. GLAD TIDINGS.

"Could there be much better news than the new German declarations on naval armaments and Anglo-German relationships?" writes the dean of British journalism, H. W. Massingham. "I do not think so. Considering that laid down in the past. More could exeighteen months ago there was danger pound their respective polities and inof war that the division of Europe into two heavily-armed camps seemed still more firmly on the nations' backs, Symonds represents the modern spirit it is nothing short of wonderful that the clouds should have lifted so suddenly, and have revealed so bright a

The immediate occasion of Mr. Massingham's rejoicing is the acceptance by the German naval secretary, Admiral von Tirpitz, of Mr. Churchill's formula-16 British to 10 German Dreadnoughts. The Tirpitz statement in Mr. Massingham's opinion, brings a definite halt in the race of armaments.

"Germany cannot now be charged with aiming at the destruction of our command of the seas. She cannot be suspected of planning invasion. The most formidable edifice of ill-will and suspicion has fallen; and what is left should, with a little commonsense and good-will, be easily remov

But the Borden naval policy is disturbing factor. It will, if carried out, upset the 16 to 10 standard. On this point Mr. Massingham says:

"There is, of course, a danger that it may be disturbed by the addition of the new Canadian ships to the strength on which the Churchill calculations were made, for then the great additional force secured to our navy may look like an effort to attain an over-weening predominance in place of the reasonable superiority which Germany now fully, formally, and properly allows to an island maritime power. Canada can help to cement the Anglo-German understanding, not by going on with the Borden policy, but by dropping it. That policy was based on the pretext of an emergency which does not exist, and the very phantom of which has vanished. THE CASE OF REV. DR. SYMONDS. The Rev. Dr. Symonds, rector of Christ Church Cathedral, Montreal, who is now visiting this city, is at

present a centre of general interest. On the invitation of a Presbyterian minister, he preached recently in the pulpit of the sister denomination. The Presbyterian Church is situated within the territorial limits of an Anglican parish other than Dr. Symonds', in the Diocese of Montreal. Accordingly an objection has been raised that he should have had permission from the rector of that parish before acting upon the Presbyterian invitation. But the complainants really object to an Anglican clergyman preaching in a non-Anglican pulpit in any eircumstances.

One church organization in Montreal has even asked Bishop Farthing to suspend Dr. Symonds. On the other hand, the elergyman himself denies that he has broken any law, and he apparently has many supporters in his

GREAT ORATORS; WILLIAM PITT THE YOUNGER

[By Special Arrangement With the Winnipeg Telegram.]

William Pitt, the younger, and Charles James Fox might well be called the twin Dioscuri of the dawn of English oratory. They were the boy wonders of their age. Fox began his parliamentary career at the age of 19; Pitt became a mature statesman at the age of 22. His rivals mockingly called him "this boy," but he was riper in wisdom than even his great father, the Earl of Chatham. Pitt the younger was really a chip of the old block, as intense a lover of his country, as pure n conduct, and as able in scholarship as his noble father. From his earlies "I prefer this harness shop," said years he enjoyed the benefit of the elder statesman's advice and training. The great Chatham was not too busy with affairs of state to devote some time each day to his promising son. According to Lord Rosebery: "Pitt's father would make the boy of an evening read freely into English the pas-(They've mobbed the ministers sages which he had construed with his tutor in the morning. It was to these lessons that he always attributed his ready copiousness of language." Lord Chatham also read the Bible daily to When pain and anguish wring the his children and encouraged his son to talk with him without reserve on every subject. The classics, especially Aristotle's Logic, were his delight, but he gave almost as much time to English masters of style. Shakespeare and Milton were his favorites, and he used to recite long passages from both authors. Under his father's direction he declaimed from these poets and from ancient orators; as a youth no (Now Asquith's speech with hoots gave a great deal of time to the task of perfecting his voice, so that when ne came upon the parliamentary stage nis clear enunciation and sonorous tones were the delight of all hearers.

THE SITUATION IN MEXICO

My dope on conditions is zero Regarding that Mexican row; My sympathies leaned to Madero, He's been up against it, somehow; In fact he has always struck me as A chap who'd do well if he could, But, badgered by plotters like Diaz, He hadn't a chance to make good.

Could his plans ever reach execution When every new day he must face A large or a small revolution Which threatened his power and place? It's hard to do much for the nation, To work and to plan and be calm, When some folks' entire occupation Is trying to slip you a bomb!
