HERE'S GOOD NEWS FOR PORRIDGE LOVERS

"FEELING FINE" SAYS MR. GAYNOR

New York's Wounded Mayor Puts in Good Night.

NO SERIOUS SYMPTOMS

Has a Substantial Breakfast and Inquires About Duties at City Hall.

[Associated Press.] New York, Aug. 11.—All reports this morning from the bedside of Mayor William J. Gaynor were of an encouraging nature, and the indications were that the distinguished patient in St. Mary's Hospital, Hoboken, suffering from an assassin's bullet, was well fortified for what might prove to be a crucial day. At 7 o'clock this morning the following official bulletin was issued:

"Mayor Gaynor spent a comfortable night. Temperature 100 1-5; pulse 76, respiration 17. (Sgd. Wm. J. Arlitz, M. D.; George W. Stewart, M. D.) No Bad Symptoms. Dr. Stewart, who remained at Mayor Gaynor's side all night, made the following announcement: "The mayor awoke at his usual hour this morning, after his usual comfortable night's sleep. His temperature, pulse and respiration are normal. There are no unfavorable symptoms."

Mayor Gaynor's wound was dressed at 8 o'clock this morning, following which the following bulletin was given out shortly before nine o'clock. "The wound has been dressed and looks well. He conversed cheerfully and the situation is encouraging. (Sgd.) Wm. J. Arlitz, M. D.; George D. Stewart, M. D."

No further official bulletins will be announced until 4 o'clock this afternoon. A Real Breakfast. Mayor Gaynor had the luxury of a breakfast this morning. It consisted of bread and coffee, with the addition of an egg, the first substantial food that has been allowed the mayor since his injury. The patient seemed to relish the nourishment, and to Secretary Adamson, who visited him shortly before 9 o'clock with Doctors Arlitz and Stewart, he reiterated his statement of yesterday that he was "feeling fine."

Secretary Adamson said that the mayor's temperature was lower than yesterday. "I think it is the lowest yet," he added. The mayor wanted his secretary to go over to the city hall and look after the affairs of the office. "There must be some work to do there," the executive said.

Dr. Stewart left the hospital after the 9 o'clock bulletin was issued. The mayor's secretary, Robert Adamson, made this statement today: "As I understand it, the bullet, although it travelled among various important vessels, and skated over thin ice, so to speak, lodged in no dangerous place. The question as to why the surgeons do not operate seems to me very simple. They hold, I believe, that as the bullet rests in no vital spot, an operation at this time would be only a sort of irritation. "The operation, according to what the doctors tell me, would be very simple. In the case of President McKinley, the bullet lodged in the abdomen, where the circulation is not so active and there is a good deal of tissue. But this is an entirely different case. "One of the eminent surgeons has been quoted as having said that there is little danger of blood-poisoning from a wound in the neck. The circulation is very active there, and the wound is washed freely by fresh blood. "Mayor Gaynor could get up and walk right now, but it would not be advisable because of the possibility that a blood vessel might be ruptured should he do so."

Nothing more was heard of them.

A LUCKLESS INDIAN LOVER TAKES LIFE WITH DYNAMITE

Caughtnawaga Man, When Rejected, Takes Unusual and Desperate Means of Ending His Sorrow.

Montreal, Aug. 11.—Because his proposal of marriage was refused, Tom Smith, a Caughtnawaga Indian, last night blew himself to pieces with dynamite. His remains lay on the road all night and most of the morning, the people fearing to touch it before the arrival of the coroner. Smith went to Lachine yesterday afternoon and purchased the explosive for use in the quarries where he works. He returned to the village and called on the girl to whom he had been paying attention for some time, a Miss Douglas, a member of the tribe. It is said that he proposed marriage during the evening, but was not accepted. He left the house and on the road fell against a rock, exploding the dynamite. It is believed that he threw himself against the rock on purpose to destroy himself. His head and limbs were blown off and various portions of his body have been found scattered about a three-hundred yard radius. The remains were discovered shortly afterwards by persons living nearby, who heard the explosion. The parents and friends of the unfortunate man, who was 24 years of age, were instructed to take the body away. They refused to receive it into their home and were then told that it might be placed in the lock-up. They refused to touch the remains, however, and the body lay in the open all night and until instructions were received from Coroner MacMahon.

HARVESTING ON IN THE NORTH GOOD CROPS IN PERTH COUNTY

[Special to The Advertiser.] Stratford, Aug. 11.—The Advertiser man has had a hurried run through parts of Perth, Waterloo and Wellington Counties, and would report harvest operations well on the way, particularly in the vicinity of the Classic and Royal cities. The oat crop appears to be below the average in Perth and Waterloo, but fairly good in Wellington. The corn looks particularly well, and the dry, warm weather of early July no doubt gave this crop a good start. It has not been better for years. The apple outlook is by no means satisfactory, but on the whole orchard and field will do well for man and beast.

DOUBLE JOB SCHEME AT DOUBLE SALARY

How Some Toronto Firemen and Constables "Work" the Political Pull.

Toronto, Aug. 11.—A large section of citizens and ratepayers are beginning to realize the curse of the political machine in municipal politics. The municipal offices are largely held by Conservatives, who are used in provincial and Dominion politics. Pull seems all that is necessary to secure a lucrative position. The latest demonstration of the grafting propensities of the political machine was witnessed yesterday, when the fire and light committee of the city council decided to grant William Crawford a pension from the firemen's benefit fund of \$2 16 a month for the remainder of his life. He secured this on the report of his friends that he "was physically unable to perform his duties as a fireman."

RED FLAGS FLOAT IN MINERS' PARADE

Springhill Strikers Celebrate a Year of Idleness. Halifax, N. S., Aug. 11.—Hundreds of red flags floated in the mining town of Springhill today, where the striking U. M. W. miners were celebrating fifty-two weeks of idleness. The idle workmen formed a procession and marched through the principal streets in the business section to the picnic grounds a mile from the town, where a great demonstration was held. There were many little children in the procession and they all carried red flags. Fully a thousand men have been on strike in Springhill for a year and have been living on strike funds. Business in the town is at a standstill and the civic finances are in a deplorable state. The soldiers are still guarding the loyal workmen and the output is daily decreasing.

HAIL CUTS THE CROPS BY HALF

Hundreds of Thousands of Dollars Damage Around Leamington.

TOBACCO MEN HEAVY LOSERS

Leaves of the Corn Cut to Ribbons in Most Destructive Storm in Country's History.

[G. N. W. Dispatch.] Leamington, Aug. 11.—From later information it develops that the hailstorm which swept the Leamington fruit and vegetable belt yesterday afternoon changed the farmers' prospects for this year very materially. It is estimated that the peach crop was reduced to half the value of a few days ago. The melon crop also will be reduced to a half crop. The corn crop is very badly damaged, the leaves being cut into ribbons, but the heaviest loss will be felt among the tobacco growers. The tobacco crop within the storm-swept district will be a total loss, nothing being left standing but the stems. Estimates from reliable sources put the damage in the hundreds of thousands of dollars. Great losses were sustained by greenhouse owners. Old settlers report the storm a one of the most destructive they ever saw in the country.

MIDDLESEX FARMERS HAVE FINE WHEAT

Close Contest at Parkhill for Prize for Tallest Wheat. Parkhill, Aug. 11.—A tall-wheat contest has just closed here. A prize was offered to the farmer growing the tallest wheat. In the list of entries more than twenty exceeded five feet ten inches. Peter McNames, lot 4, concession 14, East Williams, presented a dozen samples six feet seven inches high, and from three and a half acre he threshed 115 bushels of Manchester variety. Reuben Wilson, McGillivray, reared six feet four and a half inches; Elijah Harris, West Williams, six feet one and a half inches; Thos. T. Thompson, West Williams, six feet one inch; James Haskett, six feet, and a dozen others within ten miles of Parkhill produced samples of scarcely less vigorous growth. And the grain is even better than the straw, both in yield and in quality. Neil McKillop, Centre road, West Williams, threshed 450 bushels from eleven acres, nearly 41 bushels per acre. Robert Hutchinson, ex-reeve of McGillivray, is authority for the statement that the farmers of Middlesex and Huron will have three times the quantity of grain and farm stuff for sale this year than they had last year.
