### Biggest Boycott of History.

The Germans have lately been trying to make out a case for the retention of the stolen provinces, Alsace and Lorraine, on the ground that they are pro-German. But there never was a worse case in the history of man. For forty years and more the Germans have tried repression, terror, and bribery, but they are farther from reconciling the Alsatis and Lorrainers to their rule to-day than they were in 1870.

The Alsatis and Lorrainers do not recognize the German. He does not exist for them. They pass him in the street as if he were invisible. If the Germans get up a fete, a ball, a concert, Germans alone are seen there.

Even the parks and tea-gardens chosen by Germans as their resorts are out of bounds to the natives of the provinces. No German ever gets across the doorstep of an Alsatis or Lorrainer except at the point of the bayonet or sword, or, if there should be such admission, the family is henceforth ostracized, pariah.

Occasionally love steps in, as it will, and makes a breach. Some young

German falls in love with an Alsatis maid and wins her affections and marries her. She goes to the nuptials alone. Henceforth that girl is a stranger.—Answers.

### "Cascarets" for a Cold, Bad Breath or Sick Headache

Best for liver and bowels, for biliousness, sour stomach and constipation.

Get a 10-cent box now. Furred Tongue, Bad Colds, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a still barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret to-night will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing, too.

Your Boys and Girls.

When feeding baby with the bottle, the same hours should be observed for feeding as were given for nursing him. The first three weeks the infant should be fed every two and a half hours from six a.m. to nine p.m. and one feeding should be given during the night at two a.m.

After three weeks he should be fed every three hours, eliminating the night feeding as soon as possible. Of course this is for the normal, healthy child. The delicate one needs the professional advice of a physician.

### Everyday Etiquette.

A girl friend of mine has a cousin visiting her. Is it my place to call on her or should she bring her cousin to call on me? asked Mona. "If the cousin be a girl you should call on her first. If it is a male cousin he should be brought to your home," said her aunt.

### Conscription in Australia.

Christian Science Monitor: The decision of the Australian Federal Government once again to submit the much-discussed question of conscription to the Australian people, by means of a referendum is as significant as it is courageous. For some weeks past, the news from Australia as to domestic developments has been drastically censored. Nothing, for instance, was known by the outside world of the great strike which at one time, a few weeks ago, assumed almost national dimensions, until after Mr. Hughes' call to the nation for volunteer workers had cut the ground from under the feet of the malcontents, and practically settled the matter. And very little has come to hand since, but the very fact that the Federal Government now feels itself in a position to appeal to the country on a question which divided it a year ago, as no other single question has divided it since the Confederation, argues a certain security of position and confidence in the future which are worth many columns of surveys and reviews.

The band under Lieut.-Instructor A. Morris have arranged an excellent programme of dance music, including several new numbers.

### She Went Days Without Food.

When Hospital Treatment Failed an Operation Was Advised—But Cure Was Effected Without The Use of the Knife.

Glouce Bay, N. S., November 29th—Here is a case which sorely puzzled the hospital doctors. It was evident that the great suffering from pain under the left shoulder-blade was due to torpidity of the liver, but no medical treatment seemed to do any good. In fact medicines failed, and the doctors said an operation was the only hope. But Mrs. Watkins hesitated before the enormous risk of an operation and decided to try Dr. Chase's Kidney-Liver Pills first.

The result was that she was perfectly cured three years ago, and feels now that she can report the cure as thorough and lasting. This is not an isolated case, but proves that this great medicine cures when ordinary prescriptions fail.

Mrs. Annie Watkins, Glouce Bay, New Harbor, N.S., writes: "I think it is time for me to give my experience with your wonderful Kidney-Liver Pills. For seven months I suffered with what the doctor called indigestion; but whatever it was, I suffered terribly. The pain would start under my left shoulder and pass down my side until it reached the pit of my stomach. It just seemed as if the flesh were being torn from the bone. At times I used to go without food from one morning until the next. I had no energy left for work at all. At last our doctor sent me to the hospital for a month. For four days and nights I never broke my fast except for a drink of water. After four weeks' treatment there I returned home, and was back only four days when the pain came again. Then I read about Dr. Chase's Kidney-Liver Pills and started to take them. At first I did not notice much difference, but still I kept on using them, and by the time four boxes were used I was perfectly well again. That was in 1914, so you see I can safely say that I was cured. I shall always be grateful to Dr. Chase's Kidney-Liver Pills, and did more for me than four doctors."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, all dealers on Edmunds, Bates & Co., Limited, Toronto. Refuse substitutes, for they only disappoint.

### Fads and Fashions.

Jet is used as trimming. Velvet dresses have waistcoats. There are tunics in all shapes and lengths. "Georgette" sleeves are as popular as ever. Taupe dyed nutria is one of the new furs. Buttons in rows are a favorite decoration.

Some of the new coats are of covert cloth. Plaid serge is frequently seen in tailored suits. Collars are a point of interest on coats and suits. Short fur coats for girls are a feature of fashion. Dull wooden beads are popular for hat trimmings. Some big, fancy bags are made of velvet and fur.

New English sports hats have contrasting facings. The convertible collar is very frequent on smart frocks. The prettiest silhouette is a loose waist-line, but clinging. Some of the new hats have very and sweeping brims. Many furs coats are exact reproductions of those in cloth. A single pompon of skunk trims a large hat very successfully.
