THE LAKE OF BAYS.

This lake of a thousand bays, reached through Huntsville, 145 miles north of Foronto, is one of the scenic gems of the Dominion of Canada. It has a shore-line indented in such a manner that it affords constant delights and surprises. On sites overlooking these bays have been erected charming cottage homes with, here and there, hotels that are in keeping with their setting of wistful waters and brooding woods. To spend a summer vacation here is to be near to nature in her most fascinating mood. An entire season may be spent in exploring the Lake of Bays and her sis-THE LAKE OF BAYS.

Many Reforms Made.

President Roberts claimed that largely through the work of the union, including the education of public opinion, reforms had been made and a better atmosphere created, so that there was not the same urgency in that part of their work. But careful watching and organized defence were still necessary in connection with proposed legislation as well as before the offshoots of Parliament in the shape of boards, commissions and otherwise. The recent successful fight of the union against increased telephone rates was cited as proof that the union as a fight-cited as

Tolmie could say when asked if he thought his mission to the old coutnry would be successful.

Dr. Tolmie said he had made it perfectly clear that the British embargo against Caandian cattle had been instituted on an entirely false claim. The embargo was placed on the assumption that pleuro-pneumonia existed among Canadian cattle some thirty-seven years aga. After most thorough investigations this charge had been completely exploded. It rested with the British authorities as a matter of honor to take away this aspersion made against Canadian
