Juvenile Needs.

ered on the child. It has determined that the children of Canada shall are here to stay. not be handicapped in any way and that none shall perish.

Yet multitudes of boys and girls in London are handicapped and do perish because of their being branded with the stigma of delinquency which in the minds of the masses is tynonymous with crime.

And this because London has no

proper juvenile court. Elaborate facilities are afforded for the intensive care and treatment locality depended on the food supof all classes of children except de- ply." linquents; notwithstanding the projudges to the contrary, a delinquent child in London is not given the chance to which he is entitled under ciently great he is made an outcast and his possibilities for success in life destroyed.

The principle of the juvenile court is to shield the child; to save him from the harshness of a trial; to and the guardianship of Dominion justice when the heavy hand of the law would seize him in its relentless

The principle is beneficent in all its implications, yet it is shorn of its and bailiffs that hovers over practidren; by the custom of emphasizing thre to spots where these conditions the particular act the child has com- still exist. mitted and by the disposing of him solely in reference to that act.

ing childhood by transferring its work to administrative agencies in which neither the term "court" or "delinquent" is heard, and which are able to administer the treatment that science and knowledge dictate.

Galsworthy, in his play "Justice," has illustrated the inability of the law to administer justice in particular cases; this cannot occur in a juvenile court where probation prevails; all material and human interests can be subserved, and a judge will not be obliged to stultify himself by a pretended exercise of mercy, which under the law he is not authorized or empowered to extend to the prisoner.

allied with what is vulgarly termed young. "mollycoddleism.

Probation seeks to save men, to rehabilitate rather than destroy; to preserve the family; to protect society and the state; to build up a new social order that shall be founded on the principles of brotherhood rather than that vindictiveness and hate; to eliminate the spirt of retribution which in fact permeates police courts, and substitute therefore true prevention and reformation which mass of an antiquated legal proce-

The achievements of the juvenile court elsewhere during the past years are indicative of that which might be accomplished in London should the principle of probation become an established and settled policy in the criminal court of this
