TO ADVERTISERS.

Hereafter parties who have contractadvertisements in the WEEKLY MERCURY must bring in their fresh advertisements, or give us notice of the same, on Saturday, before the first side of the next week's paper is printed. We are obliged to make this rule in order to prevent the duplicating of advertisements which is sometimes the case now, and which we cannot do in future on account of our crowded space.

The Elections and the Issues.

The exact time when the election will be brought on is still uncertain. of Huntin One report states that the dissolution will take place on the 16th of this month, and another is that the writs the writs that the writs with the dissolution of May, over 700 emigrants, chiefly English, arrived at Kingston, and were distributed to satisfactory places in the diswill be issued between 'the 1st and 15th of August, and will be return-15th of August, and will be returnable within forty days, which would bring all the elections within the months of August and September. Whichever of these dates are chosen, months of August and September. Whichever of these dates are chosen, the time is near at hand, and it behoves the electors throughout the country to be preparing for the struggle. Fortunately the issues between the two parties are on this cocasion clear and distinct. The cry for a fair trial cannot now avail the Government as it did'n 1867. Then there was a Coalition formed, which in reality had no principles and no policy, but which claimed the support of the people on the ground that they had formed a combination for the sole purpose of setting the machinery of Confederation in motion. The plea, therefore, for a fair trial they had formed a combination for the sole purpose of setting the machinery of Confederation in motion. The plea, therefore, for a fair trial was plausible enough, and the Government by pressing it were successful in securing a good working majority. But all that is changed now. Not a vestige of the old Coalition remains—the fair trial term has expired long ago, and the Government must now be tried by its acts, and the record that it presents to the country.

Any one looking back over that record cannot fail to see that the Government has grossly abused the

and the record that it presents to the country.

Any one looking back over that record cannot fail to see that the Government has grossly abused the trust reposed in it by the people. Every act of the Ministry has been devised and carried out with the sole object of strengthening their position. The constitution and the rights of the nearly layer heen wantonly tion. The constitution and the rights of the people have been wantonly trifled with or ignored. The first assault on its integrity was the granting of an additional subsidy to Nova Scotia, in order to keep the "antis" there quiet. Then there was the miserable bungling which culminated in the rebellion at Manitoba, out of which grew the Manitoba Act, and the violation of the Federal Constitution in granting that Province which grew the Manitoba Act, and the violation of the Federal Constitution in granting that Province more representatives than she was by virtue of her population entitled to. The same thing was done next session with British Columbia, and the members from these two Provinces were converted from independent representatives into hired supporters of a Government by virtue of the undue concessions made to their Provinces. Nor is this all. The iniquities connected with the Intercolonial Railway are still fresh in the recollection of our readers, and these have been completely dwarfed by the still greater sins of the Government in pushing through the Act for the construction of the Pacific Railway. By its means, consequent on the carrying of the Washington Treaty, the almost absolute control of thirty million dollars, and fifty million acres of land together with the power of constructing the road, incorporation of companies for that purpose, and other arrangements, are vested in the Government, and taken out of the lands of Parliament. The gross injustice done to this country in ratifying the Washington Treaty will not be forgotten by the people, who have plenty of material for making up a formidable bill of indictment egainst John A Macdonald and his colleagues.

It is the duty of the people to care

colleagues.

It is the duty of the people to carefully examine the Government record for the past five years, and having done so, they cannot, if true to their country, support men who would vote to keep such a corrupt Government longer in power, to triflee with its best interests, and sacrifice them in order that they may more firmly secure their seats.

Mr. Hugo Kranz, Reeve of Berlin is the only one spoken of as likely to oppose Mr. Bowman in North Water-loo.

The Quebec Chronicle (Ministerial) admits that the Opposition will carry a majority of representatives in Ontario, but hints that they will be bought up by the Government. It is stated in political circles that the writs were signed by Lord Lisgar Lefore leaving Ottawa, and that the House will be dissolved on the 16th inst.

The Globe's correspondent describes the camp at Levis as a big humbug, and the men to a large extent, unfed and ununiformed. Our new Governor-General would, no doubt, acquire some idea of how singularly things are managed in Canada from what 'he saw in this camp. Falstan, in declining to march through Coventry with his ragged regiment, had more sense than our militia authorities seem gifted with:

As the Boston Jubilee has been now going on for some two weeks, it is possible to make a pretty fair estimate of the results. Indeed, Mr. Gilmore will probably make a handsome little sum out of the enterprise, as he did out of the last one.
