

The Kidneys

The office man and the outdoor worker suffer alike from derangements of the kidneys.

Backaches and headaches are among the symptoms. In some cases Bright's disease soon develops, others suffer from high blood pressure until hardening of the arteries sets in.

In order to forestall painful and fatal diseases prompt action should be taken at the first sign of trouble.

Mr. A. D. MacKinnon, Kirkwood, Inverness county, N.S., writes:

"I can highly recommend Dr. Chase's Kidney-Liver Pills to all suffering from weak kidneys. I suffered from kidney disease for a long time. I may also say that for three years I was nearly always troubled with headaches, and no treatment seemed to do more than afford temporary relief. I was finally told of Dr. Chase's Kidney-Liver Pills, and after using a few boxes was completely relieved. I have also used Dr. Chase's Ointment with the best results, and never fail to recommend these wonderful remedies."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto.

INDUCTION OF REV. J. C. MORTIMER AT TABUSINTAC

The Presbytery of Miramichi met in St. Andrew's Church, Tabusintac, on Tuesday, for the induction of Rev. John C. Mortimer to the pastoral charge of that congregation. The members of Presbytery in attendance included: — Revs. L. H. MacLean, Moderator; W. McN. Matthews, Clerk; Alex. Firth, F. W. Thompson and J. H. A. Anderson, Ministers; and Wm. Anderson, Representative Elder. A large and sympathetic congregation assembled to do honor to the occasion.

Public worship was conducted by the Moderator, assisted by Mr. Firth and Mr. Anderson, who preached the sermon. Mr. Firth, interim moderator of session during the vacancy, narrated the steps leading up to the service of the day. The moderator, on behalf of the Presbytery, then addressed himself to Mr. Mortimer and received from him cordial assent to the prescribed questions required of ministers of the Presbyterian Church on being settled in a congregation. He then declared Mr. Mortimer duly charged with the pastoral care of this people and with the other members of the Presbytery extended to him the right hand of fellowship. After prayer for the Divine blessing to rest upon the union of pastor and people thus created, Mr. Thompson addressed the newly-inducted minister fitting words of counsel on the assumption of his new charge. His must be a two-fold life, in close fellowship with God and sympathetic with the people, if he would fulfil the high office of the Gospel ministry. Mr. Matthews in his charge to the congregation reminded the people of their corresponding duties and privileges, effectively interpreting the significance of their engagement in their call to their minister, promising him in this act as they have done, all due respect, encouragement, obedience in the Lord, and contribution to your suitable maintenance as God may prosper us.

The choir had made arrangements for special music, and the impressive service was enriched with the messages of hymns sung by Miss Janet Stymiest, Miss Muriel Manderson and Mrs. L.H. MacLean. After the close of the service the whole assemblage repaired to the hall nearby, where the members and the congregation sat down to supper tables laden with choice and abundant delicacies.

SO MANY PEOPLE ARE NERVOUS

"Fruit-a-tives" the Greatest of all Nerve Remedies

This Fruit Medicine Restores Health

The increase in the number of persons suffering from Nervousness is world-wide; due, in a measure, to the reaction following the war. Sleeplessness, Headaches, Mental Depression, Rheumatism, Nervous Dyspepsia, Bad Heart Action, are the results of a disturbed condition of the Nervous System.

The nerves and the blood are so intimately, so vitally, connected that the condition of one is bound to affect the condition of the other. If the blood is laden with impurities, it is impossible to have strong, steady nerves.

The first essential in treating nervous troubles is to purify and enrich the blood. This "FRUIT-A-TIVES" will do. "FRUIT-A-TIVES" stimulates the bowels, kidneys and skin and purifies the blood. "Fruit-a-tives" improves appetite and digestion and insures food being properly digested, thus enabling the blood to carry wholesome nourishment to build up the body, particularly the nerves.

Men and women who take "Fruit-a-tives" for some form of nervousness—because they cannot eat or sleep or work or enjoy life—say that this fruit medicine is simply marvellous in its action.

50c a box, 6 for \$2.50, trial size, 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa Ont.

MacLean. After the close of the service the whole assemblage repaired to the hall nearby, where the members and the congregation sat down to supper tables laden with choice and abundant delicacies.

The day was fine, the fellowship of people and presbyters delightful, the service strengthening, and the forming of the new tie of relationship between minister and people in this historic congregation full of promise.

SHARP CRITICISM OF MR. D.B. HANNA

Ottawa, June 6—"It is about time we began to find out whether or not D. B. Hanna is the czar of this country", E. M. MacDonald, Liberal member for Pictou, told the public accounts committee of the House this morning when it developed that R. C. Vaughan, Vice President of the National Railways, and in charge of purchasing, failed to produce the contract between the railway and the Youghiogheny and Ohio Coal Company.

Production of the contract was requested at the last sitting of the committee.

Mr. Vaughan informed the committee that he was acting on instructions given by Mr. Hanna.

The committee determined to call Mr. Hanna and to instruct him to appear with the contract tomorrow. Failing this, it is probable that the situation will be reported to the House of Commons.

At the outset Mr. MacDonald characterized the sale of coal by the Canadian Northern Railway Company to the Canadian Government Railways to the extent of \$2,400,000 as a very anomalous proceeding.

R. B. Hanson, Conservative, York-Sunbury, asked if any part of the coal bought by the C.G.R. from the Canadian Northern was originally secured under the contract with the Youghiogheny and Ohio Coal Company.

"No", replied the witness. Mr. MacDonald objected that at a previous hearing the witness had stated that some of the American coal was included.

Replying to Mr. Hanson, witness said there was "not a copper" of profit to the Canadian Northern in the transfer of coal to the Canadian National Lines.

PORTABLE PUMP DID GOOD WORK AT DOAKTOWN

The Department of Lands and Mines has received a report from Doaktown to the effect that the B.C. Wonder fire-pump which ordinarily is used in fighting forest fires, performed most satisfactory work at Doaktown on Sunday 4th inst, preventing a spread of the fire which destroyed Henry Swim's factory and adjacent buildings. Early Sunday morning the Frederick fire department and the Department of Lands and Mines were asked for light pumping apparatus to protect Fraser's warehouse and other property which was threatened by fire burning in huge piles of edgings which had spread from the original fire in Swim's factory. The Forest Division had a small portable pump and sent it by motor early in the morning.

The fire in Swim's factory broke out at about midnight with cause uncertain. As there was little means of fighting the flames it soon was in ruins and other buildings also.

A wireless tower at Tokio, Japan, 6 feet high, of reinforced concrete is the highest one-piece structure in the world.

"You'll like the flavor"

The Grave of a Canadian Poetess

Pauline Johnson's Grave in Stanley Park, British Columbia.

and feather bear the hall marks of my Mohawk blood."

On the east side of the fountain will be carved a canoe and paddle. This will be significant as a representation of the spirit of the "song my paddle sings," one of the sweetest songs penned by the poetess. It reads:

"And up in the hills against the sky,
A fir tree rocking its lullaby,
Swings, swings,
Its emerald wings,
Swelling the song my paddle sings."

The eyes of the figure will be focussed on the stream of water, and beneath the carving will be the name "E. Pauline Johnson," with the date of birth and death.

The plan promoted by the Art, Historical and Scientific Society of Vancouver, of establishing an Indian village in Stanley Park, will prove unique in Canada. It will breathe an individualism redolent with associations of the "evergreen coast," and of the early history and legends of our country. The idea of the society is to bring an entire old-time Indian village, with its many totem poles, lodges, council chambers and customary features, and place it in Stanley Park.

It will perpetuate for all time the splendid and ancient history of some of the early native coast Indians, constituting the original pre-historic inhabitants of British Columbia, now only the remnant of a dying race. There are a few remaining villages, now in danger of decay from long disease, silently nestling in secluded northern coves along the Pacific coast. There is evidence of stately pomp and grandeur about the large lodges and spacious council chambers with their numerous heraldic totem poles. The society hopes to obtain an ample number of totem poles, chief's regalia, "coppers," a metallic insignia of hereditary office and other panoply, dancing masks, robes, talking sticks, huge mitts, moccasins, war canoes, carved door jambs, and lintels, roof trees, medicine men's costly fur robes of sea otter, or other skins with full accessories.

TOURISTS from all over the world appreciate the beauty of that corner of Stanley Park, British Columbia, where are buried the ashes of Canada's Indian poetess, Pauline Johnson. In the shade of the great trees, within sight of the Siwash Rock, it is one of the ideal spots of that peerless natural woodland, and has been marked by a simple temporary stone rolled in place. To catch the spirit of her songs that Canada's love for her Indian princess may have enduring expression a permanent memorial will shortly be erected.

The memorial will take the form of a rustic, antique fountain, to be erected from moss covered stones, gathered from the park. The water will flow through this granite protection as a natural spring, and fall into a pool at the side with the added charm of water lilies in the pool. The head stone will have a life size reproduction of the head of the poetess, who on the west side will be emblem of her legends, showing the flint and feather. The "flint and feather" is an emblem rich in Indian associations. "Flint" suggests the Red man's weapons of war; it is the arrow tip, the heart quality of the people. The "feather" is the eagle plume that crests the head of the warrior chief. In the words of the late poetess, "The flint
