TWO HAMILTON DEATHS. Hamilton, June 13 .- Miss Jeanette Wilson, daughter of Mr. Andrew Wilson, King street east, met a somewhat tragic death Friday night. She fell while going down stairs, receiving a

violent blow on the base of her skull. Luke Thompson, the well-known boat builder and boathouse owner, died suddenly. STEAMER WRECKED. St. Johns, Nfld., June 13.-The steamer Arbela, while bound from St. John, N. B., with a general cargo and a deck load of deals, ran ashore in a dense fog at 9:30 o'clock Friday morning at St. Shott's Cove, on the south coast of Newfoundland, 100 miles from here. It is believed that her crew and passengers were saved, though there is no

means of knowing positively that this is so. The sea is making a clean breach over the Arbela, and her deck load of deals is scattered along the coast. Owing to the storm no direct news can be obtained by telegraph, but it is certain that the ship will prove a total wreck.

To be old-fashioned has been for some time the fashion where many things were concerned. Names pas took of the general tendency. ranciful "made-up" cognomens of a generation ago gave way to "Dorotay," "Marjorie," "Esther," and other refanciful "made-up" cognomens of vivals of a yet farther removed vogue. Just now fresh emphasis is aid on this phase of the fashion by the return of the old-time names for flowers. It is more fashionable today, for in-stance, to speak of "daffadowndillies" rather than of jonquils, and of 'ragged-robins" rether than of Pansies are once more called "johnny-Upon the same prinjump-ups."

STARS AND STRIPES ON CUBAN

SOIL. Off Guantanamo, Cuba, via Port Antonio, Jamaica, June 13.-The invasion on Saturday. Six hundred marines pitched their tents among the smoking ruins of the outer fortifications of Guantanamo, and the Stars and Stripes for the first time float from a Spanish flagstaff in Cuba. To Capt. Clark and the battleship Oregon belong the honor of accomplishing the most successful landing of the war. Forty marines from the battleship went ashore in the are believed heavy. The Americans morning and occupied the left entrance lost four killed and one wounded, and mate and movement, owing to the of the bay until the troopship Panther arrived with 600 marines. These, under the command of Lieut.-Col. R. W. Richmond, lately practicing in New Huntingdon, arrived at 3 o'clock, and within half an hour they had burned the buildings of the Spanish camp and had set fire to the miserable little village which crouched on the beach under the hilltop of Guantanamo. The whole operation of silencing the guns and landing the forces was as easy as placing a Sunday school picnic. The Marblehead, backed by the Vixen and Dolphin, opened fire on the earthworks on Friday. The shores to the right of the entrance were lined with guns and

rifle pits, but the Spaniards stampeded after firing a few shots. The city of Guantanamo lies four miles up the bay, and a little Spanish gunboat came down to help the shore batteries. But she stayed just long enough to turn around. Numerous shots were fired by the Spaniards, but

not one landed, and no Americans were injured. The main fort lies within the city limits, and is still to be reduced. The American officers say it can be taken in fifteen minutes when desired. The Marblehead, Dolphin, Vixen and two colliers had been off the entrance of the harbor for several days, and on Saturday morning they sailed into the channel. A mile further up they open-ed fire, sending 50 shots at the fortifications on the left. The hills on the right of the entrance were deserted. There were no war defenses on the right side of the harbor.

No attempt was made to land until the Oregon steamed in early in the morning. Capt. Clark immediately sent 40 marines ashore, and 20 from the Marblehead followed. They found evidence of a very hasty departure by the Spaniards. Watches, hammocks and ammunition were scattered about the earthworks, and a Spanish flag was found in one of the rifle pits. The little detachment of marines held the place until the Panther arrived, when they were recalled and the work of disembarkation began. The first boatload had scarcely landed when the village

burst into flames. Company B, under Lieut. Hall, was the first ashore, and without the loss of a moment, the column started up the steep, rocky hillside to the earthworks, eventually taking up a position at the top of the hill. As soon as the American flag was swung out to the breeze from the flagstaff of the captured Spanish fort, the Oregon steamed away to join the fleet off Santiago. The marines will hold the position until the arrival of the expected troops, in the meantime scouting in the vicinity, with the Marblehead, Vixen and Dolphin lying by to protect them. Rear-Admiral Sampson now has a harbor and a base of supplies on the

south side of the island, and troops can be landed at will. The troopship Panther reached the fleet off Santiago early Saturday. On her way over the Yosemite fired a dozer shells into the port of Baiquiri, but received no response. Guantanamo is but 40 miles from Santiago de Cuba, and is a splendid location for a base of supplies for the blockading fleet. The landing was effected in an hour without accident. It was known that 3,000 Spaniards were assembled within five miles of Crest Heights, the site selected for the United States camping ground, and the work of fortify-

capable of resisting any force the Spaniards would be able to send against By this stroke the American have gained a most desirable base. They now will be able to seize the railroad which runs from Guantanamo to Caimanera, and they can take without trouble several ships loaded with coal now lying in the harbor whenever the coal is needed for the American fleet.

It is understood that the Island of Cuba is entirely cut off from cable communication with the outside world. Report here has it that the cable ship Adria cut the cable at Santiago on Monday, and that the same day the St. Louis cut the cable running from Guantanamo to the Mole St. Nicholas, Hayti. She was interrupted in the work by shells from the shore, but the Marblehead sent several shells at the soldiers and scattered them.

CONFIRMED AT WASHINGTON. Washington, June 13 .- The navy de-Saturday with Admiral Sampson off Santiago by cable and by mail, with the result that it is now known officially that the American flag boats over Cuba at the mouth of Guantanamo Bay and that it has been maintained there since last Tuesday. All is ready at Guantanamo now for the landing of United States regular troops as soon as they arrive there, the marines holding

SAMPSON'S OFFICIAL REPORT OF THE MERRIMAC AFFAIR. Washington, June 13 .- The navy department on Saturday posed a bulletin giving a detailed official report from Admiral Sampson upon the heroism of Lieut. Hobson and his men in sinking the Merrimac in the Santiago channel. Admiral Sampson's report concludes with these words:

"I cannot, myself, too earnestly ex-

press my appreciation of the conduct of Mr. Hobson and his gallant crew. I venture to say that a more brave and daring thing has not been done since Cushing blew up the Albemarle. "Referring to the inspiring letter which you addressed to the officers at the beginning of the war, I am sure you will offer a suitable professional reward to Mr. Hobson and his companions, "There were hundreds of volunteers who were anxious to participate; there were 150 from the Iowa, nearly as many from this ship (the New York), and large numbers from all the other ships,

It is expected that Russia will protest against the open alliance of Admiral Dewey as a belligerent with Aguinaldo, the insurgent chief, London, June 13.—The Madrid correspondent of the Standard, telegraphing Sunday, says: General Blanco having

again telegraphed that in case the blockade becomes stricter, it will be urgent to send war stores, as his supplies are running short, the government has taken steps to dispatch abundant supplies by fast vessels from Spanish and foreign port. The more important supplies from Spain will be strongly convoyed and will be sent immediately. Gen. Blanco has also telegraphed that the authorities at Santiago de Cuba claim to have repelled the American attempt to land in the lower and outer bays of Guantanamo, the Spanish forces being entrenched in positions commanding the best landing places between Santiago and Guantanamo.

BIG LOAD OF COAL CAPTURED. New York, June 13.-A dispatch from Mole St. Nicholas, Hayti, says: The merchantman captured by the auxiliary cruiser St. Louis, just off Morant Point, Jamaica, last Friday night, was the British steamer Twickenham. On board the Twickenham are 3,200 tons of coal for the Spanish fleet. She has been sent as a prize to Key West. In the fireroom a man in overalls was found, who spoke only Spanish. After a vigorous cross-examination by Capt. Goderich, of the St. Louis, this man admitted that he was a Spanish officer in charge of the cargo. On the approach of the St. Louis he had thrown his papers and commission overboard. He appeared to be badly scared at the way things had turned out. He was sent as a prisoner of war to Key West on board the cap-

tured steamer. Has Manila Fallen? UNCONFIRMED RUMORS SAY IT
