GRAIN. TORONTO

Toronto, April 28.—The wheat markets are not much changed, but feed grains are firmer, as last night's cold spell will set back the pasturage still further, and the stocks of corn, cats and barley will be again drawn upon. There are plenty of cats, but the other feed grains are in scant supply. The flour trade has started up again. Quotations:

LIVE STOCK.

Toronto, April 27.—Deliveries were light and trade was fairly active at the Western cattle market today. The exporters, however, seemed to be overstocked, and were not buying any too freely. Prices receded as a result and were again normal. Generally speaking butcher cattle were in better demand than they were last week. Several very good loads were marketed and brought within the neighborhood of \$5 to \$5 20 per cwt.

The only commodity that was offered in any quantity was hay. The price has advanced again, one load bringing \$14, while the majority sold for yesterday's top price, \$13 50. There were about 20 loads in all offered, and there was a steady demand.

Generally speaking butcher cattle were in better demand than they were last week. Several very good loads were marketed and brought within the neighborhood of \$5 to \$5 20 per cwt.

"Prices are still too high," complained a butcher, "and the quality of the offerings, instead of improving, is deteriorating. There is going to be a deadlock here between the drovers and butchers in a few weeks unless an improvement in the quality of the stock takes place. We cannot market the sort we are getting, and we won't accept it; we will have to go out in the country ourselves to drum up better stuff." Generally speaking butcher cattle were

The views of other butchers, however, better stuff.
