the North American Hotel, and now under
the management of an American gentleman
of experience in the business, and the pub-
lic may rest assured that he understands
catering for them in every respect.

The proprietor has also built a race course
which may be used as a driving park. A
number of in connection Accommodations
and from all trains
G. KREBS, Proprietor.
Preston, July 17, 1874. dtf

Guelph Evening Mercury

FRIDAY EVEN'G, JULY 24, 1874.

Town and County News

HORSE TROT.—A trot between A.
Anderson's Duke, of Fergus, and Mr.
Colwell's horse, of Galt, for \$100 a side,
came off on the Waterloo Course, on
Wednesday and resulted in an easy
victory for the former.

QUERY.—What has become of the \$150
appropriation for improvements on Mac-
donnell street? Who knows? Speak
out. A liberal reward offered to any one
who can find a whole plank on the east
side of Macdonnell street.

Y. M. C. A.—Don't forget the lecture
on Comets by the Rev. Dr. Davidson in
the Baptist Church to-night commencing
at eight o'clock. Admission free; col-
lection at close. Special reference will
be made to the present comet.

OPEN TO-MORROW.—Messrs. Wm.
Tawse & Son announce in to-day's paper
that they will open out to-morrow in
their new premises, east side of Wyndham
Street, with a new stock of boots and
shoes. We hope the move will be in
the right direction.

CRICKET.—The Brampton cricketers
are to play against Guelph to-day,
arrived by the ten o'clock train and
shortly afterwards proceeded to the
ground near Goldie's mill. Both clubs
being composed of good players, an in-
teresting game is expected.

ANOTHER COW DECEASED.—We learn
that Mr. Robert Shain, Cork Street, lost
a fine cow last night. Can't our Veteri-
nary Surgeons throw some light upon
this singular fatality among bovines?
Is it an epidemic, or is it poison? Hold
an inquest, find out the cause, and pro-
vide a remedy. Come, gentlemen, your
reputation is at stake.

CHALMERS' S. S. CHURCH PIC-NIC.—The
annual picnic of Chalmers' Church
Sabbath School was held yesterday after-
noon at Beech Grove, and proved to be
one of the most successful they ever
had. The children assembled at the
Church at one o'clock, and were driven
to the grounds, where base ball, croquet,
and other games were heartily entered
into. About five o'clock the children
were assembled in the bush, where, after
singing a hymn under the leadership of
Mr. Maitland, they sat down to a repast
to which ample justice was done, the
ladies of Chalmers' Church fully sus-
taining the reputation as caterers,
especially in the matter of making good
tea. About eight o'clock the route
homeward was taken, everyone seeming
highly satisfied with the day's enjoy-
ment.

WESLEYAN SABBATH SCHOOL PIC-NIC.—
The annual picnic of this school was
held in Mr. Peterson's magnificent grove
on Thursday. The children, numbering
between three and four hundred, and
accompanied by the teachers, proceeded
to the grounds early in the afternoon,
where they enjoyed themselves after the
manner of children until the hour for
supper. Some half a dozen tables had
been erected, which were loaded with an
abundance of good things, to which the
children did ample justice. After all
had been supplied, the tables were again
spread, in order to supply those of more
mature years who had now begun to ar-
rive on the grounds. The attendance of
parents and friends was so large that
before all had partaken, the shades of
night had begun to fall. The afternoon
was all that could be desired, and all ap-
peared delighted, yet sorry that the hour
of departure arrived so soon.

St. Andrew's Church Enlargement.
The improvements that have been go-
ing on in St. Andrew's Church are now
completed, and service will be resumed
in that place of worship on Sunday next.

The alterations made in the church
building are important, and allow a great
increase of accommodation. The organ
has been removed from the gallery over
the entrance and placed at the other end
of the church, in a gallery built for the
purpose, and the place thus vacated in
the gallery has been fitted up with seats.
The pulpit has been changed from the old
style to the modern desk, and is en-
closed with a railing modestly decorated.
The pews have all been repainted, and
the old fashioned book boards changed to
the box style. Instead of the two
chandeliers, there is only one now, in
the centre of the ceiling.

Adjoining the rear of the church a
beautiful school room has been erected.
The room will be lighted with gas, heat-
ed from registers in the walls, and will
be provided with reversible seats. There
are three long windows at either end of
the room, and two smaller ones at the
side. At the end opposite the superin-
tendent's desk are the bible class and
vestry rooms, the former being
separated from the main room by
folding doors. Above these is the
infant class room, the inside wall
of which is of glass, arranged so that
during the services of the whole school
the scholars in this class can participate
by raising the glass windows. About
\$500 are to be expended on the library,
which is in the rear of the pulpit and
beneath the gallery occupied by the
choir. The cost of all these improve-
ments will be upwards of \$5,000. Judg-
ing from the improvements which have
been made throughout the whole edifice,
and the increased accommodation afford-
ed, the money has not been ill-spent.

To TOURISTS.—Holiday numbers of
London Society can be had at Ander-
son's bookstore. Parties going to Pus-
linch Lake and other important watering
places would do well to buy a copy. They
contain a large amount of light reading
matter just suitable for pleasure seekers
and those who are fond of the romantic.

Town Council.

An adjourned meeting of the Council
was held on Thursday evening to hear a
statement from the Road and Bridge
Committee in regard to the moneys ex-
pended since the beginning of the year.

Present, the Mayor, and Messrs. Crowe,
Petrie, Elliott, Raymond, Davidson,
Hood, McCrae, Coffee, Howard, Robert-
son and Harvey.

When the Mayor called the orders of
business, the Chairman of the several
Committees promptly answered. "No
Report." In reply to a question from
the Mayor as to why the Road and
Bridge Committee had no report,
Mr. Coffee stated that the Committee
met last evening and worked till after
midnight. They had also been prosecut-
ing the work up to the present moment,
but there were so many facts to be col-
lected from different sources that they
were unable to hand in a report. To-
morrow evening, or any time after this
evening, a report could be made up and
brought in for discussion.

Mr. McCrae thought it would be at least
courteous to the Council to give the fig-
ures that had been obtained by the Com-
mittee so far. It was disgraceful that
after three days there was no report. It
showed that the affairs of the Committee
needed looking into by the Council. The
Chairman had told the Council that the
books of the Road Superintendent would
be brought up, but they were not brought
up. The action taken by the Committee
showed that matters were in a worse
state than the Council expected. The
facts should be made known.

Mr. Coffee thought that a part of the
report was useless without the whole
facts as they stand. The Committee re-
quired a day's notice before bringing in
a report; and after that had been given
they met last night. It took a great
deal of time to get all the facts in con-
nection with the roads, sidewalks and
bridges of the different wards and com-
pare them. The Committee had done
their best, and in their endeavor to ob-
tain a report for this evening had been
disappointed.

Mr. McCrae said that notice could
have been given to the members of the
Committee by the Chairman after the
last meeting of Council.

The Clerk said the notices of meeting
were put into the Committee's hands by
Tuesday at noon.

Mr. McCrae again affirmed that a
meeting of the Committee could have
been arranged by the Chairman for Tues-
day morning; and that a whole day had
been squandered.

Mr. Coffee said it was the custom to
allow committees a day's notice before
preparing a report.

Mr. Raymond thought some allowance
should be made for the Committee. The
members could not give every moment
of their time. They had not as much
practicable, and found a great mass of
figures to go through. The figures were
all in the possession of the Committee,
but not in the shape that the Council re-
quired. They did not want to present a
report which contained errors, and thus
lay themselves open to unpleasant criti-
cism. The report will show where all
the money had gone to.

Mr. Davidson would like to see the
report of the Committee as far as they
had been able to make it up.

The Mayor said that as Mr. Coffee
had expressed his readiness to report to-
morrow evening, a motion should be
made calling a meeting for that time.

Mr. Robertson then moved, seconded
by Mr. Petrie, that the Council meet to-
morrow evening to hear this report.

As this motion was not put at once,
the discussion continued.

Mr. Harvey was surprised to hear Mr.
Raymond say that the facts could not
be brought down. The Committee had
had two full days, and if the books had
been in proper shape the report could
have been brought in to-night. Can all
the members of the Council be present
to-morrow evening? Or was the meet-
ing to be adjourned till next week; and
if so, what was to be done in the mean-
time? A full board should discuss the
matter.

The Mayor said he had gone through
the figures with the Committee, and there
was nothing in them to be alarmed at.

Mr. Elliott expressed surprise that it
took so long to make a statement of the
committee's affairs. If the books of the
Road Overseer were not kept properly,
that gentleman was not competent to fill
his office.

The Mayor then put the motion for
the meeting to-morrow evening, which
was carried and the Council adjourned.

ACCIDENT AT DRAYTON.—On Tuesday
morning last, an accident which had al-
most proved fatal happened at Mr. Kir-
land, of Drayton City Mills. After
starting the grist mill in the morning,
Mr. Kirland proceeded to belt the
pulley on the shaft which drives the ele-
vators or carriers when he was caught
under his left arm and carried round
several times with the mill. In attempt-
ing to save himself the left hand was
caught in the gearing, almost cutting off
two fingers. He was also badly bruised
about the chest and limbs. His shirt
was completely torn off, and had it not
been for the timely breaking of the belt
a sudden and terrible death must have
been the result. Under the care of Dr.
Smith, good hopes of his recovery are en-
tertained.

SEVERE GUN ACCIDENT.—On Tuesday,
21st inst., James Mitchell, a young man,
in company with another young man
named Clay, in the forenoon left Glen-
allan with their guns to go flow-
ing. When about half a mile from home
Mitchell fired at a high boiler, and his
gun not being in good order broke at the
stock, and flying back struck him across
the bridge of the nose and on the cheek
bone. The stock was completely shat-
tered. The breach entered the cheek,
and it is thought raised the cheek bone.
The injured man walked home with the
breach fast in his cheek, but when he
arrived it took three men to hold him
while his brother abstracted it. Dr.
Wright was soon in attendance and
dressed the wounds.

London, July 24.—The Times corres-
pondent telegraphs from Paris that the
Marquis of Castellane will move the
proposition of the Assembly to-day, and
that the motion will probably be carried,
as the Government will accept it.

Local and Other Items.

A son of Mr. John McBeath, 4th con-
nel, had the forefinger and thumb of
his left hand mangled in a fearful man-
ner while working at a sawing machine
recently.

BOW BELLS.—Current numbers of this
popular periodical have been received
from Anderson's and Day's bookstores,
where copies may be had. It is fully up
to its usual standard of excellence.

THE PRESS EXCURSION.—On the arrival
of the Press Association in Collingwood,
on their way to the northern lakes, they
were presented with a dinner and ad-
dress by the representatives of the
town. The visiting party consisted of
about sixty ladies and gentlemen.

MACHINERY FOR THE NORTHWEST.—Dur-
ing the past week the firm of Goldie &
McCulloch of Galt, have shipped to Saint
Ste. Marie the machinery of a flouring
mill just erected there, and also to the
order of the Dominion Government a
quantity of machinery for a Saw and
Shingle Mill being erected some 300
miles west of Fort Garry.

THE GOVERNOR GENERAL'S TOUR.—
Lord Dufferin's intended visit is causing
a great stir among the towns and villages
which he has deigned to honor with his
presence. In Newmarket, he will lay the
corner-stone of the "Christian Church."
Barrie expects a gathering of between
10,000 and 15,000.

The theory among scientists now is
that the great Sahara (desert) of Africa
was formerly an inland sea, which was
dried up by some extraordinary convul-
sion of nature. It is proposed, by a
canal twelve miles in length, to connect
it with the Mediterranean at the Gulf of
Gades, when it is expected an inland sea
would be formed 250 miles long by 45
in breadth. The expense of the canal is
estimated at 15,000,000 francs.

ACCIDENT AT BRIDGEPORT.—On Mon-
day forenoon, 20th inst., as Mr. Thomas
Schmidt was assisting in loading saw
logs at Snyder & Schwartz's saw mill,
the hook slipped, and the log began to
roll. Schmidt tried to stop the log by
placing a handspike in front, but of
course without effect. The rolling log
drove the handspike with great force
against Schmidt, breaking his lower jaw
and knocking him insensible to the
ground. Dr. Bowly, who was immedi-
ately called, thinks the injuries done
comparatively slight.

A CURIOSITY.—A year ago last spring
Mr. Ferguson, of Brucefield, purchased
from Mr. Robt. McMillan, of McKillop,
two Hamburg fowls, a hen and a rooster.
During the summer the hen laid and
hatched a number of eggs. In the fall
the rooster was killed. During last win-
ter the hen became sick and cast all her
feathers. In the spring, the new coat of
feathers which grew, exactly resembled
those of a rooster, and now this wonder-
ful fowl has the full plumage of a rooster.
She has not laid any this summer, and
has commenced to crow, and apparently
is a rooster.

A CERTAIN English cable manufacturer
is out with a statement that the present
form of telegraph cable is certain to de-
cay sooner or later, most likely within an
average of seven years, owing to the
Stubs from the surface of the cable, which
is made of iron wire. His
idea of a cable is a hemp. A cable made
in this way, he says, can be made much
cheaper and quicker and be far more
durable, easier laid and more readily re-
covered and raised. And as a natural
result, it would produce a reduction of
cable tolls, not an unimportant consid-
eration, so that we will all hope the En-
glishman's invention possesses all the
merits he claims for it.

FIAT JUSTITIA.—They have a queer
way of meting out justice in Meaford.
A man named Stubbs was fined about
\$10 for striking a constable who was en-
deavoring to arrest him, and another
man named Miles, who tried to rescue
the constable, was fined \$250. The man
committed for trial for his heinous offence,
but bailed in the sum of \$500 himself, and
two sureties in \$250 each. Perhaps this
procedure can be accounted for by the
fact that Stubbs is rich, and Miles is his
too-faithful servant.

THE CANADA LABOR UNION.—The an-
nual meeting of this Union will be held in
Ottawa, on the 24th of August. A large
attendance of delegates from Ontario
and Quebec is expected to be present.
The meeting will occupy one week. The
Vice-President of the Union waited on
Mr. Mackenzie to obtain, if possible, the
use of the rooms in the Parliament
House which were occupied by the
Dominion Board of Trade, for the use of
the Congress while in session. They were
promptly granted, as well as free access
to the library by all the delegates, Mr.
Mackenzie remarking that the workmen
were worthy of consideration, and would
always have it at his hands.

HYDROPHOBIA.—A very foolish scare
has been got up in New York by some of
the evening papers on the subject of
hydrophobia, and one poor man has ac-
tually gone crazy from sheer fright. The
panic only brings out very clearly, what
well-informed persons knew before, that
hydrophobia is an exceedingly rare dis-
ease, not more common in summer than
in winter, and that the majority of cases
supposed to be hydrophobia are not that
at all. With respect to its communi-
cation to men, it appears that only two
cases have occurred in many years, and
the disease in these cases was not well
understood. The effects of fear or im-
agination upon the nervous system are so
great that it is probable that a panic of
this kind which had no existence in fact
at all would work just as much mischief
as is ascribed to hydrophobia.

G. T. B. SIDING AT PAISLEY BLOCK.—A
siding is being laid down on the G. T. B.
at Paisley Block, opposite Mr. Hobson's
residence, the distance between Guelph
and Dresden being too great without
having an intermediate crossing-point.
There will be a telegraph office in con-
nection, which we doubt not will in course
of time assume the dimensions of a flag
station, by which means a great benefit
will be conferred upon the public in that
vicinity.

BASE BALL ACCIDENT.—During a game
between the Mount Forest and Durham
base ball clubs the other day, two of the
former team came into collision while
running after the ball, and one of them
named Alexander Godfrey had his collar
bone broken. The injured player was
one of the best on the field. He is re-
covering from the injury.

BY TELEGRAPH TO THE MERCURY</
