The Charm of a Well-equipped Kitchen

The ambition of every bride and every woman of good taste is to surround herself with those things that flatter her discernment and wise foresight. In her kitchen there is more evidence than elsewhere of a desire to bring into an otherwise drab atmosphere the color that helps to brighten and cheer. And so we find in the selecting of cooking utensils, women of discretion choose attractive and distinctive Enameled Ware. Greater evidence of her good judgment will be found in her choice of

McClary's

Enameled Cooking Utensils

as the finest examples of flint-like, glassy surface articles.

So wondrously easy to clean with merely a rub from a damp cloth. A finish that always stays delightfully fresh looking. A surface that remains untouched by fruit acids. Altogether something that does not dim with age nor lose its effectiveness.

For every woman, whose object is to create an atmosphere of charm amidst the surroundings of a workaday world, we earnestly recommend the purchase of these fine McClary's Enameled Cooking Utensils.
