there has always been in Barton an unwritten rule of concession, viz., that at least one or two candidates running for the Council should be from the part of Barton below the mountain. At the present time there are thousands of dollars on Barton's assessment roll, representing property below the mountain, including the whole village of Bartonville, and Reeve Gage is the only candidate living below the mountain seeking election.

I feel sure the spirit of fair play which has characterized Barton electors for so many years will give Barton below the hill the one representative in the field.

Yours truly,
Frank Hills.

REPLY TO "JUSTICE."

To the Editor of the Times—
There seems to be a great deal of misapprehension on the part of "Justice," "Ratepayer," and others as to the object of the Citizens' Campaign Committee in the municipal election. They do not "demand" confiscation of hotel property," the Citizens' Campaign Committee is in favor of more and better hotels. We have no room for "sham" hotels but good hotels are necessary, real hotels which supply meals and lodging and desirable hotel keeping is an honorable business which should be encouraged. The Citizens' Campaign Committee is against a reduction of bar-rooms. Hamilton has too many bar-rooms which are in no sense of the word hotels,
