### THE RACING CALENDAR. FORT ERIE RACES.

Buffalo, N. Y., June 30.—The weather was perfect for good racing—clear and fine—and the track was fast at Fort Erie today. Our Johnny, a popular choice with Buffalo race-goers, was up again in the fifth race at 1 1-16 miles. He showed excellently, and did the first mile in 1.45%, the fastest time of the meet, but was beaten out at the wire owing to careless riding on the part of Jockey Neumeyer. Free Lance was the victor at 4 to 1. Bad riding also beat the favorite, Pearl, in the last race.

WELL KNOWN VIOLINIST

Traveled Extensively Throughout the Concerning His Experience.

STELLARTON, N.S.-James R. Murray, a well known violinist, of this place, who has traveled extensively throughout the Provinces, makes this statement:

"I was running down in health and my weight fell off from 175 to 150 pounds. Prescriptions did me but little good. My trouble was called nervous dyspepsia. I resorted to Hood's Sarsaparilla and after taking five bottles I was greatly benefited. I feel as well now as ever in my life, and have increased in flesh so that I now weigh 177 pounds. I am well known in this part of the country, having followed my profession, that of a violin musician for the last 26 years. I gladly tell my friends what Hood's Sarsaparilla has done for me. Before I began taking the medicine I did not have any ambition, but now all is changed and my dyspeptic trouble

perfectly cured." JAMES R. MURRAY.

The departure of the Oxford Rifles yesterday reduced the strength of the camp about 350 men and also gave the western end of the grounds a rather deserted appearance. The Rudeness of Young Society Men From the New York Times. The rudeness of young society men

and their independence of their hostess and her guests is spoken of too often ot to have some foundation of truth. At social functions a woman is absolutely helpless without a man. She cannot dance unless she is asked, she cannot move from her seat without an escort and the hostess cannot, with the best intentions, properly entertain her woman guests without the aid of the men. And they are usually in the minority. Their sphere of amusement is so much wider than that of the women that they are not as dependent upon social functions; consequently the young man grows to feel his weight, and he abuses the hospitality offered. This is a frequent complaint. He accepts his hostess' hospitality just so far as pleases him, and no further. He is pleased to be courteous to her guests if they please him. For convenience in navigating the river the expeditions had broken up into parties of three or four, for the skiffe they had built would not accom date more. They had before them, he said, 300 miles of good plain sailing, the only obstruction being a rapid at Fort Simpson, near the mouth of the Lizard river. Campbell and his friends intend to make their way up this river to the divide, which is about 300 miles to the westward, and there they will prospect. Should they strike it rich they will remain there all winter. Charles W. Gauthier said he had just reached Dawson City. The expedi had had to stay some time at Lake Bennett, building boats and waiting for the ice to break up. As soon as the ice was gone there was a rush to Daw son City, and within three days 1,000 boats, bearing fully 4,000 men, had arrived there.
