WEEKLY REVIEW OF TORONTO WHOLE-SALE MARKETS.

PRODUCE. The market has remained inactive since our last; out the enquiry has improved and the downward tendency has, in most instances, been arrested. New grain has been offered to a small extent in the So as to sell at 36c in New York or 72c in Osweço, on the street receipts have been small; sales were there has any et been very small sign manifested eutside; and so long as imports continue to pour into England as they did last week when those of wheat and flour were about equal to 475,000 quatters of wheat and flour were about equal to 475,000 quatters of wheat and flour were about equal to 475,000 quatters of wheat, which is considerably in excess of its weekly consumption, there is little chance of it. Stocks here have shown but little change siace our last and sol ond moday morning as follows:

Flour, 790 bolls; fall wheat, 16,581 bushels; spring wheat, 53,263 bushels; oats, 700 bushels; pearley, 39,734 bushels; pears, 210 bushels; rye, 400; corn, sell bushels; pears, 210 bushels; pears, 210 bushels; pears, 30,000 bushels, out the form of t shape of fall wheat and oats; but no receipts of any Harvesting was in full swing in the Southern coun-ties, where a large breadth of wheat has been cut, though none has as yet been threshed to test its quality. Wheat affoat was steady, cargoes in all positions being firmly held. Buyers, however, were reluctant to nay the prices demanded. ant to pay the prices demanded. Further cable advices to the 2nd inst. state that at that time the supply had completely distanced the demand, owing to the enormous outward movement from Extra. American Atlantic ports. It was affirmed, however, that the trade could not be expected to remain in its inert condition for any length of time; and it was estimated that similar agricultural disasters ten years ago would have entailed an advance of 10s per taking into consideration the diminished acreage sown and the wretched results of the home crop, the amount of foreign wheat required to supplement the deficiency will be something like 4,000,000 quarters more than is required in ordinary seasons. And the *Economist* of last Saturday alleges that in Southern Russia and Roumania not more than half a crop has been secured. On this point, however, it may be well to wait for later advices before forming any conclusion. The quantity of wheat and flour in transit showed a decrease of 50,000 qrs on the week; but still amounted on the 4th inst. to 1,775,000 qrs, against 1,873,000 qrs on the 21st ult., and 1,043,000 at the corresponding date last year. The approximate quantity of grain on passage for the United Kingdom for orders, expected to arrive during the four weeks from August 21 to Sept. 18, is :- Wheat, 443,000 qrs, comprising 26,000 qrs from the Danube and Black Sea ; 209,000 grs from Atlantic ports, 82,000 qrs from California, and 136,000 qrs from Chili and Australia; of maize 44,000 qrs, all from American Atlantic ports, and of barley 3,000 qrs from Azov ports. Continental advices by mail state that a good deal of wheat had been cut in France. The quality of the grain seemed to give general satisfaction, but as thrashing proceeded the rield proved defective, and many districts which a short time since promised a fair average growth were reporting a deficiency of 15 to 20 per cent. Rye cutting was considered finished and the crop has turned out below an average in quantity and very variable in quality. Supplies in country markets were small and trade dull with little change in ces, as an advance was quoted only in six, and a | Cor.Front and Jarvis Streets, Toronto, Ont., all in seventeen out of 85 markets reporting. The demand for flour was slack, but previous prices maintained. At Marseilles the wheat trade ruled firm, and there was more activity, but in most of the other ports a quiet tone prevailed. In Germany the rye crop was finished, and results were decidedly unsatisfactory both in quantity and quality; but wheat-cutting was not nearly finished, and it was too soon to offer any onings on the quality; but wheat-cutting was not nearly finished, and it was too soon to offer any opinion on the nature of the yield. Berlin market was easier with the Hungarian demand of the previous week fallen off. At Hamburg, spot wheat was firmly held, and at high prices. But both at Vienna and at Pesth prices had given way. Official estimates of the Hungarian crops corroborate previous unfavourable advices. In Ro. mania and Bulgaria corn is said to be a frilure. Russian advices state that at St. Petersburg a few sales of Saxonka and Samara wheat had been effected at equal to 45s. 11d. and 43s. 2d. per 496 lb. respectively. Rye had become quieter, and buyers were difficult to find even at lower rates. The bad yield in Europe generally led some parties to estimate that the importing countries of Europe will require to import during 1879-30 about 275,000,000 to 280,000,000 bushels of wheat, including flour at its equivalent in grain. On this continent western markets have advanced about three cents on October quotations; and an increased export demand has pervaled at New York with a large business doing in September and October options. Receipts of wheat at the Atlantic seaboard ports during the last four weeks, were 22,175,000 bushels; and the exports from them 18,368,000 against 14,697,000 received, and 11,921,000 exported in the corresponding weeks last year. Receipts of the new crop at western ports, have, however, been coming in slowly; the cause is thought to be an impression among farmers that prices are low and that they may profit by making deliveries slowly. TRADE—Seems to have been fairly active since our last.

TRADE—The demand for lines has been steadily maintained, and prices have been firm, with the tendency still upwards, but the actual sales reported are few. Medium Young Hysons have been selling freely on English account, and seem the sort most wanted. Lines on the spot have sold at 36c for fair seconds, and at 23c for coarse. Japan Pekoes of medium quality have sold at 33c, and a line of Congou changed hands on p. t. Quotations are as follows, the outside being for retailers lots:—Young Hyson, common to fair, 23 to 23c; Young Hyson, edium to good seconds, 34 to 40c; Young Hyson, ordinary to choice extra first, 45 to 56c; Twankays, 30 to 25c; Gunpowder and Imperials, common to good, 25 to 40c; Fine to Extra Choice, 55 to 60c; Blacks—Congous, 25 to 55c; Souchong, 25 to 60c; Seems teady; a job lot of Government Lava changed hands at 37c and 21b; is concerned.

SUGAR—The market seems to have been fairly active, but prices appear to be the turn easier, and the prices appear to be the turn easier, though actual changes are few and insignificant Raws have been active; large quantities of Porto Rico have changed hands in ear lots at 6 to 6½ for very dark grades; at 6½ to 6½ for medium, and at 6½ to 7 for bright. Sootch has remained inactive, and quotations are unchanged. Canadian yellows have been selling well at prices ranging from 7½ to 85 for lots of not less than 50 barrels. Granulated has declined 25c per cental; lots of 50 barrels have sold at 3½ which was the value to-day. Quotations are as follows, the outside figures being for retailers lots:—Porto Rico, per lb., 6½ to 7c; Cubs. 6½ to 6½c; Barbadoes, 6½ to 7c; English and Scotch refined to bright choice, 8 to 8½c; medium, 7½ to 7½c; do., low grades, 6½ to 7½c; Canadian refined, 7½ to 8½c; Extra 0, none; Dry Crushed, 9½ to 10c; Granulated Standard, 8½ to 9c; Off-Standard, none; Cut Loaf, 9½ to 10c.

FLOUR—The demand has improved somewhat, and as offerings have been rather small the downward tendency has been checked, though no recovery can be reported; the movement, however, has continued to be small. Superior extra has been quiet and easy; a lot of 100 barrels of choice sold at \$4.75 f.o.c. on Thursday, but a round lot went off at equal to \$4.70 on Saturday. Extra has been fairly active; a lot of 100 barrels sold at \$4.65 f.o.c. on Thursday, and round lots at equal to \$4.60 on Saturday and Monday. Strong bakers has been inactive. Spring extra bas been scarce and wanted; it brought \$4.50 on Saturday which price would readily have been paid both before and since that day. The market to-day was firm but inactive; a lot of 100 barrels of choice superior extra soid at \$4.80 f.o.c.; spring extra was wanted with \$4.50 freely bid, but none offered; extra would probably have brought \$4.50.

Bran—Has been inactive, with values steady at \$3.50 for car lots on track.

OATMANI—Has shown little change; a car lot sold on Friday at \$4.25 on track, which seems to be about the value to-day.

What—The market has been so inactive as to be next door to nominal. The demand, however, has been active and firm prices would have been paid; but holders generally have refused to sell at all, and any who would sell have asked higher prices than would be paid. The first car of new No. 1 fall sold on Thursday at \$1.02 f.o.c. No. 2 spring has been active and firm prices would have been paid; but holders generally have refused to sell at all, and any who would sell have asked higher prices than would be paid. The first car of new No. 1 fall sold on Thursday at \$1.02 f.o.c. No. 2 spring has been active and firm prices would have been paid; but holders generally have refused to sell at all, and any who would sell have asked higher prices than would be paid. The first car of new No. 1 fall sold on Thursday at \$1.02 f.o.c. No. 2 spring has been active and firm prices would have been paid; but holders gen the value to-day.

Whiat—The market has been so inactive as to be next door to nominal. The demand, however, has been active and firm prices would have been paid; but holders generally have refused to sell at all, and any who would sell have asked higher prices than would be paid. The first car of new No. 1 fall sold on Thursday at \$1.02 f.o.c. No. 2 spring has been asked for all week at 96 to 97c, but any little for sale was held at 98c. The market to-day was firm; No. 1 spring lying outside sold at a price estimated as being equal to 98c here; and No. 2 sold for 97c at a Lake Ontario port east of us. On the street prices were firmer at 98c to \$1.01 for fall and 95 to 99c for spring.

35c; Orange do, 30 to 23c; Citron do 25 to 37c.

Ricz—Has shown no change; lots of 50 bags have sold as before at \$4.10; and small lots continue to sell at \$4.40 to \$4.50.

Fish—Unchanged; the only movement has been in new ood which has sold at \$5 to \$5.25 per quintal for small lots of bundled, Other quotations are purely nominal. Quotations stand as follows, the outside prices being for retailers' lots:—Herrings, Labrador, bbls, \$5.00; Salmon, salt water, \$15.50 to \$16.00; Cod-fish, new, per 112 lbs, \$4.75 to \$5.25; boneless, per lb, 6 to 66c; Trout, \$2.50 to \$2.75; Mackerel, bbls, \$10; half-bbls, none; Sardines, ½'s, \$7 to 10c; do. ½'s, 17 to 20c.

Tosacoo.—There has been some enquiry heard

States advices say that barley ought to be bought so as to sell at 39c in New York or 72c in Oswego, which prices would leave it worth about 50c here. On the street receipts have been small; sales were made at 51c; at 48c; at 46 and 48c; at 52c; at 50c.

prices, and this fact has checked the demand for shipment; local dealers have been well supplied and this has checked the demand for the local market. Export cattle, that is beeres averaging out under 1,200 lbs, have, however, not been offered to any extent, and if they were offered would not be likely to bring ever \$4.50. Second-class, that is light steers and helters and heavy oxen and bulls, have been offered freely, but none would take them save at a decline of about 50c at which there were plenty of buyers; sales accordingly have been made at \$8.25 to \$5.75, the cause of the fall being the fact of dealers being stocked; and, consequently, refusing to take anything except bargains. Third-class have been in fair supply but 25c lower, and slow of sale at \$2.25 to \$2.75.

sale at \$2.25 to \$2.75.

Singer—The market has been well supplied, and good qualities selling fairly well. The export demand has been maintained, and first-class for shipment, consisting of wethers averaging 130 lbs and upwards have been still selling at \$4.25 to \$4.37 per cental, or \$5.50 to \$6.50 each. Second-class have declined about 25 to 50 cin consequence of an over supply and a slack demand for the local market; they have been going at \$8.50 to \$4.00. Third-class there is no use in offering; they are unsalable.

Lames—Receipts have been large and prices weak. First-class dressing from 40 lbs upwards, have continued in demand, but at easier prices, and with enough in; they have ranged from \$3.00 to \$3.40. Second-class dressing from 30 to 38 lbs. have been offering in excess of the demand, and have declined about 25c, or to \$2.50 to \$2.75. Third-class are not wanted at any price.

CALVES—Haveshown no change in any particular. The movement has continued to be confined to first-class dressing from 120 lbs unwards.

The movement has continued to be confined to first-class dressing from 120 lbs upwards, which have found a ready sale at 6 to 7c per lb, or from \$7 to \$9 each. Second-class, dressing from 75 to 110 lbs, have been slow of sale at \$4 to \$6 each. Third-class have not been wanted at any price, and may

HIDES, SKINS AND WOOL. TRADE—Has remained generally unchanged. HDES—Green have been coming in slowly, and all readily taken at unchanged prices. Cured have been moving off steadily in small lots at 8c, with all offering wanted, but no movement reported in car-

PEUTS-Prices still remain unchanged at 50c for the best green offering, at which figure there is a good demand. LAMBSKINS—Still sell at 40 to 60c, the latte the best green, with offerings large, but all wa and readily taken. STEELE BROS. & CO.,

MooL—Has shown no change since our last; several small lots of 1,000 to 2,000 lbs., and one lot of 6,000 lbs. of fleece changed hands at 20c, which is still bid and paid on the streef. Super has been quiet, but seems worth about 22c. Are selling Victoria Seed Wheat at \$1.50 per 60 lbs., Seneca or Clawson at \$1.20, Sliver Chaff at \$1.20, Gold Medal, Deihl, Scott, and other standard varieties at lowest prices. Fall Rye, Timothy and Clover Seeds, Orchard Grass, &c., &c. TALLOW—Has still been selling fairly well, but seems rather easier; some lots changed hands at 5½c, which is now the outside price, some dealers offering only 5c. Prices on application. Orders Solicited. 387-2

LEATHER.

LEATHER.

Business is looking up and stocks are very light, prime leather of all kinds being looked for. Owing to the high price of hides leather must advance. Polished cow is in demand, as also prime pebble. No change in foreign leathers.

Prices are quoted as follows:—Spanish Sole, No. 1, all weights, 24 to 28c; Spanish Sole, No. 2, 20 to 23c, Slaut. Sole, heavy, 22 to 26c; Elaut. dualities, but these have formed the greater part of the receipts. On the street, prices have been firmer at 11 to 13c for really fresh.

PORK—Has been fairly active, but rather easy, with sales of lots not under 25 barrels at \$12 and small lots at \$12.50.

BAON—Stocks of Cumberland are running decidedly low, and the late advance is firmly maintained; con bring 62c, and cases and small lots 7c. Long clear is in rather better supply than is Cumberland, and is firm at 7½ to 7½c, the latter for case lots or under. Green belies are steady at 7½c, smoked at 9½c, and canvassed at 10c.

HAMS—The late active enquiry has been steadily maintained, but no large sales, nor any advance in prices can be reported. Smoked are steady at 11½ to 12c, and canvassed at 12 to 12½c. Pickled remain as before at 10½c.

LARD—Has been quiet, and seems rather scaler at 8½c for tinnets, at 9c for pails, and 8c for iscress Hoos—There are a few sold to order at \$8.

SIR GARNET'S POLICY CRITICIZED. Sir Garnet Wolseley's policy of tributing Cetewayo's broken power and the chiefs in Zululand is severely critic in Radical cirdles as involving an ent new organization of the country, and likely to lead to perilous complications is affirmed that it would have been n wiser on the part of the home ernment to instruct Sir Garnet W ley to have granted such con sions as would have made the predynasty a friend of the Crinstead of destroying it. England's en South African policy, before and duthe war, is characterized as both treacous and foolish. What disposal will made at Cotamany's person has not nade of Cetewayo's person has not

DETAILS OF THE CABUL MASSACRE. Further particulars respecting the received by sacre at Cabul have been received by official despatch from the Viceroy of I to the Foreign Office. He telegraphs he has received from a native Sowar, escaped from Cabul immediately after massacre, a statement that the un Afghan regiments assembled at their racks on the morning of the massacre, acted upon what seemed to be a pre-Arghan regiments assembled at their racks on the morning of the massacre, acted upon what seemed to be a precerted plan of operations. Taking tarms and forming in military array, issued from their barracks and marches wards the embassy. They shouted as went, "Kill the British envoy". Down with the Ameer." He says entered the court yard in front of residency and threw stones at the dand windows. Major Cavagnari, whearing the news of the approach of troops; had ordered the doors of the bassy to be closed, but his servants some of the Guides fired upon the sold without orders. The mutinous regim were speedily joined by a large numbe the populace of the city, and the la procuring firearms roamed through port of the town threatening pillage. Safghan chiefs endeavoured in vain to the disturbance. The Viceroy adds in despatch that there are no troops not the road to Cabul, nor at Jellalabad, no Dakka.
